FACULTY

NORMAN B. ADKISON ........................................... Psychology, Education (1936)
B.S., University of Idaho; M.A., Columbia University.

BRUCE C. BUDGE ............................................... Zoology (1937)
B.S., M.B., M.D., Northwestern University.

A. B. CARSON ................................................... Engineering, Mathematics, Physics (1935)
B.S., University of Arkansas; A.M., Vanderbilt University.

EUGENE B. CHAFFEE ........................................... History (1932)
A.B., Occidental; M.A., University of California.

MAX EIDEN ..................................................... Physical Education (1934)
B.S.(Ed.), University of Idaho.

J. CALVIN EMERSON ........................................... Chemistry (1933)
A.B., Northwest Nazarene College; B.S., College of Idaho; M.S.,
University of Idaho.

CHARLOTTE G. GAYLORD ..................................... English (1936)
A.B., Occidental; Graduate Librarian, University of California.

ADA Y. HATCH ................................................ English (1932)
A.B., M.A., University of Idaho.

ELSIE J. MCFARLAND ......................................... Mathematics, German (1932-34, 1937)
A.B., M.A., Ph.D., University of California.

LUCILE E. NELSON ........................................... Women's Physical Education (1937)
B.S.(Ed.), University of Idaho.

CAMILLE B. POWER ........................................... French, Spanish (1932-35, 1936)
A.B., James Millikin University; M.A., University of Illinois;
Diplome Universite de Poitiers, Institut d'Etudes Francaises de
Touraine, Tours, France; University of Chicago.

DEPARTMENT OF MUSIC

JAMES L. STRACHAN, Director ......................... Theory, Organ, Piano (1932)
Mus.B., Oberlin College.

KATHRYN ECKHARDT-MITCHELL ................................. Violin (1932)
Institute of Musical Art, New York; Pupil of Franz Mairecher,
Konzertmeister des Staatsoper, Meister Schule, Vienna, Austria.

KATHRYN EIDE ............................................... Cello (1936)
Mus.B., Oberlin College.

LUCILLE T. FORTER ........................................... Voice (1932)
Brenau College Conservatory, Georgia; Chicago Musical College;
Pupil of Herbert Witherapoon; Pupil of Plunkett Greene, Lon-
don; Pupil of Idelle Patterson, New York; Pupil of Charles
Granville, Chicago.

A. C. LANPHERE ........................................... Clarinet, Flute (1936)
Diploma of Music, Monmouth Conservatory; Pupil of L. Raquet,
San Francisco; Pupil of A. Lindon, San Francisco.

PART I
GENERAL INFORMATION
Boise Junior College

HISTORY

In the spring of 1932 Boise Junior College was organized in response to a demand for higher education in Boise. During the first two years, 1932-34, the college was sponsored by the Episcopal Church, with the Right Reverend Middleton S. Barnwell, Bishop of Idaho, as its first president. In June, 1934, in response to an appeal from Bishop Barnwell, a board of public-spirited individuals assumed the responsibility of directing the school, and as a result a non-profit corporation was formed whose stockholders were Boise citizens interested in education. The buildings now housing the college had formerly been used for a girls' academy under the direction of the Episcopal Church. The Church generously donated the use of the buildings for the operation of the school.

THE PLAN

The program plans to meet the needs of those students who have graduated from high school and desire to continue their education with one of the following goals in view:

1. Those who plan to enter a senior college and need courses of a general preparatory nature;
2. Those who are interested in carrying their education a year or two beyond the high school level in preparation for immediate entrance into the general field of business and the professions;
3. Those who wish to enroll in regular classes as auditors and take courses without credit. Evening classes for such people have been organized, and as further demand arises others will be added.

THE PLANT

The Boise Junior College is situated between First and Second on Idaho Street, and includes:

St. Margaret’s Hall—A three-story structure housing administrative and faculty offices, auditorium, library, class, and laboratory rooms.
Buchan Hall—A one-story building of classrooms.
Trinity Hall—Chemistry lecture room and laboratory.
Talbot Gymnasium—This structure, named in honor of Bishop Ethelbert Talbot, who founded St. Margaret's School, was erected in 1932 with funds raised by citizens of Boise. It contains a standard gymnasium floor, with locker and shower rooms for both men and women.
The Library—The library is open fifty-three hours weekly, and all books are easily accessible on the open shelf. Periodicals and daily newspapers are regularly received. The college library consists of approximately 4,000 volumes. Further library facilities in Boise are available to college students through the courtesy of the Carnegie and State libraries.
LOCATION AND SURROUNDINGS

The Junior College is located in the state capital, where students have the opportunity of observing the operation of the state government and many phases of federal government.

Boise enjoys a mild climate, and is a city of beautiful homes. There are splendid hotel facilities, several wide-awake civic organizations, churches of all the leading denominations, two radio stations, two well-equipped hospitals, a state library of 40,000 volumes, and a Carnegie library of approximately 50,000 volumes. Boise is favored by membership in the Community Concert Series, featuring artists of national and international fame. Outstanding lecturers and entertainers also frequent the city.

Boise is a center of historic and scenic interest. Thirty miles distant lies the Boise Basin with its mining lore of the '60's. Such recreational centers as Payette Lakes to the north, and Sun Valley and the Sawtooth region to the east offer unsurpassed vacation spots.

Transportation facilities are excellent. Boise is the center of transcontinental and state highways, and is consequently easily accessible by either auto or bus, and it is located on transcontinental rail and air lines, with the accompanying rapid passenger and mail service.

SCHEDULE OF FEES

Tuition:
If paid in full at beginning of year (for entire year) ........ $110.00
If paid at beginning of each semester (per semester) ............. 60.00
For students taking less than 10 credit hours (per credit hour) . 5.00
For students auditing courses but not for credit (per semester hour) ................. 2.50

Special Fees:
Carrying charge for those paying tuition and fees in monthly installments (per semester) .................. 3.00
Final examination at other than scheduled time .................. 1.00
General deposit (covers laboratory breakage, damage to or loss of college property, and 50c deduction for examination blue books) 5.00
Graduation fee ........................................... 3.00
Registration Fee: Not refundable, but applies on tuition at time of enrollment .................. 5.00
Transcript: One sent free, extras, each ................................ 1.00
Sociology (per semester) .................................... 1.00

Laboratory Fees:
Chemistry, Physics, or Zoology (per semester) ........... 5.00
Psychology (per semester) .................................. 1.00
Engineering Drawing or Descriptive Geometry (per semester) 3.00
Art Course (per semester) .................................... 1.00

Student Body Fees:
Includes athletics, health, library, entertainment, dramatics, glee club, and other things the Student Executive Board decides to include (per semester) .................. 7.50
### SCHEDULE OF FEES—Continued.

**Music Department:**

- **Piano**—One lesson weekly (per lesson) ........................................ 1.50
- **Organ**—One lesson weekly (per semester) ...................................... 25.00
- **Voice**—One lesson (half hour) weekly (per week) ............................ 1.50
  - Two lessons (half hour) weekly (per week) .................................... 3.00
  - Class lessons (once per week) (per semester) ................................ 5.00
- **Violin**—One lesson weekly (per lesson) ........................................ 1.25

### ADMISSION TO THE JUNIOR COLLEGE

Applicants for admission must be at least 16 years of age and must present satisfactory evidence of good moral character.

**Credentials.**—Students applying for admission to the Junior College are required to furnish credentials as follows:

1. **An original transcript of high school credits signed by the principal, superintendent, or other authorized official.**
2. **Official transcripts and statements of honorable dismissal from each institution attended after high school graduation.**
3. **Personal data on the regular application-for-admission blanks.**

Blanks for furnishing personal data may be obtained on application to the registrar. High school, normal and college records should be furnished on the transcript blank of the institution at which the work was taken. All credentials should be sent direct to the Registrar of the Junior College at Boise, Idaho, not through the student. Prompt attention to these details will avoid delay in registration.

**Permits to Register.**—Applicants for admission whose credentials have been accepted will be given permission to register for the following semester. Applicants will be saved much inconvenience and uncertainty if all their credentials are received by the Registrar in sufficient time for the settlement of any question through correspondence and the receiving of permits to register before the proposed date of admission.

### ADMISSION AS REGULAR STUDENTS

**By Certificate.**—Admission to the Junior College is based upon credentials showing:

1. **Graduation from an accredited four-year high school and presentation of fifteen acceptable units (Plan I), or**
2. **Graduation from an accredited three-year senior high school and presentation of twelve acceptable credits (Plan II).**

A "unit" represents a high-school subject taught five times a week in periods of not less than 40 minutes' duration (laboratory 80) for a school year of at least 36 weeks. Uniform Certificate of Secondary School Record should be filled out and signed by the superintendent, principal, or other official of the school in which the work was done. It should show the length of each course in weeks, the length of each recitation, and the grade.
of scholarship attained, including a record of all failures and conditions. All certificates accepted toward admission to the Junior College become the property of the Junior College, and are permanently filed among its records. They can not be returned to the student, but certified copies will be issued if needed.

Academic units shall be defined as English (composition and literature), foreign language, mathematics, social science, and natural science. Elective units may be taken from the academic subjects named as well as from vocational and other subjects commonly given in high schools, with the following exceptions:

(a) Military drill, spelling, penmanship, reviews, project work in conjunction with regular courses, and work which is primarily of the nature of extra-curricular activities.
(b) Less than one unit in foreign language, shorthand, typing, or bookkeeping.
(c) Less than one-half unit in any subject.
(d) More than one unit in physical education.

Requirements for admission to the Junior College are listed in the table below. Students planning to attend Senior College after completing work in the Junior College must present evidence of having had the high school courses listed under the title of the proposed Senior College course. (See Tables below.)

**PLAN I**

Graduation from an Accredited Four-Year High School and Presentation of Fifteen Acceptable Units

The specific requirements and apportionment of required and elective units for entrance to the various divisions of proposed Senior College or Four-year College courses are shown below:

</table>

*It is highly recommended that one of these units be physics.
†Two years of college are required before entering these specific schools.
‡Admission to Education Department is granted upon presentation of evidence of having graduated from a high school accredited by Idaho State Board of Education.
PLAN II
Graduation from Accredited Senior High Schools Organized on the 6-3-3 Plan

1. Full admission to all divisions of the Junior College shall be based upon 12 units completed in Grades X, XI, and XII.

2. Of the 12 units accepted for admission not to exceed three units may be non-academic. The academic units shall consist of a major (three units) and two minors (two units each) or four minors.

3. Specific requirements for admission to the various divisions are shown below:

ADMISSION AS SPECIAL STUDENTS

Persons over twenty-one years of age, who are unable to meet requirements for regular students and desire to take special studies, may be admitted as special students upon presentation of satisfactory evidence that they are qualified to enter upon the work. Save in very exceptional cases, students will not be admitted directly from the secondary schools to the status of special students. In such cases, the principal of the last high school attended will be consulted. All persons who have not completed secondary school are urged to do so before applying for admission to the Junior College.

Graduates of accredited high schools are not admitted as special students, but are expected to qualify for regular undergraduate standing in accordance with the general rules.

A special student is not eligible for any certificate. Before being admitted to candidacy such student must attain regular standing and be
in residence carrying a regular schedule of work for at least one year thereafter. Registration in any semester is dependent upon the record thus far made in the Junior College.

ADMISSION FROM OTHER COLLEGES

Students entering from other colleges must present official transcripts (mailed direct to Registrar), and such work will be evaluated in the same manner as at the University of Idaho. Students entering from other institutions must comply with the same regulations as to their former scholarship as are applied to students previously enrolled in the Junior College.

LATE REGISTRATION.—A student who enters more than three weeks late may not engage in extra-curricular activities unless he has been in attendance at some other college that semester, or has attained an average of at least 1.25 quality points.

PART-TIME STUDENTS.—A part-time student is a student who has registered for less than ten hours of work. A part-time student is barred from all major extra-curricular activities.

PROBATION AND DISMISSAL

Any student who, during his career at the Junior College, fails to receive a passing grade in at least ten credit hours (if he is a full-time student) or who fails to pass in at least two-thirds of his work (if he is a part-time student) shall be placed on probation for the ensuing semester.

Students dropping to the status of probation may not take part in extra-curricular activities or hold office, and may not represent the College in any program unless academic credit is involved.

A student on probation may not register for more than twelve hours without the permission of the President. A student on probation, except an entering freshman, may not participate in extra-curricular activities during a probationary semester unless he attains an average of C during the first six weeks of that period, in which case he will be allowed to participate. After two successive semesters of probation, a student shall be subject to dismissal from the College. At the discretion of the President, he may be dismissed at the end of the first semester of probation if he is failing in more than 50 per cent of his work.

A student whose character and conduct are generally unsatisfactory may be dismissed from the College. The President reserves the right to handle special cases needing discipline.

SPECIAL NOTE.—Students from accredited secondary schools who have completed the required number of units, but have not graduated, may be admitted subject to the same grade regulations as graduates. (See scholarship requirements below.)

SCHOLARSHIP REQUIREMENTS.—Students who qualify for admission under Plan I or Plan II, but who rank in the lowest one-fourth of their graduating class or who fail to present recommending grades in at least two-thirds of the required units, will be admitted only on probation.
Recommending grades are those which are at least one "step" (letter or other symbol) above the lowest passing grade in a system using four passing grades. In a purely decimal system, recommending grades are those which are at least 10 points above the lowest passing grade.

PROBATION AT ENTRANCE TO THE JUNIOR COLLEGE

Entering students who did not earn recommending grades in at least two-thirds of their high school subjects or whose rank is in the lowest one-fourth of the graduating class will be placed on probation.

Students on probation shall take minimum loads and are especially urged not to take part in outside time-consuming activities. Students placed upon probation during the second semester shall take a lighter load than formerly and shall try other courses as a means of determining their interests.

Students entering on probation because of unsatisfactory high school record may take part in extra-curricular activities during the first nine weeks of their attendance at the Junior College. However, if such probation is extended, the student may not then take part in any extra-curricular activities of the College until he is removed from probation.

ADMISSION WITH DEFICIENCY IN GROUP REQUIREMENTS

Students who qualify for admission to the Junior College but who fail to meet specific group requirements as indicated in Plan I or Plan II may be admitted with deficiencies and take courses for which they are prepared. All such deficiencies must be removed before registering for the Sophomore year. Students entering with deficiencies will make up the deficiency with college courses without college credit or by taking work in a secondary school while taking part-time work at the Junior College. College courses can not be substituted for high school algebra and geometry. When college courses are taken to make up deficiencies, the time spent in such classes shall count twice as much toward making up such deficiencies as does an equal amount of time spent in high school.

SCHOLARSHIPS TO HIGH SCHOOL STUDENTS

The American Association of University Women awards yearly a scholarship to some girl in the graduating class of Boise High School. The choice is made by a committee composed of members of the Association who are also members of Boise High School faculty. In making the awards, scholarship and need are considered.

The Exchange Club of Boise gives one full scholarship or two semester scholarships yearly to worthy students, who may be either entering freshmen or sophomores who have completed a year's work at Boise Junior College.

The Kiwanis Club each year designates some young man, a graduate of Boise High School, to receive a scholarship amounting to one semester's tuition. It is designed to help some worthy student who must work to earn part of his tuition while in college.
SCHOLARSHIPS TO GRADUATES OF THE JUNIOR COLLEGE

Linfield College grants each year a two-year scholarship covering one-half tuition for that period. The selection is made by Linfield College.

Whitman College offers one full scholarship, for the junior year, the candidate selected by that institution from the graduating class of Boise Junior College.

The above two scholarships are awarded at commencement.

CERTIFICATES GRANTED

Boise Junior College confers the following titles at graduation:

1. ASSOCIATE OF ARTS.
   60 hours of academic work, including the following:
   - English ........................................... 12 hours
   - Foreign Language ................................... 8 hours
   - Chemistry, Zoology, Physics, or Mathematics .......... 8 hours
   - Social Science .................................... 12 hours
   - 4 hours of Physical Education; hygiene to be included either in this group or as an academic elective.

2. ASSOCIATE OF ARTS IN EDUCATION.
   60 hours of academic work, including the following:
   - English ........................................... 12 hours
   - Psychology ......................................... 8 hours
   - Social Science .................................... 12 hours
   - Education Courses .................................. 12 hours
   - 4 hours of Physical Education; Hygiene to be included either in this group or as an academic elective.

3. ASSOCIATE OF ARTS IN MUSIC.
   60 hours of academic work, including the following:
   - English ........................................... 6 hours
   - French and/or German ................................. 16 hours
   - Harmony ............................................ 8 hours
   - Ear Training ......................................... 8 hours
   - Keyboard ............................................ 4 hours
   - Applied Music ...................................... 8 hours
   - Electives ........................................... 10 hours
   - 4 hours of Physical Education; Hygiene to be included either in this group or as an academic elective.

4. ASSOCIATE OF SCIENCE.
   60 hours of academic work, including the following:
   - English ........................................... 6 hours
   - French or German .................................... 8 hours
   - Mathematics ........................................ 6 or 8 hours
   - Laboratory Science ................................ 16 hours
   - Calculus or additional Laboratory Science ............ 8 hours
   - 4 hours of Physical Education; Hygiene to be included either in this group or as an academic elective.
5. ASSOCIATE OF SCIENCE IN ENGINEERING.

60 hours of academic work, including the following:

- English ........................................ 6 hours
- Mathematics ..................................... 18 hours
- Chemistry ....................................... 8 hours
- Physics .......................................... 10 hours
- Engineering Drawing ............................ 6 hours

4 hours of Physical Education; Hygiene to be included either in this group or as an academic elective.

GRADING SYSTEM

A. (90-100) Distinguished work—Three quality points per hour.
B. (80- 89) Superior work—Two quality points per hour.
C. (70- 79) Average work—One quality point per hour.
D. (60- 69) Passing work—No quality points per hour.
F. Failure—No quality points per hour.

Inc. Incomplete may be given only in cases where work has been satisfactory up to the last three weeks of the semester. Work not made up within six weeks after the beginning of the student's next semester in college automatically becomes a failure, unless special extension of time is granted by the faculty.

W. Withdrawals—A student may officially withdraw from a course by securing a withdrawal permit from the Registrar and having it endorsed by the instructor and by the President. If he is doing passing work at the time of withdrawal, a grade of W shall be given. If not, a grade of F shall be given. Withdrawal from a course later than the end of the fifteenth week of the semester is not permissible if the student remains in college.

*Foreign language is not required in sophomore year if Intermediate or Scientific French or German has been completed in freshman year. Substitute three additional units of social studies.

†For a major in Chemistry, Geology, Mathematics, Physics, or Psychology, Physics 11-12 is required in sophomore year.
EDUCATION CURRICULUM

For the benefit of students expecting to secure the Idaho Elementary Certificate, the following information is included here:

The State Board of Education may issue State Elementary Certificates to persons of good moral character who are graduates of an advanced normal course (two years above a four-year high school course), of any standard normal school, or the department of education in any college or university, said normal school, college, or university to be approved by the Board of Education of Idaho;

Provided, That applicants for such certificates shall have earned credit in Idaho Civil Government and School Laws in Idaho Elementary Manual and Course of Study. Such certificates may be renewed by the State Board of Education so long as the holders thereof are deemed worthy of continuing to teach in the state.

"Required: 64 semester hours (96 quarter hours) above high school; 10 semester hours (15 quarter hours) of education.

"Rule of 1933: That all applicants for the State Elementary Certificate shall present, among other requirements, nine quarter hours (6 semester hours) of elementary practice teaching under proper supervision before such certificate may be issued."

—From "Certification of Teachers, 1936."

TEACHER-TRAINING CURRICULUM FOR ELEMENTARY SCHOOL TEACHERS PRESCRIBED BY THE COLLEGE

Required:

- English .......................................................... 12 hours
- History of the Americas ...................................... 6 "
- History 17-18, or History 1-2, or Sociology 1-2 .......... 6 "
- General Psychology .............................................. 8 "
- Education 1 or Education 2 ................................... 2 "
- Idaho School Law, Civics, and Course of Study ............ 2 "
- Education 3 or Education 4, Elementary Methods ........ 3 "
- Education 9 and 10, Practice Teaching .................... 6 "
- Education 4x, Penmanship .................................... 0 "

Subjects Specifically Required .................................. 45 hours

Recommended in Addition to the Above:

- Take both Education 1 and Education 2 .................... 2 hours each
- Take both Education 3 and Education 4 .................... 2 "
- Educational Psychology 8 .................................... 3 "
- Art 9, Public School Art ...................................... 2 "
- Music 1 and Music 2 ............................................ 2 "
- Music 3 and Music 4 ............................................ 2 "
- Music 21, Rural School Methods ............................. 2 "

Choose Electives to bring total to 64 semester hours.

Recommended Electives:

- Art, Mathematics, Music, Natural Science, Social Science, Languages, Speech.

PROSPECTIVE TEACHERS FROM OUTSIDE OF IDAHO

The Junior College can not recommend for certification within the State of Idaho anyone who has not attended this institution for at least one semester. Such a student must take at least ten semester hours of work in the Junior College and must take or have previously taken the course in Idaho School Law, Civics, and Elementary Course of Study. In addition, he must take or have taken a course in Practice Teaching.
Students from outside the state who wish to qualify under this provision must have previously taken two years of teacher-training above high school graduation and hold a teacher's certificate in the state where such training was taken. This teacher-training work must have been taken in a school accredited by the Regional Accrediting Association of that part of the country.

Students from outside the state who have had less than two years of teacher-training must take at least one year of training before they can be recommended for certification.

PART III
DEPARTMENTS
OF INSTRUCTION
ART
Not Offered in 1937-1938

1-2. Art Appreciation. 2 credits Each semester
Study of artistic expression in the fields of sculpture, painting, architecture, and the minor arts from the earliest times. The second semester begins with the Italian renaissance. Modern developments are stressed.

3. General Art. 2 credits
Composition, spacing, perspective, and still-life drawing, drawing from cast and drawing from nature. Pencil and pen rendering, pencil drawing under wash. Studio and outside work. Fundamentals of color science. Six hours in laboratory per week.

4. Color Science. 2 credits

9. Public School Art. 2 credits
For students expecting to teach in the elementary schools. This course is especially designed to help prospective teachers construct outlines of courses for the elementary grades. Fundamentals of Art are stressed. Six hours in laboratory per week.

11. Cast and Still-life Drawing. 2 credits
Action and pose drawings, character sketching in charcoal, wash drawings, and color. Prerequisite: Art 3. Six hours in laboratory per week.

12. Applied Art. 2 credits
Creative art problems that involve composition, design, and color application. Prerequisite: Art 3 and 4 or equivalent. Six hours in laboratory per week.

CHEMISTRY

1. General Chemistry. 2 credits
Experimental lectures, quizzes, problems, and laboratory work. The laboratory work consists of a selective list of representative experiments, including quantitative. Two lectures, one quiz, and two three-hour laboratory periods per week.

2. General Chemistry. 4 credits
Continuation of Chemistry 1. The laboratory work consists of an introduction to qualitative analysis as a means of studying the general chemistry of the cations. Periods the same as Chemistry 1. Prerequisite: Chemistry 1.

51. Qualitative and Gravimetric Analysis. 4 credits
Theory and practice of analysis with selected topics in elementary physical and theoretical chemistry. Laboratory work includes the qualitative separation of the cations and anions and a number of selected gravimetric determinations, accompanied by laboratory quizzes, equation writing and problems. Two lectures and two three-hour laboratory periods per week. Prerequisites: Chemistry 1 and 2.
52. Quantitative Analysis (Volumetric). 4 credits

Continuation of Chemistry 51. The laboratory work consists largely of volumetric analysis, with a few experiments in elementary physical chemistry. Periods arranged as in Chemistry 51. Prerequisites: Chemistry 1, 2, and 51.

54. Introduction to Organic Chemistry. 3 credits

An introductory lecture course in the chemistry of the more important series of the carbon compounds, emphasizing their structure, properties, and reactions. Frequent reference is made to practical applications. Prerequisites: Chemistry 1 and 2.

EDUCATION

1. Introduction to Education. 2 credits

A general introductory course for those who have made no professional study of education. Seeking to cultivate an attitude favorable to the scientific investigation of educational problems, it touches a wide variety of topics, gives result of scientific studies, and raises vital questions for further study. Open to freshmen and sophomores.

2. School-room Management. 2 credits

A course which deals with handling of actual class-room situations. Such topics as heating, ventilation, seating, discipline, daily attendance, etc., are considered. Open to freshmen and sophomores.

3. Elementary Methods. 3 credits

The methods of teaching reading, arithmetic, grammar, spelling, history, geography, civics, hygiene, etc., are considered in this course. Lesson plans and observation, in the city and county schools, are parts of this course. Open to freshmen and sophomores.

4. Elementary Methods. 3 credits

All texts adopted by the State and teachers’ manuals for each text are carefully studied. Open to sophomores.

6. Idaho School Law, Manual, and Civics. 2 credits

Idaho School Law, the state manual and course of study, and the civil government of Idaho. This course is required of all people who expect to be recommended for a Teacher’s Certificate in Idaho. Open to sophomores.

9-10. Practice Teaching. 3 credits

Each semester

Sixty hours of observation and one hundred twenty hours of supervised teaching. Part of this work will be done in the schools of Boise, the other part in especially selected schools in the vicinity of Boise. Open to sophomores.

Psych. 1-2. General Psychology.

See under Psychology courses. Required of all students expecting to teach.

Psych. 3. Educational Psychology.

See under Psychology courses.
**ENGINEERING**

1. **Engineering Drawing.** 3 credits Each semester
   Freehand lettering; use of drawing equipment; principal view drawings; auxiliary views; sectional views; introduction to surface developments and intersections; isometric and oblique drawings; working drawings; a practical problem in drawing. One recitation and six hours per week in drawing room.

2. **Descriptive geometry.** 3 credits Second semester
   Advanced orthographic drawing in principal, oblique, and auxiliary views, problems in points, lines and planes; surface developments and intersections; practical application in the problems in point of mining and construction; fundamentals of perspective drawing. One recitation and six hours in drafting room per week. Prerequisite: Engr. 1.

9. **Engineering Lectures and Problems.** 2 credits Second semester
   (Formerly listed as two courses, Engr. 9-10, one credit each.) Training in computation and analysis of engineering problems.

**ENGLISH**

**Placement Test**—The Uniform Placement Test in English, as formulated by the Inland Empire Council of Teachers of English and administered in the colleges and universities of the Northwest, is required of all students. Those notably deficient in preparation and those giving evidence of illiteracy will be advised to elect English as a five-hour course for the first semester. Satisfactory completion of the five-hour course shall give these students the required three credit hours for English 1.

1-2. **Freshman Composition.** 3 credits Each semester
   Principles and practice of composition, with individual conferences for guidance and criticism. Assigned reading is a significant part of the entire course. In the first semester the general principles of composition are stressed, with particular emphasis on exposition and the technique of the long paper. In the second semester, a study is made of narration, description, and the personal essay.

5-6. **Fundamentals of Speech.** 2 credits Each semester
   An elementary course in the fundamental technique of using voice and speech. The purpose is to develop ease and correctness in oral expression.

7-8. **Debate.** 1 credit Each semester
   Participation in intra-school and inter-school debate.

13-14. (formerly 15-16). **Introduction to Modern Literature.** 3 credits Each semester
   A study of the type and thought of modern and contemporary literature. Open as an elective to all students and as an alternative to English 17-18 for students in technical curricula. Not a substitute for English 17 or 18 for students entering B.A. work in a senior college.

17-18. (formerly 19-20). **Introduction to English Literature.** 3 credits Each semester
   A study of the development of types and movements in English literature, and of the conditions which have surrounded their growth.
Lectures with wide reading. Open as an elective to all sophomores; required of all sophomores entering senior colleges of business administration, letters and science, law and education (for prospective teachers of English).

21-22. Introduction to Reading. 3 credits
Careful study of selected fiction, essays, plays and verse. Designed primarily for freshmen whose interests lie in fields other than literature, and who intend to graduate with the diploma rather than the title of Associate of Arts. Not a substitute for 13-14 and 17-18. Second semester only in 1936-37.

63-64. Great Books. 3 credits
Great books of the world from the Bible and Homer to recent times. Not a substitute for 13-14 and 17-18. Second semester only in 1937-38.

FRENCH

1n-2. Elementary French. 4 credits Each semester
The aim of this course is to teach the fundamentals of grammar through exercises, easy reading, dictation, and conversation based upon the text. Emphasis on phonetics and pronunciation. Taught five periods per week for 4 credits.

3-4. Intermediate French. 4 credits Each semester
The aim of this course is to give the student an accurate and fluent reading knowledge of French prose. Comprehensive review of grammar with emphasis on idioms, dictation, phonetics, reports on collateral reading. Stress on composition and conversation the second semester. Prerequisite: French 1-2 or two years of high school French.

21-22. Advanced Sophomore French. 2 credits Each semester
Open to sophomores only. Prerequisite: French 3-4, or four years of high school French.

GERMAN

1-2. Elementary German. 4 credits Each semester
Grammar, graded readings, early introduction of idioms and simple conversation. Meets five hours per week for four credits.

3-4. Intermediate German. 4 credits Each semester
Reading of German texts with a review of grammar, composition, translations of English into idiomatic German, and conversational exercises. Prerequisites: German 1-2, or two years of high school German.

*No credit will be allowed toward graduation for the first semester of any foreign language until the second semester’s work is completed.
COURSES

HISTORY

1-2. Classical Civilization  3 credits Each semester
   The history and civilization of Ancient Greece and Rome, with
   emphasis on the social and political institutions. Given in alternate

3-4. Contemporary Civilization.  3 credits Each semester
   An orientation course designed to give first year students an intro-
   duction to the economic, social, and political principles operative in
   modern social organization, and the philosophy underlying them.

17-18. Modern Europe.  3 credits Each semester
   Political, social, and economic history of Europe from the Renais-
   sance to the present, with emphasis on the period from the Congress
   of Vienna to the present time.

19-20. History of the Americas.  3 credits Each semester
   A study of the Americas from discovery to the present time.
   Emphasis on the transplanting of European institutions to the New
   World. The course aims at a background for understanding the inter-
   national relations of the United States and Hispanic America.

   2 credits
   A history of the Old Oregon Country, with emphasis on the Idaho
   area. The basic topics for study are: Early explorers of the Pacific;
   international contest for fur trade in the region; the colonization move-
   ment and placer gold area; and founding of territories and states. Pre-
   requisites: History 19 or 17.

JOURNALISM

1. Elementary Journalism.  2 credits First semester
   The American newspaper, its place in society and its methods and
   techniques. Fundamentals of reporting, interviewing, news gathering
   news and writing.

2. Elementary Journalism.  2 credits Second Semester
   Development of Journalism 1, including the writing of acceptable
   editorials and feature stories. Members of the class required to write
   for publication in college paper or city newspapers. Advertising layout
   is developed in this course.

LATIN

1n-2.* Elementary Latin  4 credits Each semester
   Besides preparing to read Latin, the course deals especially with
   the Latin-English words and phrases in literature, law, and the
   sciences. Translation of easy selections from classic myths and stories
   of Roman history. Meets five times per week for four credits.
3-4. Intermediate Latin. 4 credits Each semester
Translation of narratives dealing with Roman life, reading of
selected orations of Cicero, and study of Roman government constitute
the work of the first semester. In the second semester Virgil’s Aeneid
is translated in part, and the principles of poetry are studied. Prerequisitese: Latin 1-2, or two years of high school Latin.

53-54. Advanced Latin. 3 credits Each semester
Study of selections from standard Latin authors, the prose writers
the first semester, poets the second semester. Investigation of their
lives and criticism of their styles. Prerequisites: Latin 3-4, or three
years of high school Latin.

55-56. Latin Prose Composition. 2 credits Each semester
Systematic exercises affording a thorough review of Latin grammar.
Best studied in connection with Latin 53-54. Prerequisite: Latin 3-4,
or three years of high school Latin. Required for recommendation to
 teach Latin.

MATHEMATICS

1-2. Freshman Mathematics. 4 credits Each semester
College algebra, trigonometry, and analytic geometry. Required
of all students taking a mining, forestry, or pre-medical curriculum.

11-12. Mathematics for Engineering Students. 5 credits Each semester
Subject matter is the same as in Mathematics 1-2 with additional
emphasis upon computation and construction and interpretation of
graphs. Required of pre-engineering students.

51-52. Calculus. 4 credits Each semester
Fundamental principles and applications of differential and integral
calculus. Prerequisites: Mathematics 11-12.

MUSIC

These courses come under general tuition. All courses in the Music
Conservatory must be accompanied by Harmony through the various
stages in order to receive credit.

PRIMARY FOR FRESHMEN

9-10. Glee Club. 1 credit Each semester
Two one-hour meetings per week for one credit.

1-2. Beginning Harmony. 2 credits Each semester
Scales, intervals, triads, part-writing of given melodies and basses.
Dominant seventh and inversions, modulation, secondary sevenths.

3-4. Ear Training. 2 credits Each semester
Introduction to notation and musical nomenclature. Intervals,
simple chords, melodies. Easy rhythmic figures. Advanced melodies
and figures in major and minor mode. Harmonic dictation. Music 1-2
are prerequisite or corequisite.
5-6. Keyboard. No credit
Harmonization at the piano of given soprano and bass melodies using primary triads, inversions, secondary triads, dominant sevenths.
A prerequisite to Keyboard 15-16.

7. Music Appreciation. 1 credit
An elective course open to all students in the Junior College. It will give the student an opportunity to hear good music and learn to converse intelligently on the subject. Two lectures per week.

PRIMARILY FOR SOPHOMORES

11-12. Advanced Harmony. 2 credits Each semester
Modulation, altered chords, secondary sevenths, and inversions, suspensions, passing tones and embellishments. Prerequisite: Music 1-2.

13-14. Advanced Ear Training. 2 credits Each semester

15-16. Keyboard. 1 credit Each semester
Harmony applied to the keyboard, with practice in playing written chords and progressions. Music 1-2 prerequisite.

17-18. Accompanying. 1 credit
Practical experience in accompanying singers and instrumentalists. Open to piano students with sufficient technique.

19. History of Music (formerly listed as Music 12). 2 credits Each semester

21. Rural School Methods. 2 credits
Materials, methods and problems relating to classroom music. Presentation of the Idaho Chorus Plan. Detailed study of the textbooks, "Music in Rural Education" and "Psychology of School Music Teaching." Through the kind cooperation of the Public School Supervisor of Music, city schools will be available as a laboratory. Prerequisite: Music 1-2, 3-4.

APPLIED MUSIC

Applied Music does not come under general tuition. (See page 8.) Students requesting credit in Applied Music must take examinations before the end of the second week in each semester.

Piano Prerequisite.—Scales in major and minor, thirds, sixths, and tenths. Arpeggios in major and minor. One Kullak or Clementi Sonatina. One two-part invention of Bach.

Piano 1-2. 1 or 2 credits Each semester
Scales, arpeggios, octaves, Czerny, Bach two-part inventions, Haydn and Mozart sonatas. Easy compositions of Mendelssohn, Chopin, Schumann, etc.
Piano 3-4.  
1 or 2 credits  Each semester  

ORGAN PREREQUISITE.—Same as piano.

Organ 1-2.  
1 or 2 credits  Each semester  

Organ 3-4.  
1 or 2 credits  Each semester  

Violin 1-2.  
1 or 2 credits  Each semester  

Violin 3-4.  
1 or 2 credits  Each semester  

VOCAL PREREQUISITE.—Sight reading of moderately hard music; singing of even, flexible scales, singing of a group of good songs from memory.

Voice 1-2.  
1 or 2 credits  Each semester  
Breath control, tone production, diction, rhythm. Moods in songs. Songs for individual needs of students.

Voice 3-4.  
1 or 2 credits  Each semester  

Woodwind Instruments.  
1 or 2 credits  Each semester  
Credit in Flute and Clarinet only will be offered.

PHYSICAL EDUCATION

MEN

31-32. Freshman Sports.  
1 credit  Each semester  
Instruction and participation in floor work and class athletics. Practice provided in team games. Compulsory for all freshmen. Two meetings per week.

33-34. Sophomore Sports.  
1 credit  Each semester  
Instruction and participation in team games, supervised physical drill, and lecture and practical problems in First Aid. Compulsory for all sophomore men. Two meetings per week.

25b-26b. Hygiene.  
1 credit  Each semester  
Personal hygiene. One lecture a week on problems of health and personal hygiene.
COURSES

21. Football Participation. 1 credit
23. Basketball Participation. 1 credit
24. Track Participation. 1 credit

Only one credit can be earned in Football, Basketball, Track, regardless of years of participation. No more than five Physical Education credits can be earned in a single year.

WOMEN

1a-2a. Freshman Gymnastics. 1 credit Each semester
The work is arranged with reference to the needs of the individual student as they are indicated by the required physical examination. The course includes elementary gymnastics, folk and character dancing, games and sports technique.

1b-2b. Personal Hygiene. 1 credit Each semester
Lectures and discussion on problems of personal hygiene and balanced living. Required of all freshmen in conjunction with 1a-2a. One meeting per week.

3-4. Beginning Swimming. 1 credit Each semester
For those who can not swim and who have had no instruction in correct form. Sheffield method is used with emphasis on correct breathing, achievement of confidence, floating, position, elementary back-stroke, sculling, deep water test, simple diving. Two meetings per week.

5-6. Intermediate Swimming. 1 credit Each semester
Continuation of 3-4. Trudgeon crawl, breast stroke, single over-arm, water stunts, diving; some Red Cross life-saving. Open to those who have had Physical Education 3-4, or its equivalent. Two meetings per week.

13-14. Team Games and Sports. 1 credit Each semester
The following sports in season: Soccer, basketball, tennis, track. Two meetings a week.

PHYSICS

11-12. Engineering Physics. 5 credits Each semester
This course is intended for students in the physical sciences and in engineering, and must be preceded or accompanied by the calculus course. Three lectures and two three-hour laboratory periods per week. Prerequisite: High school physics.

POLITICAL SCIENCE

1-2. American Government. 3 credits Each semester
PSYCHOLOGY

1-2. General Psychology.  4 credits  Each semester
   An introductory course. The object is to explain mental phe-
   nomena and the principles underlying human behavior. Prerequisite
   to all other courses in psychology. Required of all who expect to
   teach. Three lectures and one laboratory period per week.

3. Educational Psychology.  3 credits
   Application of the results of experimental psychology to problems
   in the field of education. Prerequisite: Psychology 1.

4. Applied Psychology.  3 credits
   The general nature of the human organism and the effects of
   environmental influences; business practices; evidences; testimony;
   helps in medical practice. Prerequisite: Psychology 1. Three lectures
   per week.

SPANISH

1-2.* Elementary Spanish.  4 credits  Each semester
   Fundamentals of grammar. Emphasis on pronunciation and
   acquaintance with Spanish life and culture. Meets five times per
   week for four credits.

3-4. Intermediate Spanish  4 credits  Each semester
   The aim of the course is to give the student an accurate and fluent
   reading knowledge of modern Spanish. Comprehensive review of
   grammar; study of idioms; monthly reports on collateral reading; con-
   versation based on text. Prerequisite: Spanish 1-2 or two years of
   high school Spanish.

ZOOLOGY

1-2. General Zoology.  4 credits  Each semester
   The general problems of animal structure, physiology, activities
   and adaptations, sex, development, heredity, evolution, and life-
   histories of representative and economic forms. Two lectures and
   two three-hour laboratory periods per week.

4. Comparative Anatomy of Vertebrates.  4 credits  Second semester
   Dissection and study of types of vertebrates, together with lectures
   and discussions on general vertebrate anatomy with special reference
   to the evolution of the various organ systems. Two lectures and two
   three-hour laboratory periods a week. Prerequisite: Zoology 1-2.

6. Physiology.  3 credits  First semester
   Designed to give a general knowledge of the more important
   physiological problems, and of the structure and functions of the
   human body. Two recitations and one three-hour laboratory period
   per week. Prerequisite: Zoology 1.
