The Junior League of Boise is pleased to present its Elizabethan Faire 1971. This exciting new experience is being brought to you with the assistance of the Drama Department of Boise State College.

The Faire, the highlight of this year's activities, represents another of the League's many worthwhile community projects.

And we pledge to you our continued efforts to make Boise even a better place to live.

On behalf of the entire membership, our sincere thanks to the many who helped make the Elizabethan Faire possible.

A key purpose of the Junior League is to train our women to be effective members of our community through volunteer service.

Junior League members are dedicated, outstanding women whose efforts deserve recognition. Their selfless commitment to a better total environment for all is commendable.

My pride in the achievements of our members has no bounds.

De Scholars of the Faire

On February 26 and 27, 1971, the Junior League of Boise proudly presents the Elizabethan Faire. The proceeds from this Faire are to be used to support our many community projects, and to help finance a versatile portable theatre for Boise State College Theatre Arts Department. The Junior League does not plan a major fund-raising event each year. Our last project was our Follies of 1967.

The Elizabethan Faire, a challenge from the beginning, was the inspiration of Mr. Ron Krempetz, formerly on the staff of Boise State College. Our members all agreed it would be exciting to present some unusual entertainment, and to attempt to recreate a moment from a most colorful period in English History—The Age of Elizabeth.

Elizabeth I was queen of England from 1558 to 1603, but the Elizabethan Age lasted until the late 1620's. This period is often called the "Golden Age" of English history. It was the time of William Shakespeare, Sir Walter Raleigh, Sir Francis Drake, the defeat of the Spanish Armada, and the formation of the East India Company. These were also the years of the beginning of colonization in the New World.

People in the cities and countryside of England spent a great amount of their time in the streets and in the marketplaces. Great Faires were held

annually in the major cities. In the country, Faires were major seasonal celebrations that were considered the most festive social events of the year. Merchants and traders arrived from distant lands and mingled with dancers, strolling minstrels, jesters and jugglers. For the townspeople and visitors it was a happy, colorful mixture of business and pleasure.

The Junior League has been most fortunate to be able to draw upon the resources of Boise State College for help with costume, music, theme development, design and direction. The association of the Junior League of Boise and Boise State College has been unique—a most enjoyable and beneficial arrangement.

A major element of the Elizabethan Faire is an Elizabethan Court-Masque Stage and setting. This was designed by Mr. T. M. Alsa of Boise State College. This setting features a large turntable mounted on a raised platform stage. The decor is of Renaissance style arches, pillars, railings, and sculptured woodwork. In addition, awnings and draperies of appropriate color and richness complement the stage. The setting that greets the Faire-goers is one of moderately rustic mood, which is in keeping with the mood of the other design and decor of the Elizabethan Faire.

Mr. Fred J. Norman of Boise State College Theatre Arts Department is the author of the script and director of the Elizabethan Faire. Mr. Norman has received his B.A. degree from Arizona State University and his M.A. degree from Colorado State University. Highlights from his experience in the theatre include the "Outstanding Actor of the Year" award four times while in college, receiving national award for acting in 1957, the staging of many professional shows in Arizona with two winning national honors, the initiation of two repertory theatres, and work in television and summer stock theatre.

Mr. Terry Asla, Boise State College Theatre Arts Department, is responsible for the design and assembly of the highly adaptable portable stage used at the Elizabethan Faire.

Mr. Del F. Corbett, Acting Chairman of the Theatre Arts Department at Boise State College, has generously given this production his assistance as well as that of the entire Drama Department at Boise State College. Your ticket to the Faire also includes admission to a performance of Shakespeare's "Twelfth Night" produced by Boise State's Theatre Arts Department the first week in March, and directed by Del Corbett.

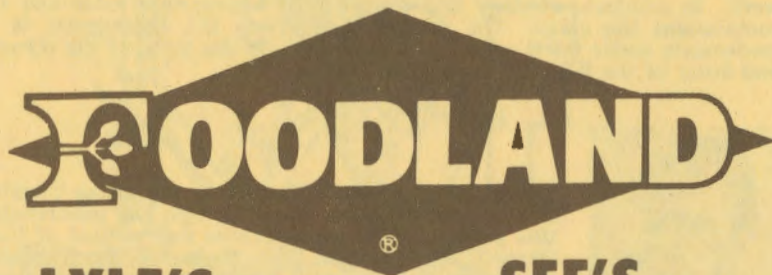

Milo Needles, Idaho artist, is the designer of sets and booths for the Faire. With many friends and willing volunteers the colorful and elaborate setting was created for the production.

Special mention must be made for Mr. Ray Strickland who was Fred Norman's assistant—a member of the Board of Directors of Boise Little Theatre and on the staff of Boise State College, and for Leslie Wardie who choreographed the dance numbers presented at the Faire.

OF THE LEAGUE.

The Tale of Village Ventures

THE JUNIOR LEAGUE IN THE GOLDEN AGE OF THE SEVENTIES

How interesting to note similarities between the Elizabethan Age and our present decade:

- A rise in cultural achievements
- A release of emotions from the soul
- Over-crowding of cities
- Crises regarding pollution and sanitation.

Most assuredly, life in the Seventies has assumed greater complexities that touch every rural and urban citizen, but everything being relative, the human motivation for improving one's lot continues with enthusiasm and determination.

The Junior League of Boise is contributing through volunteer efforts to many community projects of concern to the growing population of this city. Presently, we have ten Projects to which are devoted money and manpower.

MARIONETTES

Marionette shows have been handled by League members for twenty-three years. This past year 4,020 school children visited the Idaho Historical Museum for the performances.

ART PROJECT

Throughout the past nineteen years an association with the Boise Gallery of Art has resulted in varied programs from art appreciation lectures to the elementary schools to docent volunteers for special exhibits.

VISUAL AID BRAILLING AND TYPING

This project combines two services. So that near-blind students can live at home and attend the public schools, volunteers assist in typing text books with special large type. Braille demands extensive training and dedication.

INFORMATION AND REFERRAL SERVICE

All of Treasure Valley is able to benefit from this office. Mrs. Myrick Pullen, Director, has been able to utilize League members for assisting citizens who suddenly may find need of help in such areas as housing, employment, counseling, clinics, but do not know where to seek the specific help.

HOME-CENTERED HEALTH CARE

Operating out of the Information and Referral Service this committee has responded to the need in the community for an organizational unit to evaluate a client's need in the home, and subsequently place a homemaker for the duration of the need. The League has provided financial support and volunteers for the detailed organization of the office.

RUMMAGE SALE

Each year the resources from this volunteer staffed activity are deposited in the Community Trust Fund.

PHILHARMONIC

In recent years two Philharmonic Youth Concerts have been given yearly, and the Boise Junior League donates financially to this program, and volunteers assist in the promotion and ticket sales.

BOISE SCHOOL VOLUNTEERS

With school enrollment increasing as it is, interested citizens are being used successfully in the schools to aid the teacher or staff and enrich the curriculum. The League is the coordinating agency for this entire project, and members will be staffing the Boise School Volunteer office in the School Administration Building until a full-time, salaried director can be acquired.

YOUTH PROJECT

A committee is researching the hundreds of organizations that in any way pertain to the involvement in the youth of this city. One goal will be to provide a concise directory of "where to go and whom to see" when a particular need emerges for a young person.

YWCA FRIENDSHIP PROGRAM

Junior high school girls who have been recommended by their counselors meet with trained women who act as group leaders in helping with the various guidance programs. At present, we have nine groups. The League awarded a sizeable educational grant for a reading program in conjunction with the Reading Concentration Clinic with Dr. William Bronson.

This is the Junior League of Boise. Thank you for helping us be of some service to our community and ultimately enrich the lives of all families in this corner of the world. Caring is to do!

People . . . !

Make the Difference in Printing

Any Number of Printers own similar equipment, yet there is an obvious difference in the quality of work turned out by each one. The Reason . . . ?

Machines are only as good as the people who operate them. People . . . Real professionals . . . make the difference. They are responsible for quality.

Quality printing requires a dedication to detail, coupled with the ability and desire to produce printing which meets the customer's own high standards.

At Syms-York Company you will find this kind of dedicated artisan . . . people who possess creative skills . . . Real "Pros" who make the difference in printing.

Isn't it time to put professionalism in your printing?
