Reception following with no-host bar and appetizers • Free parking

For **free reception tickets** please email ideaofnature@boisestate.edu. Visit scholarworks.boisestate.edu/ideaofnature for information about **free parking**, or to view and download lectures.

The Ghostly Language of the Ancient Earth: The Idea of Nature in Deep Time

Scott Ashley

Lecturer in Medieval History, Newcastle University, U.K.

In 1799 William Wordsworth imagined his younger self standing beneath the rocks of his native mountains listening to the 'ghostly language of the ancient earth'. I also try to hear the echoes that come out of the deep past and decipher what we can learn from them about the entangling of the human and natural worlds and the origins of the idea of Nature.
