

2006 Governor's Summit on Aging: The Coming of Age

September 12, 2006

Planning and Community Design
Panel Presentation
11:00-12:15

Our Challenge

- Keep our communities livable even with changing demographics.
- More specifically, find ways to cope with challenges to independence and quality of life as we age.

Housing Livability

3 Ways of Making Homes Livable For All Ages

1. Modify Existing Home
2. Move Elsewhere
3. Influence the way the community develops around you

1. Modify Existing Home

What, Where, and How?

- Universal Design Features
 - wide hallways
 - master bedroom and bath on the 1st floor
 - lever handles rather than knobs
 - no steps (even when enter house)
- NORCs, New Homes
- Tools

How have other cities, counties, and states formalized their planning for an aging population?

Howard County, Maryland (e.g., Housing)

Three goals of their Senior Housing Master Plan:

- 1) Provide housing for older adults within stable and attractive communities through maintenance, renovation and modification of existing homes.
- 2) Produce new housing that meets the needs of older adults while not detracting from the existing neighborhoods
- 3) Provide affordable and diverse housing to meet the needs of low and moderate income seniors.

City of Boston
