Stephanie Witt, Ph.D.

Director, Social Science Research Center

Director, Public Policy Center

Carole Nemnich, MPA

SSRC Project Manager

- Annually, the SSRC conducts a large-scale survey of Idahoans to identify public policy concerns. The study is provided to public officials and interested citizens to facilitate policy discussion and education. This study was undertaken in conjunction with the annual policy survey. The findings in this report reflect eleven questions sponsored by Mountain State's Group, supported by a grant from the Anne Casey Foundation.
- 773 adults in Idaho households representing six geographic regions were surveyed between November 12, 2007 and January XX, 2008. Telephone calls, interviews, data collection and preparation were made by Clearwater Research.
- The survey standard error is +/- 4.2% at a 95% confidence-level for the total population.
