NARROW ESCAPE FROM DEATH IN THE SNAKE RIVER

State Superintendent Belle Chamberlain and State Librarian Louise Johnson Have Thrilling Experience Above Shoshone Falls—Cable of Ferry Boat Breaks.

(Special Dispatch)

TWIN FALLS, IDA., May 26.—Adrift in a disabled ferry boat in the swift rushing waters of the Snake river, Miss S. Belle Chamberlain, State Superintendent of public instruction, and Miss Louise Johnson, state librarian, were yesterday snatched from the jaws of death when almost on the brink of the Shoshone falls. The women were crossing the river with I. B. Todd of Chicago and H. M. Hebdon of Boston when the cable snapped, leaving the boat helpless in midstream. The man in charge of the ferry boat was inexperienced and lost his head and only for the presence of mind of the two men in the party the ferry boat might have gone over the falls. But both Todd and Hebdon caught the shore end of the cable before the ferry was away from it and locked it about the beams on the boat. This held the boat fast as the ferry tugged in the swishing waters. For fully 30 minutes the party battled with the swift waters of the raging stream. A man on the bank began to slowly pull the ferry to shore and with the assistance of the two men on board the boat was worked to within a short distance of the bank when the two women were put into a skiff and sent to the bank in safety. A short time later the men landed and hauled the ferry to where the team could be unloaded. The party had visited the falls and were crossing the river to visit Blue Lakes when the accident occurred.

TRAVELING LIBRARY TO KEEP TROOPS POSTED

Will Distribute Books and Magazines Among the Men Who Go to Front.

Books will be received by the state traveling library at Boise for distribution among the men with the colors in the different camps in both Europe and the United States, Mrs. Marie Schreiber, state librarian, has announced.

Magazines are wanted, too, but they must not be musty from age. The American, Harper's, Century, Scientific American, Saturday Evening Post and other standard periodicals of recent vintage are desired for the fellows in khaki.

The books and magazines will be distributed under the direction of the American Library association. Idaho people wishing to contribute to the stack of reading matter that will be gathered may send them direct to Mrs. Schreiber at the statehouse.

NEED MORE BOOKS FOR OUR SOLDIERS

Good Literature Cheers Many Lonely Hours in Camp and Hospitals.

Mrs. Marie Schreiber, librarian of the free traveling library, is in receipt of requests from the government of more books for soldiers, and she urges that any who have books to give will leave them at her office in the statehouse.

The report of the library war fund of $1,700,000 which was collected last spring has been issued. With this money 36 camp library buildings have been erected, 117 librarians are now in the field, 464 camps, stations and vessels served, 109,403 selected books have been sent overseas and 300,000 purchased. These latter have been largely technical books.

To stations and camps in this country there have been sent 1,348,000 gift books.

It is in the army hospitals that the books are particularly welcome. It has taxed the ingenuity of librarians to minister to the sick when the camp libraries are five miles from the base hospital. One librarian writes of her experiences as follows:
