Vision Statement

The College of Health Sciences at Boise State University is dedicated to providing programs of educational excellence for present and future health professionals. Our programs are solidly based in multi-disciplinary experiences formed by active collaboration of faculty from within the College and elsewhere and emphasize opportunities presented through distance education as well as through on-campus learning experiences.

The College also is dedicated to providing the general student body at Boise State University and the BSU service area offerings in educational programs which increase awareness of health options and healthful living.

This vision of excellence will be achieved through collaboration, partnership and integration of the region's resources to include health centers, public health providers and professionals. Innovative program curriculum, excellence in teaching, a commitment to acquiring the skills in new technologies and faculty scholarly activities are essential for achievement of this vision. The College is pledged to treat faculty, staff, students and all with whom we come in contact with dignity, courtesy and respect.

(Calculations for May candidates were made on the basis of grade point average accumulated before the last semester, and there may be differences when final grades are processed. Candidates for second degrees are not eligible for honors designation. All Master candidates must have a minimum grade point average of at least 3.00 and are not eligible for honors designation.)

HONORS PROGRAM

The Honors Program offers exceptional undergraduate students a challenging interdisciplinary curriculum and a rich array of co-curricular activities. Students who have completed the prescribed course of study and have attained a cumulative GPA of at least 3.75 graduate with distinguished honors. Those who have completed the prescribed course of study and have at least a 3.5 GPA graduate with honors.

ACKNOWLEDGEMENTS

The Commencement Committee expresses its special appreciation to **The Potting Shed** and **Ric's Capital City Florist, Inc** for arranging the plants and flowers for the ceremonies, and **Chappell Studios** for providing photographs to the graduates.

The program cover was designed by **Adele Thomsen**, Boise State University Printing & Graphic Services.

ACADEMIC DRESS

For centuries academic dress has been associated with learning. Its origin is considered to be ecclesiastical, though the gown of the medieval scholar may have developed out of the ordinary civilian costume of an earlier period. The medieval scholar was often a monk, who found the hood and gown a protection against the cold of his cell. The sleeves of his gown were used for carrying his books and supplies.

In the United States, three types of gowns and three types of hoods have been devised for the bachelors, masters, and doctors, respectively. The square caps are the same except that the doctor's may be made of velvet and have a tassel of gold.

The distinguishing characteristic of the gowns is the sleeves: pointed and hanging to the knee, for the bachelor; closed (the arm coming through a slit at the elbow), square at the end, extending well below the knee, for the master; full, round, open, bell-shaped, adorned with three bars of velvet, for the doctor.

The colors on the hoods represent two things: the wearer's Alma Mater and the department of learning. The lining of silk is in the color or colors of the college or university granting the degree. The trimming of velvet is the color that represents the department of learning in which the degree was obtained. The velvet trimming on a doctor's gown may also be of the departmental color or it may be black.
