AUTHOR'S NOTE

OUR TOWN is not offered as a picture of life in a New Hampshire village; or as a speculation about the conditions of life after death (that element I merely took from Dante's Purgatory). It is an attempt to find a value above all price for the smallest events in our daily life. I have made the claim as preposterous as possible, for I have set the village against the largest dimensions of time and place. The recurrent words in this play (few have noticed it) are "hundreds", "thousands", and "millions." Emily's joys and griefs, her algebra lessons and her birthday presents--what are they when we consider all the billions of girls who have lived, who are living, and who will live? Each individual's assertion to an absolute reality can only be inner, very inner.
