Marijuana may not be a one-way ticket to hell as some opponents claim, but it's no one-ticket to psychedelic paradise either.

Long-range studies now going on may tell us some day just how marijuana really affects the body and mind. Until then, three top medical authorities on drugs have summarized their views, which can be found in an article in the January Reader's Digest.

The three doctors—Dana L. Farnsworth of Harvard, Anthony F. Philip of Columbia and Eamed chief surgeon-Alton Ochsner of New Orleans—agree that while the dangers may be somewhat overstated, there are risks in smoking marijuana and it is a rare "pot-head" who can escape without harm.

Moreover Dr. Ochsner, who was one of the first doctors to note the correlation between cigarette smoking and lung cancer, raises the possibility of parallels between today's marijuana craze and the cigarette craze of a few decades ago.

"At present, no one knows whether smoking pot can cause cancer," he says. "What is certain is that the burning of many types of leaves produces carcinogens. Marijuana simply has not been in common use in the United States long enough to produce the deaths from which statistics are gathered."

Dr. Farnsworth, who serves as chairman of the American Medical Association's Council on Mental Health, distinguishes between "casual" pot smokers—those it is only for curiosity and who constitute more than half of all users—"problem" smokers who are preoccupied with the drug to the point of dependence.

Casual smokers may not suffer any real harm, he says. But many others do suffer interference with work and studies, disorientation or depression. Ironically, those most vulnerable to such reactions are people with unstable personalities or emotional difficulties—who are most likely to try the drug in the first place.

And what of the rewards? Disappointing at best, says Dr. Farnsworth. There is no present evidence that, except for a few isolated individuals, pot-smoking can increase self-realization or creativity. On the contrary, he says, "With pot, everything draws to a halt."

One other danger noted by Dr. Farnsworth is the risk that marijuana can lead to stronger drugs. While not necessarily so, it has happened.

Dr. Philip, who heads the Columbia College Counseling Service, also distinguishes "recreational" pot smokers from those who are deeply involved. The latter, he says, "typically have an inderisible, chronic, low-grade depression and a restful feeling that somehow they have been cheated by life."

Motivation for using drugs is not to gain pleasure, but merely to avoid pain.

Dr. Philip believes that family conflict plays a large role in launching youngsters on the drug path. "I haven't seen any kids getting into drugs who have not had family problems," he says.

It all adds up to a case against marijuana, though many doctors agree that present legal penalties for use of the drug are far too harsh. To such opponents of stiff punishment, a social approach seems to make more sense than a legal one.

Dr. Farnsworth puts it this way: The way to solve the drug problem is "by helping the young improve their relations with their parents and with society."

He might have added, "and vote-versa."

Campus offices offer advice for getting around red tape

The many offices and facilities on campus have compiled summaries of the services they offer BSC students. Throughout this special registration issue of the Arbiter, concerning campus red tape, you will find many helpful hints concerning campus red tape.

Many students find after beginning their education that they need financial assistance beyond what they can earn themselves or receive from their parents. The place to seek information about financial assistance through the college is the office of the Director of Financial Aids in the Administration Building.

Here you can talk personally with the director or his assistants and find out which scholarships or other programs are available.

College Work-Study Program and Campus Employment: If your parents can make little financial contribution to your education, you may qualify for part-time employment made available by a grant called the College Work-Study Program.

To participate, you must maintain satisfactory academic standing and be a full-time student.

Inquire for employment with employers in the Boise community may be obtained by contacting the Placement Services in the Administration Building.

Scholarships: The Scholarship Committee makes awards according to merit and financial need of applicants. One application for scholarship assistance is all that you need fill out, because you will be considered for every award for which you are qualified.

Scholarships are given by groups, firms, individuals, and from funds of Boise State College Fund, Inc. The filing date for application or renewal of scholarships is March 1. (Some scholarships from specific departments and schools must be applied for separately.

There is a number of loans, varying in amounts, interest rates, and stipulations, are available to BSC full-time students. For more information, contact the Financial Aids Office in the Administration Building.

Happy new decade!

The changes that we have witnessed in the last ten years can only give us an indication of the degree of change in the next decade.

According to projected figures, we will be standing shoulder to shoulder with our fellow countrymen and, unfortunately, the population explosion maintains its present rate. At that time the explosion will also be at its peak. After that there will be no place for expectant mothers to lie down.

The astronomers will undoubtedly try for new facts in space, and radio broadcasts such as "Neil Horman will now tie his tie."

After a devastating atomic bomb blast over Hiroshi that did not happen, Mayor Horioka wired the estate, great Peter Seeger, "Thank God we saved 'em, those kids know about Communism.

It is possible, thanks to mining concerns operating in the rugged mountains of Idaho, to stand atop the Administration Building and wave to the photogenic swashbuckler in Montana.

It will come to no surprise if the Hughes Tool Co. will offer to buy Idaho from Boise Cascade and Idaho Power.

And Boise State will continue to grow until the Boise Headlight is just a seminar conducted in the School of Arts and Sciences.

Happy New Decade!

Feb. deadline nears for student teachers

All junior and senior students planning to student teach next year are reminded that the deadline for completing Student Teaching before Feb. 15, according to Dr. Gerald Wallace, Dean of the School of Education, is Nov. 15.

Secondary education students are directed to contact the Director of Secondary Education for the necessary registration.".

Elementary education majors should contact the Supervisor-Elementary Student Teaching in L623.

Dr. Wallace said students applying after the Feb. 15 deadline must complete their student teaching assignments in outlying schools that have positions open.

Letters to the editor

TO ALL ORGANIZATIONS; Boise State College, in the final analysis, exists for the student. To have a sound college, there must be a faculty, building programs, scholarship foundations, athletic programs, lyceum programs and all other facets of the educational process for which a student attends a college.

All of this requires a vast amount of time and energy.

Bill Hall, editorial writer for the Lewiston paper, recently said that just because of the fact that people of Idaho are more than a half hour away from a full time school...No one in Idaho can escape the country's economic and social fallout from being on the periphery of a university.

To provide for Boise State College entirely from the public budget would mean that we must purchase every gift from private sources. This would be possible.

The Alumni Association of Boise State College, in the final analysis, exists for the student. VC HELD NUI COTTO Mountain for nearly 30 years—since the Japanese left Vietnam. In March of 1969, the Allies took the mountain away from the guerrillas, suffering many casualties in the process since the mountain contained the honeycombed tunnels of the Viet Cong. One week later, the VC took it back. In this photo taken by Sp 5 James Ross while Keys was filming, an American advisor and a Nard soldier are climbing into position on Nui Coto. GOURMET ARTISAN WATER ENABLES US TO ATTAIN PERFECTION IN THE ART OF BREWING

At the bottom of our success.

We've always thought of ourselves as a small town kind of beer. After all, we only have one brewery, the one at Tumwater, Washington. Can you get more small town than that?

So, can you imagine how surprised we were last year when we sold over 3 million barrels of Olympia. That's equal to more than 2-and-a-half billion glasses.

So, that's why we say "It's the Water" is at the bottom of our success. You see, it is our brewing water—the pure, natural artesian water of Tumwater, Washington —that makes Olympia the good beer it is.

No wonder people refer to us as the small town beer that made good. "It's the Water"

BSC grabs wins over the holidays

The Boise State Broncos improved their record over the early part of the Christmas vacation with seven victories and 1 heart-stopping loss to Weber State.

In the game against Montana, BSC played a good game during the first half and held a two point lead at halftime. In the second half, Montana could not generate any attack and the Broncos steadily built a lead with 7 seven victories and an average being 16.7. Following improved the trend over the Ron Austin leads the scoring with 1 heart-stopping loss to Weber State. Wendy Hart and Bill Otey.
