The Boise State University IRB has approved your protocol submission. Your protocol is in compliance with this institution's Federal Wide Assurance (#0000097) and the DHHS Regulations for the Protection of Human Subjects (45 CFR 46).

**Protocol Number:** 108-SB15-064  
**Received:** 3/20/2015  
**Review:** Expedited  
**Expires:** 3/31/2016  
**Approved:** 4/1/2015  
**Category:** 7

Your approved protocol is effective until 3/31/2016. To remain open, your protocol must be renewed on an annual basis and cannot be renewed beyond 3/31/2018. For the activities to continue beyond 3/31/2018, a new protocol application must be submitted.

ORC will notify you of the protocol's upcoming expiration roughly 30 days prior to 3/31/2016. You, as the PI, have the primary responsibility to ensure any forms are submitted in a timely manner for the approved activities to continue. If the protocol is not renewed before 3/31/2016, the protocol will be closed. If you wish to continue the activities after the protocol is closed, you must submit a new protocol application for SB-IRB review and approval.

You must notify the SB-IRB of any additions or changes to your approved protocol using a Modification Form. The SB-IRB must review and approve the modifications before they can begin. When your activities are complete or discontinued, please submit a Final Report. An executive summary or other documents with the results of the research may be included.

All forms are available on the ORC website at [http://goo.gl/D2FYTV](http://goo.gl/D2FYTV)

Please direct any questions or concerns to ORC at 426-5401 or humansubjects@boisestate.edu.

Thank you and good luck with your research.

Dr. Mary Pritchard  
Chair  
Boise State University Social & Behavioral Insitutional Review Board
