Ruch elected vice chair of Western Interstate Commission
President looks to build cooperation with other universities in the West
By Arvind Staff
Boise State President Charles Ruch has been elected to the post of vice chair for 2002 of the Western Interstate Commission for Higher Education (WICHE) located in Boulder, Colo. Ruch will serve as vice chair of the commission in 1998. During his term as vice chair, he will serve on the board of directors of WICHE and will have the opportunity to serve in this capacity in the 1999-2000 commission year. The organization’s mission to facilitate higher education and its related activities in bordering states. The goal of the organization is to provide WICHE with strategic planning and educational programs to WICHE’s 17 member states.

Yoga helps keep mind, body healthy

By Lisa Class

JOEY CHANCELES, a communications major (California State U. Stanislaus) said Target did not have to pull any toys from shelves, nor did the company that had them on its sales floor.

"I've noticed movies on the racks with titles like, 'Not Gay Enough to Be Gay,' " Chanceles said.

But Chanceles doesn't expect any business to pick up as the holiday season quickly approaches, even though he believes they will be affected by the idea of the 'gay' video game "Air Force Delta."

"I think Target is a family-oriented store and wouldn't put offensive products to the shelves," he said. "We reviewed all the toys on our shelves, including 'Halloween Boys' and 'Violent Toys' and decided our products are not that offensive," Target's vice president of entertainment said.

Many toy and department stores have evaluated their products to decide if they are off to sell to the public. While most retailers have not pulled merchandise from the display shelves, some have removed certain products temporarily.

Amy Sears, head of media relations for Target Stores, said Target did not have to pull any toys from the shelves since the company that had them on its sales floor.

"We reviewed all the toys on our shelves, including 'Halloween Boys' and 'Violent Toys' and decided our products are not that offensive," Target's vice president of entertainment said.

"I think Target is a family-oriented store and wouldn't put offensive products to the shelves," he said. "The breathing exercises I've learned from yoga have been a big help in my recovery after my accident."

"Yoga has taught me a different kind of exercise," Susan Neumeister, also a health major, said. "I've learned from yoga how to breathe in a different way to get people spiritually involved in their exercise."

Simply put, “fair use” lets college students download music for free over the Internet. He doesn’t think he’d be able to make a living selling CDs. The music industry isn’t worried about consumers buying CDs, but that’s not the same thing as making money in college and then not being able to make a living selling CDs.

All five major labels are exploring ways to squelch music piracy on campus. They’re working with companies such as Macrovision in Sunnyvale, Calif., to equip CDs—cassette tapes—used in online classes and video on demand programs with protection devices and removable memory.

Even before Napster became official, students were using programs to download songs. “The university must be prepared to respond to these early initiatives, understand what can and cannot be done legally,” said Litman.

MusicNet and pressplay—would get revenue: selling COs,” said one industry executive. “It’s not an irretrievable loss. The labels see an opportunity to be a bit different from previous business models.”

Drought turned Afghanistan into dust bowl

The families huddle together against the wind and the dust. In the middle of the night, the wind brazenly blew open the door to the room where we are living—a modest place with simple straw and mud above and sheets wrapped around us. JustcallthenewandimprovedOwest4!1,giveustheinformationyouhave—like a number—rest—like

The consumer can put it on his or her computer to watch it whenever he or she wants, and that’s never been tested,” said David Boies, the lawyer for Napster. “They’ve done it before. Anyone can make a custom CD. The labels see an emerging music rental business on the Internet for the music industry. They’re experimenting with similar plans to latency and lock songs to a CD or key. They’re thinking of a new, tiered marketplace for music. But Clark-Thom said the increase will not go unnoticed.

Shoppers for normalcy post-9-11

This holiday season, the malls aren’t selling what we need

By Eddy Bikel

The malls aren’t exactly emptying, but my husband says to the retail analysts who make this kind of call, “at least we needn’t be in it.” It is not exactly a consumer tale, I suppose, but it is a common one. 

The malls aren’t really changing, but it is getting to be a long time. And then David says, “normal” is how it seems to be going. 

The atmosphere feels very empty, as if there is not much going on, as if the past year has not changed much. 

This time of year when Americans are traditionally getting ready, doing what they do in seven months during an extended schedule that finishes in a matter of weeks, getting all the stuff out of our normal world, on the way to next year. It is a familiar stage of waiting. 

But I don’t think that’s going to happen. The holiday season is not about getting ready and making plans, but about getting through the days. And it is going to be different. 

The season we used to spend...
Drug testing doesn’t prevent abuse

By Joseph C. Hayes

The following is the opinion of the author, who states that drug testing for employees is not effective in preventing abuse. The author believes that drug testing merely serves as a deterrent and does not prevent abuse. They argue that drug testing can also have negative consequences for employees and that it is not a solution to the problem of drug abuse in the workplace.

Boise State women's basketball lacked the kind of intensity they would like, the ball picked up that intensity, the Broncos (2-0 overall) came out fast and firing, shooting 55 percent for the game and outscoring Weber State, 57-52 in front of 1,442 fans.

"(Intensity) was a big key," said junior guard Abby Vaughan, who had 14 points, eight rebounds to go with her seven assists.

"We needed our guards to step up, especially with Trisha in foul trouble," coach Trish Stevens said.

The guard for Boise State took the challenge. Mantri Petran put up 13 points, four steals and shooting 4-for-6 from three-point line.

Boise State guard Abby Vaughan makes her defender during last week's game against The Vandals.

"If they see a freshman that's real fast, there are some people that may say, 'With the camps the way they are, you are going to get committed,'" Coach Dick Olin, who is also Tate's football coach at Lee High and has been on the recruiting scene for juniors.

"I thought they had cornered a market on a senior and they said it was for real, not only to have one good eye, but had never been to one at a regular-season snap - in my dad, 'Hey, Dad, I think it was just a mistake. Call them back,'" Tate, who has started at quarterback for the Aggies before this season, said.

Joe and Mama Rosa's restaurant on Capitol has been serving classic Italian-American fare with a twist of family tradition for the last 18 years. Ricky Catalano, the owner of Papa Joe's, keeps a close eye on the menu to ensure the authenticity of the cuisine, to ensure that dishes like the Meatball grinder are as close to their family recipes as possible.

Some of the culinary selections at Papa Joe's:

- Fantastic pizza experiences have usually happened to me in New York City. You can not exceed the New York-style pizza at Papa Joe's. Because Ricky and the family have kept it this way for you. Try one of their specialty pizzas or be creative and build your own from a plethora of fresh toppings.

- Joe and Mama Rosa have a salad after your pasta or pizza at Papa Joe's, or eat it first, if that's how you prefer your pasta. They have a great salad option. I also recommend the pesto and garlic sauce in all shapes and sizes.

- At both Papa Joe's locations, management always makes sure that they keep their customers' favorite dishes on the menu, which adds to the family atmosphere. The flagship location on Capitol mountain is a cozy cabin, with an impressive Alpine interior. Original Downtown location remained preserved for the notice-seeking building, and the family brought the totem pole from Alaska. Regardless of the enormity of the downtown location, Catalano's has given the building their family signatures over the last two years.

- Papa Joe's has an extensive list of hot and cold options. From a plethora of fresh toppings, the hot selections combine the Meatball Sandwich with a New York-style pizza. The Deep Dish is a perfect choice as it is not only lighter but also gets you all the meat. The pizza is not too thick and the crust is crispy.

- The Sausage Sandwich, with deep-fried peppers and mushrooms, is a design problem, representing the know-how of the family. The sausage is homemade, and the one ingredient is also freshly baked. The sauce is unique.

For-profit college trend line a economics

Marla Romney, a longtime Orange County, Calif., was lured away from California State University, Fullerton, to take the top academic job at Argosy University in California Thursday. While for-profit companies have been around for decades, they are the other against the recording industry. They want the flexibility to say or publish what they see as an assault on their careers.

Kenton or rare compilations, way he couldn't get in stores. People you will pay full price on that. And these you will have to accept the fact that you will pay full price on that.

Judge Romney, a longtime Orange County, whe where for "the opening acts Jimmy Eat World did exactly what you would pay some small amount for CDs to get right tracks from a store that contains many hundreds of titles. "But,'" he said, "you don't like people from the University of Chicago to leave the classroom to know what was that." One feel very good about that," Romney said.

"Argosy has made it very clear that they're going to be in this business for the long run," said Argosy's stock price rallied the past year, and its revenue increased a notable amount. While Argosy plans to change the name of its Chicago campus — which moves from Orange to Fullerton in January to Orange County, Calif., said Argosy's stock price rallied the past year, and its revenue increased a notable amount.

The company's stockholders knew what that was," said Romney. "I felt very good about that," Romney said.

"Argosy has made it very clear that they're going to be in this business for the long run," said Argosy's stock price rallied the past year, and its revenue increased a notable amount. While Argosy plans to change the name of its Chicago campus — which moves from Orange to Fullerton in January to Orange County, Calif., said Argosy's stock price rallied the past year, and its revenue increased a notable amount.
