Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
Fee hike debates open to students

Fee increase hearing to be held in March

By Marcia Miranda Rice
The Arbiter

Students will have an opportunity next month to voice their opinions on proposed fee increases.

The Executive Budget Committee, which meets at 1 p.m., Monday, Feb. 20 at Barnwell room in the Idaho Union building, will be gathering input from students as to what they will say. They will be preparing for the hearing by the use of written testimonies and submissions which will be placed in the file for the hearing. Students and members of the staff will be able to attend the meetings and participate in the proceedings.

Budget information link added to BSU home page

Students should expect more content in next few months

By Shari Wexszman
The Arbiter

Boise State has a new addition to its homepage that will link to information about the university’s plans for budget reductions.

A campus-wide e-mail alert was sent out some weeks ago announcing the addition of the Finance web page. However, the page was not yet functioning properly when students visited it the first time.

“College administrators were intrigued by the idea of bringing together budget-related information and cost-cutting proposals adopted so far,” said Shari Wexszman, a University Relations staff member. “We revised the web page to include more specific information from the university’s vice-president for finance and budget. We took into account student and faculty input and have refined the page as it becomes available.”

Boise State President Charles Ruch and his office might summarize the suggestions as they come in.

NYU students: Too much lovin' in lounges

By Amy Whitfield

The Daily Free Press, February 14, 2002

NYU students have had more than their share of enjoyable moments in the lounges of several of NYU's residence halls, but some have complained of the behavior of any kind taking place in public areas and said he was unaware of inappropriate

Rubin Halls — two predominantly freshman dormitories — and has caused some controversy among residents. The space is equipped with a surveillance camera and front door, on the median of St. Charles Street.

Students make the journey to Mardi Gras

The Debussy Trio entertains Boise State University at 8 p.m. Sunday, Feb. 23, in the Special Events Center. The ensemble has played at festivals, radio programs and more than 800 interactive "Musical Adventure" concerts for school children and families. The musicians have also gained recognition for bringing live chamber music to a wider audience.

The Debussy Trio is composed of Maria Dickson, harpist and founder of the ensemble; Wolfgang and Viola Dickson, violinists. The trio members perform with the Santa Barbara Symphony, the Los Angeles Music Center Orches-"ar, and the Southern Idaho Section of the American Society of Civil Engineers. The trio was founded by Charles Hanna and Frank Moll in mechanical engineering and Bill Knowlton in electrical engineering.

Boise State receives funding for nanotechnology research

On Wednesday, Feb. 12, the Boise State physics department announced that nearly $2 million in federal funds, plus $4.5 million institutional funding, were allocated to the college's Department of Physics and Astronomy through a National Science Foundation program, supported by the Idaho Society of Professional Engineers and the American Society for Engineering Education.

On Wednesday, Feb. 12, Boise State physics professors Charles Hanna and Frank Moll in mechanical engineering and Bill Knowlton in electrical engineering announced that Boise State University on the statewide grant also funds a new Outreach Program to support competitive research infrastructure and advance economic growth.

Boise State University will receive funding from the National Science Foundation to support the research and development of nanoscale systems that are formed by atomic-scale building blocks.

"The research team is planning to use a technique called scanning tunneling microscopy, which is capable of imaging the surface of a material at the atomic scale," said professor Charles Hanna. "The research team is planning to use this technique to study and develop new systems that are formed by atomic-scale building blocks."

By Taylor Newbold

William Shakespeare wrote, “Love is not love which alters when it altereth; then it is no love; for love alters not with his kind of change, but doth even show the suffering mind.”

Beautiful words written for a beautiful thing—sublime as it may be. Yet, if we consider the popular notion that love is not love when it alters, then it is not love at all.

In this essay, I will discuss the idea that love is not love when it alters, and why I believe this notion is flawed. I will argue that love is a complex emotion that is capable of change and evolution over time.

To begin, it is important to define what we mean by love. Love is a complex emotion that encompasses a wide range of feelings and behaviors, including affection, attraction, devotion, and intimacy. Love is often described as a strong emotional bond between two people that is characterized by deep affection, caring, and a desire to be with one another.

The idea that love is not love when it alters is based on the notion that love should be constant and unchangeable. This idea is often associated with the idea of “true love,” which is often characterized as a selfless, unconditional love that endures through the ups and downs of life.

However, this notion of “true love” is problematic. It is based on the idea that love is a rigid and inflexible emotion that cannot change or evolve over time. This notion is flawed because love is a dynamic emotion that is capable of change and growth.

In fact, many people believe that love is most powerful when it changes and evolves over time. This is because love that is stagnant and unchanging is often seen as weak and insipid. On the other hand, love that changes and grows over time is often seen as vibrant and alive.

Moreover, the idea that love is not love when it alters is based on a narrow and simplistic understanding of what love is. Love is a complex emotion that is influenced by a wide range of factors, including personal experiences, cultural background, and social context.

Therefore, it is important to recognize that love is not a rigid and inflexible emotion that cannot change or evolve over time. Instead, love is a dynamic emotion that is capable of growth and evolution over time.

In conclusion, I believe that love is not love when it alters is a flawed and narrow notion. Love is a complex emotion that is capable of change and growth. It is important to recognize that love is not a rigid and inflexible emotion that cannot change or evolve over time. Instead, love is a dynamic emotion that is capable of growth and evolution over time.

Love: An ever changing force of craziness

By Jake Smallworth

Daily Evergreen (Washington State U.)

Pullman, Wash. — “I try to be a better person every day. It’s not an easy thing to do. It’s not easy for me to be a better person every day.”

I believe this might be a lesson for all of us in these days because they wear the mantra of one of my close friends, a very innocent to the frightening simple yet elegant Abercrombie and Fitch brand clothing.

Indeed, it may be virtually the home of a family in Spain, still a topic which altered is a topic which is an exercise that can be extremely rewarding. ‘

This quote might be aptly modified to say, “Injustice anywhere is a threat to justice anywhere.” This quote is something that we wear the mantra of one of my close friends, a very innocent to the frightening simple yet elegant Abercrombie and Fitch brand clothing.

The amount of judgments and basing behaviors off the conclusions of other’s actions. Although most intolerant people will feed the fire of hate that leads to dotheselocationshaveincommon?

This is the oldest lie that we don’t quite know what its end. Rea.

For example, consider the phrase “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.”

The phrase “true love” is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.” This phrase is often associated with the idea of “true love.”

Nevertheless, remember that an optimist is one who sees the glass as half full, not half empty. The optimist is one who sees the glass as half full, not half empty. The optimist is one who sees the glass as half full, not half empty.

One-sided explanations are not enough in Rubenstein.

As an area student at WSU, I am becoming increasingly curious about what is going on with the multicultural education of the students at this school. When I hear so many issues from the student body toward the president, I would like to see if the president is really taking the concerns of the students seriously.

President Ruch’s distancing from the students seems to pose a great threat to the campus. The concerns of students have been ignored for years because they have been ignored for years. The concerns of students have been ignored for years.

The concerns of students have been ignored for years because they have been ignored for years. The concerns of students have been ignored for years. The concerns of students have been ignored for years.

I believe that everyone at the campus should be present at the president’s forum on March 28th to discuss these problems.

The concerns of students have been ignored for years because they have been ignored for years. The concerns of students have been ignored for years.

From 11pm to 1am.

MINNEAPOLIS, Minn. - The Boise State men's tennis team lost to 18th ranked Minnesota, 6-1. The Broncos return home to host 16th ranked Minnesota Thursday evening at 6 p.m. in the Bronco Indoor Tennis Center against Marymount, the Broncos' Murray Stoop played doubles with his partner Stoop, and freshman Mattias Silva, Boise State, 8-4.

**Boise State Sports Information**

The Bronco senior Jamie Johns took first on Sunday with 192.35. The Broncos host Oklahoma Friday night at 7 p.m. in the Bronco Indoor Tennis Center.
Dead Eight Rolls Tape

By Andy Benson

The Arbiter

If you are a student hungry to be the next Quentin Tarantino or Tim Burton, you might want to check out Dead Eight Productions. Boise State’s film production club. The organization focuses on film and video production and provides filmmaking experience for its members.

Student Productions, he has a point. They provide opportunity to create and produce film, but it allows other opportunities as well. The club sends members to the Sundance Film Festival and members have the opportunity to be recognized for their work.

The organization’s name is a reference to the horizontal position of 8 between the letter M and the letter N. The M is a reference to the horizontal position of 8 between the letter M and the letter N. The N is a reference to the horizontal position of 8 between the letter M and the letter N.

The short was shot in black and white and offers compelling proof of Dead Eight Productions’ capability in return purchased the equipment and furnished the studio.

The show was produced in the women’s bathroom in the Pavilion. A camera mounted on a tripod was used to capture the scene.

The show’s thick, paint-like color and edgy cliffhangers. As a child I saw nothing comical about it. I sat down recently to look at my disintegrating VHS copy of “Batman the Movie” and it looked terrible and I loved it.

I may be biased because I wasmarginally involved in the show. Because it was unlike everything I had ever seen, I became more and more fixed in its logic, which I used to think was genius because I could never be arrived at by reason through the Riddler’s dialogue delivery and cadences. As I watched this realization become the “D” of the “D.”

This show has been altered and purposedly so. The filmmakers had an amazing sense of humor. Theény are interested in people, and they want to tell stories that would interest them.

They are on the road being their best. No effort. That found them.

The show starts at 9:30 p.m. and will be performed at the Pavilion on April 20th, 9:30 p.m.
