Display protests parking tickets

By Andy Benson

A car parked with copies of Boise State parking tickets in the Language Arts parking lot prompted the University Foundation to ban parking tickets.

Eva Marie, a Boise teacher, decided to protest the parking ticket system by parking her car in the Language Arts parking lot with parking tickets covering the windshield.

Eva Marie explained, "I was tired of being a victim and decided to take action."

The University Foundation decided to ban parking tickets after the incident.

"Parking tickets are a nuisance," said Foundation President Robert Ruch. "We decided to ban them to avoid further incidents like this."

Parking tickets have been a source of controversy for many years.

"Parking tickets are a form of extortion," said Ruch.

The parking ticket ban will be effective immediately.

"We hope this will resolve the issue," said Ruch.

For more information, please contact the University Foundation at 208-334-2154.

By April lithium

Kemphorne holds back higher ed again

Governor Dirk Kempthorne said he would hold back state funds for higher education until after the university system wins an award.

"We are holding back state funds until the university wins an award," said Kempthorne.

The university has been working hard to win the award.

"We are determined to win the award," said the university president.

Kemphorne's decision has caused concern among university officials.

"This is a setback," said the university president.

For more information, please contact the Governor's Office at 208-334-2154.
Congratulations to the graduating
2002 BSU CAMP alumni.
You did it.
Felicidades en tu graduacion!
Best wishes in your future endeavors.

Luigi Testa
Congratulations!!!
Thank you for all of your hard work and dedication. We wish you the best of luck in all your future endeavors.
Sincerely,
The Bookstore Staff

Accountancy
International Business
Business Administration
Marketing
Computer Information Systems
Management
Economics
Management Information Systems
Finance
Networking & Telecommunications
General Business
Production & Operations Management
Work for inclusiveness at Boise State

Re Tam Bith

Boise State has a silver lining. This was supposed to be the year that the theme of the Student Union was: "The Arbiter since 1920". As the year was coming to a close, I was ecstatic to see the university. Sentiments like these were not all that one would expect to hear from students. But I believe that there is important with your money.

State have accepted the fact that there is no reason to hold all of the wonder- ful way until he experiences it. Men can be almost as normal as women with the eyes, but the consequences don't seem to be the same. They are expected to stand up for what they want, while women are expected to be submissive. This is a problem because men shouldn't be expected to do anything:

Emperor Richard II 1272-1399 . The theme of the winner's essay "The Arbiter" was presented by the College Media Association. The Essay is an essay that I would venture to say is an essay that we don't live up to as a society. Men are expected to do things that are considered to be acceptable, while women are expected to do things that are not.

The Arbiter is seeking interns for fall semester 2002. We are offering several three-credit internships. No experience necessary, but students who have taken the reporting and editing courses are preferred.

The Arbiter's copy editor for the fall 2002 semester is Melissa Bingham Brownlee. The Arbiter's Managing Editor is Andy Bennett.

Interims Available: Sports writers, Hard news writers, Diversion writers (A & B), Assistant copy editor.

Contact James Patrick Kelly at 345-8204 (ext. 104) for more information.
**Bicyclists gone crazy**

By Lindsey Maxey

In the United States of America, all citizens have the right to walk, ride and write. I am not an authority on bicyclists, but I am a student, and I believe that bicyclists have the right to ride in a university campus. However, there are some concerns that have been raised about bicyclists.

One of the concerns is that bicyclists sometimes ride through close-packed groups of students, causing injuries and fear. Another concern is that bicyclists may not respect the right of pedestrians to walk in peace.

The university administration has been working to address these concerns. They have made some changes to the bicycle lanes and signs, and they have increased the number of police officers patrolling the campus.

Despite these efforts, some students continue to be concerned about the safety of walking on campus. They believe that more needs to be done to ensure a safe and healthy environment for all students.

**Ending athletic preference No, you can't see my thong!**

By Nicholas E.

**Claremont, Mass. - Harvard University prides itself on being a place where a group of students from a wide range of backgrounds can come together to form a collegiate community.**

One of the things that makes this university unique is its diverse student body. There are many different types of people here, and each brings their own experiences and perspectives to the table.

However, there have been some controversies around the topic of athletics. Some people argue that recruiting athletes who are not necessarily the best students is a way to boost the university's reputation and increase enrollment. Others believe that this is unfair to regular students who are not recruited.

Despite these debates, Harvard University continues to be a leader in collegiate athletics. The university has won numerous championships and is known for its strong athletic teams.

It's worth noting that the admissions process at Harvard is very selective. The university receives thousands of applications each year, and only a small percentage are accepted. Therefore, it's important to remember that being accepted to Harvard does not guarantee athletic success.

In conclusion, while there are debates around the topic of athletics, it's clear that Harvard University is committed to providing a high-quality education for all of its students, regardless of their athletic ability.

---

Ribbon cut on new tennis complex

By Phil St 알려

Last July as a new member of the Boise State Alumni Association, Mayor Coles said of the new tennis facility, "This facility would not have been possible without the visionary leadership of Boise State President Charles Ruch, the determination by the Boise State Athletic Department, and the hard work of Boise State men's tennis head coach Steve Appleton, along with the contributions of Boise State fans." Appleton graduated from Boise State with a double major in accounting and information systems. Appleton was fortunate to be able to have the opportunity to play and give back a little bit of what's been given to me," Appleton stated. "Boise State University has been such a big part of my life and it's still a part of my life." Other opponents on hand for the celebration included Idaho Governor Jim Risch, Boise Mayor Group Coke and Boise State University President Charles Ruch. Appleton predicted for future NCAA tennis tournaments. "This is the prediction for the new facility from Governor Geppert. Boise has the world-class facilities, and Boise State has the athletes who will practice and compete here in BCenten. Governor Kempthorne also added, "The facility that we have here is the best that I have been to in the state. It is for free admission but also for the community." Appleton thanked the Board of Regents for its support. "Boise State didn't just fund this project, but the rest is actually a beautiful spot. Boise State became a University in 1955 by Charles Ruch. Boise State fans, Boise State Outdoor Tennis Center Day. Mayor Coke said of the new tennis center, "This is like nothing I have ever seen in my lifetime." Boise State's tennis facilities have hosted many world-class players over the years, including world No. 1 Andy Roddick, who is currently ranked sixth in the world and Lindsay Davenport who is ranked second in the world. Boise State Boise State will host the 2002 NCAA Tennis Championships.

Boise Chancellor (front), Steve Appleton (middle), and Jim Moortgat fire off the ceremonial first serve in the Appleton Tennis Center.

Campus Recreation is looking for students who are:

- Enthusiastic and Friendly
- Dedicated and Honest
- Comfortable working as a team
- Committed to delivering quality guest service

to work in the Student Recreation Center beginning in the Fall of 2002.

If this describes you, turn in your application May 6-10 at the REC (1510 Pavilion). Applications are available at the Rec and online at

Presented by PEOPLE FOR CHRIST MINISTRY
Welcomed by 89.5 FM KTSY

Le Café De Paris is a genuine glimpse at the French's love for quality cuisine and conversation. The atmosphere is cozy and friendly, and the murmuring of French creates a unique ambiance that adds a romantic flair to the simple decor.

The cafe is a nice, affordable getaway for students any time of the day. Whether you just want a steaming cup of café au lait or something more substantial, Le Café De Paris is open six days a week.

Experiencing France and its culture is now possible at Le Café De Paris, an authentic new venue that opened its doors in the heart of Downtown Boise. For Mathieu Choux, the café's 23-year-old chef, it was born and raised in the French wine region of Burgundy. His family has been in the restaurant business for generations. Two years ago, he came to Idaho to visit a couple of old friends and immediately saw the need for a French bistro-style cuisine. At the same time, initiating people to French gastronomy. From quiche to chocolate mousse, from delicious homemade vegetable soup to freshly made baguettes and warm chocolate-filled croissants, Le Café De Paris serves a variety of items for less than $6.50.

Mixed media forms speak volumes

By J. Patrick Kelly

The Arbiter

 Boise State's Department of Art is turning male and female anatomy and physiology loose another batch of artists on the world. Her forms pay close attention to the genetic and reproductive processes that connect all humans in a unique bond.

"The Plexiglas boxes signify the constraints that society inflicts upon us, yet a response to the world of popular media transparent that we can see outside this limitation," Crawford said.

"Busy Signal" is running until May 15 in Gallery One of the Liberal Arts Building and Gallery Two of the Hemingway Center. Crawford's exhibit also features a series of hanging aluminum rods, which delineate strands of DNA.

"People have been treating them like a musical instrument because they chime when touched. This adds a whole new dimension to the piece," Crawford said.

Ritzer's three urban totem poles are made from stoneware, found tires, lumber, polyester cord and spray foam. One of the totem poles is intentionally incomplete as an artistic statement. "It is representative of aspects of our culture that are left unfinished," Ritzer said. "Knotty, organic-looking growths protrude from the poles, creating an illusion of the natural world. The spent tires represent free-association writing adorns the monoliths.

"Graffiti is such a major part of our culture and throws are persisted, they don't go away, and language plays into this," Ritzer said. "I wanted to break away from conventional pottery on this project, and I feel that I have accomplished in doing so." Zoey Crawford, a senior fine arts major at Boise State with an emphasis in printmaking, explores the concepts of genetic makeup in an effort to combat the superficial nature of people. Her paper-thin forms are made from stoneware and wire and adorned with free-association writing adorns the monoliths. "Below the surface, we are all the same, just cells, nerves and blood," Crawford said. "Sometimes we forget that, and that's what I've attempted to express in my work."

"Unfortunately, jewelry to many is not recognized as an art form or medium, but when I'm doing a piece, I'm always thinking about someone's wearing it and how they'll react to it," Sexsmith said. "It's a way to express the way that we communicate, and the message in jewelry is not always so clear."

"It is important to create a sense of awe and a feeling of vacancy, especially when dealing with the topic of urban sprawl," Cummings said.

"We can't help but notice Natalene Cummings' environmental art forms. Her concepts deal with the extinction of natural habitats, issues of over-population and mass consumption in our society."

Above: Zoey Crawford explains her concepts of her installation, "Underneath It All," to Diversions Editor James Patrick Kelly. Right: "Visuals for the Blind" by Hatalene Cummings.

Don't fund everyone's projects. One gentle dreamer could cost you a bundle. Not that this person would bother. Hold your breath, mailings elsewhere, and even your experience charm is of no use. Courage is busy today. Bold action is your favorite thing today. Do the most challenging.

Today is a pretty good day for anyone to enter a new phase. It's a beautiful day, yet there are a number of materials or documents, so don't bother. Hold your breath, mailings and even your check until tomorrow.

You might win the lottery again today. Virgo (Aug. 23-Sept. 22) - Today is a 6 - Big changes are under way. Your assignment is to help them make things turn out better. Scorpio (Oct. 23-Nov. 21) - Today is a 4 - The path to riches is the easiest day.

The job isn't what you think it is. It's pretty hard for anyone to "believe" in you right now, but it's not wrong right now. There are too many changes going on, and the company is limited in what it can do.

Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready. When you venture into new territory, you may get shot down somewhere. It's too late to give up now, but it can work.

You can get shot down somewhere. It's too late to give up now, but it can work. Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready.

There isn't enough for everyone to go around. You can't make it right now, but you can make it. Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready.

There isn't enough for everyone to go around. You can't make it right now, but you can make it. Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready.

The path to riches is the easiest day. Don't complain. Lend a hand. It's just one hassle after another. This will not go away. The power is yours to make. Get ready.

It's just one hassle after another. This will not go away. The power is yours to make. Get ready.

There isn't enough for everyone to go around. You can't make it right now, but you can make it. Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready.

Big changes are coming. Today is a pretty good day for anyone to enter a new phase. It's a beautiful day, yet there are a number of materials or documents, so don't bother. Hold your breath, mailings and even your check until tomorrow.

It's just one hassle after another. This will not go away. The power is yours to make. Get ready.

There isn't enough for everyone to go around. You can't make it right now, but you can make it. Nevertheless, there is a certain nobility in the way you do things. The power is yours to make. Get ready.

The job isn't what you think it is. It's pretty hard for anyone to "believe" in you right now, but it's not wrong right now. There are too many changes going on, and the company is limited in what it can do.
