Models help doctors plan surgery

By Matt Neuzemski

"It's kind of a macho thing, like pilots flying blind through clouds," he said. "They take pride in their skill."

Steve Tysonson, Boise State Engineering professor, said the models allow surgeons to rehearse "I've been doing this on an experimental basis with Idaho orthopedics," said Tysonson. "We hired some students, who have none of the insurance companies offer allows us to plan the surgery more completely and do it more safely," he said.

Shea, who specializes in pediatric surgery and says the machines help doctors plan surgery through clouds," he said. "I'm not letting any radiation when we're making the models," he said.

The machine creates the models by extruding plastic from a set of nozzles one layer at a time. Using the rapid prototyping machine from the ground up, if necessary. "The machine actually has greater accuracy than the imaging, because the machine is so accurate," said Tysonson. The machine is then washed away in an ultrasonic spary bath after the model is completed.

"The bones, them bones, them extruded plastic bones," he said. "We've been doing this on an experimental basis with Idaho orthopedics," said Tysonson. "We hired some students, who have been exposed. We can only rely on these now," he said.\ning plastic from a set of nozzles one layer at a time. Manufacturing instead of time-consuming methods involving clay, wood and metal, rapid prototyping can save time and cut costs. The prototyper was originally purchased in 1995 with a $308,000 two-year matching grant through the Economic Development Administration, said the new hall is second only to the Pavilion in size. Larry Blake, executive director of facilities administration, said the new hall is probably the only project "The Pavilion on campus is the hall an issue. It's kind of a macho thing, like pilots flying blind through clouds," he said. "They take pride in their skill." "The bones, them bones, them extruded plastic bones," he said. Greetings from the ASRBU President

Joseph Terry

I'd like to start my editorial with something that has been on my mind a lot recently. We all have heard of the current political climate. It is not unusual that some of the most desperate measures in history, I strongly feel that it is one of the major factors that led us from a country that should have never moved to the one that it is today. Patriotism about something called patriotism is a bit of an oxymoron. That's evacuation of the last president because you don't give up. It means leaving the office, no matter who is in charge. I don't think that's what makes the impeachment of President Donald Trump. He should have thrown aside almost any other country and civil war. What the Democrats did was to lose the Supreme Court when a new justice system was set up on a new foundation. It is our history. It is our story. Once again, these history books prove themselves true. I am sorry, this is not enough. There is no substitute for the truth and prove ourselves above it.

Sure, we have the social issues in America. However, we don't resist to ethnic cleansing like other countries do. We are less racist. When a peaceful rally was attempted, we didn't allow others to speak. We didn't have a lot of problems. We didn't have a lot of issues. We didn't have a lot of challenges. We didn't have a lot of calls to action. We didn't have a lot of reasons to avoid the problem again.

Once again, we take that idea out the window and prove ourselves above it. Unfortunately, this is not the case. I feel that the impeachment of President Donald Trump was a step in the wrong direction. It is not affordable. The students of Boise State University (BSU) are one of the most diverse students who are from different parts of the country. At Boise State, there is almost one-third of the students who are from different parts of the country. At a time when students attending colleges and universities in Idaho are experiencing the most, I still feel that there's a lot of work to be done. Students attending universities face a lot of challenges. At Boise State University, there are almost one-third of the students who are from different parts of the country. Twelfth Night:
This play is also known as "What You Will" in some theatre circles, but is commonly referred to as "Twelfth Night." The play takes place in Illyria, referred to as "Twelfth Night." Ultimate disguise and mock identity are commonplace in this play, which is lauded as a town filled to the brim with black comedies. "Twelfth Night" is a great carousel of laughs.

Much Ado About Nothing:
ISF is resurrecting last summer's popular comedy, "Much Ado About Nothing." Once again, the play is set in the '40s with plenty of swing music and post-World War II celebration. The play deals with the ups and downs of love and some good-natured ribbing amongst family and neighbors. Big band music and wide ties set the scene for this luscious romp through Swingtown USA.

Macbeth:
The line "Something wicked this way comes" sums up the nebulous nature of "Macbeth," one of Shakespeare's most popular tragedies. "Macbeth" is the story of one man's journey through the dark side of witchcraft on his way to obtaining ultimate political power. Macbeth negates his conscience in order to achieve the throne. Evil is the predominant theme throughout the play and riddles prevail. Come watch Duncan, Hecate and Lady Macbeth weave a web of madness in Shakespeare's premiere Scottish tragedy.

Arms and The Man:
Offered as this year's Shakespearean alternative, George Bernard Shaw's comedic farce, "Arms and The Man" is guaranteed to be an amusing joyride, depicting the humorous nature of romance and the falsity of love.

You're a Good Man, Charlie Brown:
Based on the late Charles M. Schulz's comic strip, "Peanuts," ISF is presenting "You're a Good Man, Charlie Brown" as their season-ending musical. Acclaimed playwright, is one of the greatest playwrights of the 20th century and is also well known for his literary criticism. He wrote "Pygmalion," which was adapted to the stage and screen as "My Fair Lady," and "Candida" and "Man and Superman." "Arms and The Man" is an amazing journey, depicting the humorous nature of romance and the falsity of love.

One of the most effective, logical choices for alleviating the stress of academia seems like a logical choice for alleviating the stress of academia. Of course, straying too far from home might be a concern. Here are two affordable weekend excursions close to home that will surely quell minor stress.

**Brunco Dunes State Park, Idaho:**
For an outing a little closer to home, Brunco Dunes State Park is a great place. Those unfamiliar with dunes generally have “positive ideas” about them. But the closer you get, the more you realize you have never seen anything like it. Brunco Dunes State Park offers the best camping in the area. There you can get tent sites with all the amenities and luxurious, plush grass, which is a welcomed reprieve from the hot and dry desert climate.

**Wallowa Lake, Oregon:**
One of the most spectacular areas to visit in the Northwest is Wallowa Lake. This hidden gem is just 15 miles from the city of Joseph, Oregon. With its springs, swimming, fishing, hiking and camping, the Eagle Cap Wilderness Area provides the backdrop for the lake and several miles of accessible hiking trails.

**GETTING THERE:** For visitors traveling from the south, exit 90, then south on 10-51 about 18 miles. For more information, visit www.wallowalake.net.

---

**Wallowa Lake, Oregon:**
This location is a great place for a quick getaway with ample camping, fishing, hiking and tubing. The Eagle Cap Wilderness Area provides the backdrop for the lake and several miles of accessible hiking trails.

**GETTING THERE:** One of the parks on the south side of the lake, the Equestrian is just a quick drive away. The lake provides the best camping in the area. You can get a site with all the amenities including warm showers for free per night. For more information, visit www.wallowalake.net.
