ASBSU proposes quad dismount zone

By Mattie Neckel

A recent dismount incident on campus was the spark that ignited the dismount zone idea, according to Mattie Neckel, a member of ASBSU and a sophomore criminal justice major.

Neckel said that the dismount zone is a proposal to add a dismount area on the west side of the center.

The idea has been around for a while, but Neckel said that the recent dismount incident on campus has brought renewed attention to the proposal.

Neckel said that the dismount zone would help to prevent accidents and injuries on campus.

"If we can just have a designated area where people can dismount, it will be less crowded and safer for everyone," Neckel said.

The dismount zone would also provide a place for people to relax and enjoy the weather.

"It would be a great place to hang out with friends and watch the game," Neckel said.

ASBSU is working with the university to implement the dismount zone and is hoping to have it in place by the next football season.

Neckel said that the dismount zone is a step towards improving the safety and enjoyment of students on campus.

"We want to make sure that everyone who comes to Boise State has a good time," Neckel said.

The proposal has received mixed reactions from students, with some applauding the idea and others expressing concerns.

But Neckel said that she is confident that the dismount zone will be a success.

"I think it will be a great addition to campus life," Neckel said.

The dismount zone is just one of many proposals that ASBSU is working on to improve the student experience at Boise State.

Other projects include improving the Wi-Fi on campus, adding more student organization funding, and increasing the number of study spaces available.

Neckel said that she is excited to see these proposals come to fruition.

"I think these proposals will make a big difference for students on campus," Neckel said.
She told him that while he was away on vacation, co-workers had passed around a copy of the book with Post-It notes in it. The游 coment was, "Mark, I didn't know you were gay."

Students sent a petition protesting the action of general recriminations at the department of neurology at Ohio State University. Many treatments work by correcting neurotransmitter imbalances and symptoms associated with Alzheimer's disease. "Treatments for psychiatric and Alzheimer's disease have been known to intervene in the chemical messaging system in the brain," said Dr. David Reivich, an associate professor of clinical neurology.

Evershed says the Alzheimer's disease research in the Scher's lab was established at OSU in 1994. There are no other researchers on the committee, which is working on in 10 research projects right now.

In 1994, the Nevada election ballot will ask the state's residents to recognize any other definition of marriage than that would be allowed to states to refuse to allow those same-sex marriages. "No one was seriously killed during the same-sex marriage ban." said BYU law professor Lynn Wardle.

If the new amendment would add Nevada to a list of states that have passed laws or constitutional amendments banning same-sex marriage. In addition, Utah representative Chris Cannon is one of the sponsors of an amendment that would define marriage as between one man and one woman and allow states to refuse to recognize any other definition of marriage. If the new amendment passes, the new amendment would be the 36th state to pass a constitutional amendment banning same-sex marriage. More than 20 state referendums have already been passed in 35 states.

The book covers finding global environmental issues challenging to teach topics ranging from water and energy, population and policy.
some Americans, fed up with both parties, turn to independents

by steven thevenot

EDDIE, Miss. — Like many Americans thinking of the next election, the folks here have turned off. All but a handful of political parties, State Sen. Roskie Altman said. "We've learned that both parties are full of people who have no idea what constitutes an issue or what constitutes an election.

Unlike other Americans, however, Eddie has another choice, at least to the electorate for Mississippi's governor. With support from her neighbors and a whole host of independent candidates, the Eddie woman is turning the tables on the Democratic establishment in the state.

The environment is ripe for an outside candidate to take advantage of that. The whole notion of a centrist, consensus-building candidate like Penny is refreshing.

A former conservative and member of Congress from southern Mississippi, Penny is a fiscal hawk who walked away from politics in 1996, apparently with his party in mind. But the environment is ripe for an outside candidate who can draw on the frustration of voters who feel left behind by the two parties.

"I think the main thing is that the people are tired of the two-party system, and they're looking for something new," Penny said. "I'm sure there are others out there, but I think there's a lot of interest in an independent candidate."

Well, it would seem that old George boy has gotten his comeuppance. congress has given its backing to an "arbitrary" decision in Iraq. For some of the American people, this comes as sweet music to their ears, but for the rest, it means something different.

For a large portion of America, decisions to act seems like the end of the war in Iraq. As long as there is no international consensus, it seems that the only way to achieve peace is to engage in military action. The war in Iraq has left many people feeling despondent and disillusioned with the current administration's policies. The decision to go to war in Iraq has been met with widespread opposition, and many people feel that the United States should have focused on finding a peaceful resolution to the conflict.

On the other hand, for those who support the war in Iraq, it seems like a welcome change. The Bush administration has been pushing for military action in Iraq for many years, and many people are glad to see that their voices have been heard. The decision to go to war in Iraq is seen as a triumph of American strength and determination.

But what about the long-term implications of this decision? Will it bring peace to the region, or will it lead to further instability and conflict? Only time will tell. For now, the decision to go to war in Iraq is a significant event that will shape the course of American foreign policy for years to come.
Howard is smart choice for superintendent

By Zach Malfavia

Alas, but I am almost consistently concerned about the vast majority of candidates for State Superintendent which none of them (or myself) seem to be committed to. There is indeed another candidate from the College Republicans campaign season that I believe is excellently suited for this position.

To be more specific, the Democrat running in the race for the State Superintendent of Public Instruction title, and that he was scheduled to finish "his last few credits" as State Superintendent of Education, from classroom instruction, to administration of the needs of college students, from the college students, faculty and staff.

We do need to work with the College Democrats' preside and original founder, Van Boechel, at the beginning of his own educational background. I think most people would agree that he did not finish his degree of their political incorrectness, and that he was an excellent candidate.

In 1998, I was first elected to the Senate with 18 months! (Not to mention, seven students, faculty and staff.

The College Democrats have used our past year, the educational website, to help shape America's future. It is not a pretty picture. The Democrats have used our past year, the educational website to help shape America's future. Trust how the other side wants it, not us.

Beasley balances golf, school life

By Tonya Dobson

Senior Marie Beasley is maintaining her golf game while focusing on her studies. Beasley is currently ranked 13th in the nation and is one of the top female golfers in the country. Beasley is also a top student and is considering majoring in business.

"A lot of people think it's easy to balance both golf and school," Beasley said. "I think they say things like, 'Oh, you play golf for a living.' But it's the other way around. I play golf to go to school. To me, it's a matter of being able to have a good balance between the two. It's not an easy decision to make."
Ready or not, BCS is back

By Mark Stewart
Milwaukee Journal Sentinel

They're back! The Bowl Championship Series rankings, the system that determines which teams get to play in the national championship games, will release its first ranking Monday.

Don't put too much stock in it. Considering there are seven weeks left before the pairing for the national title game is determined, this is just the first step in the process.

"Remember, it's a marathon, not a sprint," they always say. "The competition is incredibly tight." But it's the BCS's first chance to show.

The nation's top teams, from coast to coast, will open their schedules this weekend and the BCS is back, ready to rank, ready to pick. The NCAA's top four teams are the top four teams. It's as simple as that. But how will the rankings look? Will it be a season of surprises? Or will the BCS's No. 1 team dominate throughout the year?

This season, it all starts on Saturday.

1. Virginia Tech: Until they have a chance to face a top-five team, Miami, ranked No. 1 in the media and coaches polls, is sixth. Virginia Tech's biggest challenge would be to have a less than the end of the regular season, the ACC's top-five teams are on the rise. The Hokies could be a top-five threat before December.

2. Oregon: The Ducks' defense is the team's biggest strength. Oregon is on a roll after a 61-0 win over Arizona

3. Oklahoma: The Sooners' record in big games, specifically against Big 12 foes, is not impressive. They have a tough schedule remaining.

4. Georgia: That game against Florida is a must-win if the Bulldogs are going to be undefeated going into the national title game.

Arizona State stuns No. 6 Oregon with Walder's record day

Lebons nominated top Theatre Arts student

By Jean Forrest

Lebons currently acts as stage manager for several plays and dance shows. She enjoys stage managing and dance shows. However, she is hesitant on having sponsors for her group. She is a part of the exceptional students in the Department of Theatre Arts because of her skills and dedication.

Many Hayden, theatre arts professor, was asked why Lebons was nominated. Hayden said, “I’ve known Lebons for years and I’ve always known she is an exceptional student.”

Lebons is often seen working in the Department of Theatre Arts because of her dedication and skills. Lebons is a part of the exceptional students in the Department of Theatre Arts because of her skills and dedication.

More are among the works he’s done for businesses. Kirkman also took part in the creation of the Best Buy sign in the lobby of downtown Asheville, The Rose Air Terminal’s parking sign. He is currently working with About Face and will soon be involved in installing the LED sign in the HenEGon Square entrance to the Martha Building.

Kirkman also does restoration work. In 1992, he worked on a Bose landmark, which has stood above the street for 25 years.

"It's kind of fun to drive around and see the results of your work," Kirkman said. "That was in 1992. That was Kirkman's first big work.

"That was working at a job 1 didn't like," Kirkman said. "And I saw an ad in the newspaper for a job and I said, 'I've been doing this for 10 years,' and I applied for the job and got it. I've been doing it ever since."
