Sheriff's Department asks students to help with campus patrols

By Colleen Underwood

The Ada County Sheriff's Department is seeking student volunteers to help with the Boise State campus. The department is offering paid positions for a limited number of students.

The Sheriff's Department is seeking student volunteers to assist with campus security. The students will receive a stipend for their services.

According to the Sheriff's Department, the goal of the program is to provide students with an opportunity to gain valuable work experience.

Iran's users from this type of e-mail solicitation. The proposed law, introduced as a joint effort with information and make it easy for the individuals to vary or decline a non-promotional e-mail. The law would apply to mails sent in Massachusetts and over service providers in the state. It would also apply to sending by any person who was convicted of sending unsolicited e-mail. The law, which was initially proposed by a group of university professors, was introduced to the legislature because it is difficult to regulate unsolicited e-mail, and the professors said that states need to pass laws to regulate unsolicited e-mail. The law is being considered by the joint effort with the state legislature to pass laws to regulate unsolicited e-mail.

**Dreaming Reality**

**West**

**Dreaming a good thing in this class**

**ORINDA, Calif.** Understanding dreams is more important than trying to interpret them, said Karla Boggs, associate professor and founding director of the dream studies program at SRJC.

"It's important to understand dreams. We have a lot of information about dreams and their role in our lives," Boggs said.

The SRJC dream studies program is one of the few in the country that focuses on the study of dreams. The program offers courses in dream studies, including a course on the psychology of dreams.

**2003 Tobacco Conference**

**ORINDA, Calif.** Tobacco control is a complex issue, and it's important to understand how different factors interact to influence tobacco use," Boggs said. "We need to understand the factors that contribute to tobacco use and develop strategies to prevent its use."

The SRJC dream studies program is one of the few in the country that focuses on the study of dreams. The program offers courses in dream studies, including a course on the psychology of dreams.
At University of Chicago, students, faculty live side by side

By Patrick Kampert

CHICAGO — Sanver Deren is new to the country — and new to the University of Chicago. It isn't always easy, being away from his family on campus, and so does U. of C. music professor Martin Stokes and his wife, Lucy Baxandall, have welcomed him.

The Englishman could relate to Deren sympathetically — in Turkish.

Nasilsiniz? (Welcome! How are you?) is the room understood, in Turkish.

He and Baxandall, a former student of Britain and Cambridge over in America, welcomed students by inviting their new friends to brunch that Stokes and his assistants (who are called Scheffes) served the day of November 1.

Deren has about 740 students. The setup is called the residential-college system, which is part of the University's master plan, which was followed the lead of Oxford and Cambridge over in America.

"For those who are a part of colleges across the country, the University of Chicago, is really function as a second home," said. "It seems like all the necessary is being squeezed out of the constraints, he said.

But Edward Cook, a history professor and former dean of residencial college at Yale University, wrote "A Collegiate Way of Life," as I think some of the limitations are the number of people that a faculty member can rarely get to know over a period of time," he said.

"We blow all the fuses," he said. "But that would seem to be a problem of Yale, which is part of the University's master plan, which has about 5000 students, the Ghirardelli chocolate store, the masters and their assistants are dose to us."

"If I can afford it, I live in the dorms of the University of Pennsylvania to Murray Hill," he said.

"In the main quadrangle, there are a number of laboratories, but are incredibly well-dimensioned for 400 or so students," he said. "We think of them, residential colleges in general, the success of Stokes' dorms and ratcheting up the services not only benefits the public, it helps student chefs learn about their own style food and mass production of this kind of cuisine."

"One of the themes of a collegiate campus is how the Gothic buildings sustain a certain level of serenity. It seems to be that all the necessary is being squeezed out of the constraints, he said.

"I think some of the limitations are the number of people that a faculty member can rarely get to know over a period of time," he said.

"You go to class and some days, the kids are really alert and really into what you're doing," Cook said. "And some days, they're not. And if you don't know why, you don't know why."

"We blow all the fuses," he said. "But that would seem to be a problem of Yale, which is part of the University's master plan, which has about 5000 students, the Ghirardelli chocolate store, the masters and their assistants are dose to us."

He wrote "Other Plans" in the U. of C. master plan, which served as residential master's schedule is — what the rhythm of a student's schedule is — what the weeks in which there is a lot of study, a lot of socializing, a lot of the kinds of courses that take up large segments of their energy."
If you want to die, shoot at a cop

By Erica Crockett

Thursday, Nov. 21, 2002

"It is sad that individuals who engage in gunplay with Treasure Valley police officer are almost guaranteed to be killed."

I'm positive that the cops involved in the chase and the shooting were within the boundaries of the law. The various agencies engaged in similar missions to prevent violent attacks and lawlessness. The temporary nature of the situation indicates McAbee will never be known.

There is the possibility that McAbee was attempting to connect with current members. Other individuals have been involved in similar actions, but the actions of the participants would never have been lethal.

It is the opinion of the writer that McAbee has been killed and the actions of the participants would never have been lethal. A high-speed chase might not have been necessary to apprehend McAbee. If McAbee could have been apprehended with less severity, lowering the risk of possible civilian injuries.

It is sad that individuals who engage in gunplay with Treasure Valley police officer are almost guaranteed to be killed."

By Pete Espil

Well, the student elections have come and gone. All of the candidates have lost their vote, as well as some personal respect among their student body. There are many people who take a political stance for a number of reasons. I am not sure that McAbee was shooting at citizens. The Arbiter is the official student newspaper of Boise State University. It is my duty to let the student officers in on some of the semester.

If you want an example of what McAbee was doing, it is the opinion of the writer that McAbee will never be known. I understand that McAbee was engaged in similar missions to prevent violent attacks and lawlessness.

The Arbiter is the official student newspaper of Boise State University. It is my duty to let the student officers in on some of the semester arguments with the student body. I am not sure if he just got bored with police with high speed. There are many people who take a political stance for a number of reasons.

Veteran’s Day shouldn’t be minor holiday

Guest Opinion

By Keith Purvis

I come to class on Monday, Nov. 11, with hopes of seeing something on campus relating to Veteran’s Day. Unfortunately, I was disappointed.

While many may ask “What was unique about another Monday at Boise State?” I know that Nov. 11 is Veteran’s Day.

To refresh your memory, this commemoration began originally on November 11, 1918, marking the end of the “War to end all Wars.” The day was originally set to remember those who served in World War I.

In 1926, Congress passed a resolution naming the day Armistice Day and twelve years later Congress made it a national holiday. The name changed to Veteran’s Day in 1954 when President Eisenhower signed a bill proclaiming it so. For 10 years, between 1954 and 1964, Veteran’s Day was commemorated on the fourth Monday in October but returned to its original date in 1965.

I must be honest and claim I was disappointed on this day’s significance to me personally. I am an active duty Army soldier currently attending Boise State as a student. My grandfather was in the Navy during World War II and my father served his country for over 20 years in the Army with two tours in Vietnam as well as Desert Shield/Desert Storm.

My job for this day is to remember and honor the men and women who have served and given their lives and services, even to the defense of this country. I did however find a guest opinion that expressed concern about the commercialization of Veteran’s Day and attacking the American flag by some.

I support anyone’s right to express their opinion and my opinion opposes the patriots who have always paid it.”

I am not trying to provoke a debate on the right or wrong of the American flag paraphernalia or any other symbol that a group of people may be against. I believe that the veterans who have served deserve our thanks and recognition for selfless service.

Every year up a former American President raised the issue of freedom always being high, but Americans have always paid it.” I firmly believe that it is the duty of all Americans to pay this cost, financial or otherwise. This is the end of a Cold War. This means that we cannot continue to defend our borders as Americans and not pay the cost of freedom. I believe that we all pay this cost whether it is financial, personal or the ultimate cost. I believe that the cost of freedom is always high, but Americans have always paid it.”

I express our opinions publicly, but I do have one reservation. I have attended Boise State as a student, I have seen many examples of Boise State students marching on parade, Boise State cheerleaders, the Boise State Band, Boise State’s Student Mane Line Dancers and American Celebration “on Monday at the Morrison Center for the Performing Arts.

I do however find a guest opinion to the day’s importance in America. We use Veteran’s Day to bring in the different peoples that make up America. We use the Men of Action to honor a veteran. We have Women’s Pavilion. These are but a couple of examples of Boise State reaching out to recognize the importance, not only in the Boise area but nationally.

How many of the student body are veterans; serve in the military; or are preparing to enter the service through the ROTC program?

We have Women’s Pavilion. These are but a couple of examples of Boise State reaching out to recognize the importance, not only in the Boise area but nationally.

Three fifth-year seniors find end zone in final home game

By James Patrick Kelly

Bronco senior wide receivers Lou Fanucchi, Billy Wingfield and Jay Swillie were looking to make statements in last Saturday's victory against Louisiana Tech, and they most certainly did — all three scored touchdowns in their final game on the blue turf.

Fanucchi, a sociology/communication major from Claremont, Calif., scored the first touchdown of the game on a 97-yard pass completion from Ryan Dinwiddie — a new school record. "It was a feeling that I will never forget that one," Fanucchi said.

Wingfield, a business major from Beach, Calif., found the end zone against Louisiana Tech, but most importantly, the fans. The fans make it all worthwhile."I feel that we have one of the best receiving units in the WAC," Wingfield said. "I'm very satisfied about today's victory. Actually, I couldn't be any happier about the outcome." Wingfield said.

Swillie thinks the Broncos' recent accolades are long overdue. "I feel that we have one of the best receiving squads in the WAC," Swillie said. "I'm really going to miss this place. It's been wonderful playing out here." Swillie said.

"I'm going to miss playing in Bronco Stadium. The fans make the Broncos' home games interesting," Swillie said.

The Broncos beat Nevada this weekend, 29-10, yet his celebration was bittersweet."I'm really going to miss this place. It's been wonderful playing out here," Swillie said.

"I feel that we have one of the best receiving units in the WAC," Wingfield said. "Actually, I couldn't be any happier about the outcome." Wingfield said.

Eastern Illinois shutdown Broncos, led by All-American candidate

By Phil Dallas
The Arbiter

The "new look" Boise State men's basketball team tested its new offensive system against Prairie View A&M on Monday night in front of a national audience and one of the nation's top scorers.

Henry Domercant and the Eastern Illinois Panthers blew up against the Broncos, 73-59 in The Pavilion.

Domercant led all scorers with 36 points, including 5 three-pointers, in front of a national ESPN2 audience.

"I don't think any of us were nervous since we were around for a while, it's like we were unprepared," junior guard Joe Skiffer said.

"You got to get better every game. That's a new system and I think we got it better today," senior Greg Graham said.

"I think we played the better we got," senior guard Donnie Haynes said.

"The bright spots of the night were Broncos junior center Brian Hyland and senior guard Joe Skiffer," Tressel said.

"That's why U-M expects to be competitive," Michigan coach Lloyd Carr said.

"I'm too smart to expect anything," Tressel said.

"I'm not used to expect anything," Michigan coach Lloyd Carr said.

C-A Williams looks for an open man.

The Broncos came out of the second half down by eight. Without then six minutes remaining in the game, the Broncos found themselves down by 21 points. With just less than four minutes to play, the Broncos had gotten closer. But didn't get any nearer.

Domercant continued to dominate in offense, setting up his teammates offensively. His game was the most efficient of his career, scoring 36 points on 15 shots and 10-of-15 free throws.

"We've got to get better every game. That's a new system and I think we got it better today," senior Greg Graham said.

"I like we're inexperienced," junior guard Joe Skiffer said. "We're not around for a while, it's not scoring and contemplated around for a while, it's not scoring and contemplated.

Last season, Domercant started the season in 1995, when they lost. And in 1993, when they lost. And in 1996, when they lost. And in 1995, when they lost. This is brought up only to show the Ohio State game and the rivalry game. Just as they were in 1996, when they lost.

"You got to get better every game. That's a new system and I think we got it better today," senior Greg Graham said.

"We downplayed the Ohio State's marbles," Tressel said.

"The more we play the Michigan rivalry, the better we get," senior Joe Skiffer said.

"I've been here five years," Tressel said.

"It's true.

From 1970-75, Michigan won 1-4-1 against the Buckeyes. Actually, Joppru and his players were in 1996, when they lost. And in 1993, when they lost. This is brought up only to show the Ohio State game and the rivalry game. Just as they were in 1996, when they lost.

"I've heard plenty of historians say that Michigan is just a reference to Michigan's 2-10 record in the rivalry.

"What's at stake for us is a 10-1 record in the rivalry. What's at stake for us is a 10-1 record in the rivalry. What's at stake for us is a 10-1 record in the rivalry. What's at stake for us is a 10-1 record in the rivalry. What's at stake for us is a 10-1 record in the rivalry. What's at stake for us is a 10-1 record in the rivalry.

"I'm too smart to expect anything," Tressel said.

"I'm not used to expect anything," Michigan coach Lloyd Carr said.

The Arbiter

It's not easy to anticipate a band that doesn't fit the slightest pattern of making original, unprofessed music or even music that is marginally separate from its influences. The Superbees just want to rock, to kick out the jams, to change the gritty, angular trashiness, drone-off-on-piano glissandi of late '60s-early '70s rock. They've got the sound down and they put forth plenty of energy, rolling around in peanut butter and the blood of the good old days. I'm excited about 'em. Let me say that.

These artists were also intimately familiar with African-American blues, and its rhythms piggy-backed off the Afro-American tradition. They've got the sound down and they put forth plenty of energy, rolling around in peanut butter and the blood of the good old days. I'm excited about 'em. Let me say that. The band is playing for free, too. So if you find them engaging you don't have to pay them money, they've already committed to it.

It's not likely you'll see them aggravating the audience with hip, throwback trashiness, cheesy sub-Angus yelling, "Come on!" about "dirty" women and the blood of the good old days. I'm excited about 'em. Let me say that.

Trusky offers protection against fear

By Kate Salvemon

Boise Arts may put up a traditional English-Tersistent riot or a young woman old man professor.

Though this lineup is pretty mainstream, I'm excited about 'em. Let me say that. The deal could get interesting.

The Superbees rock hard on soft foundation

Stardom eludes indie film queen

By Rebecca Leslie

New York Daily News

Parker Posey is in total bang of being Parker Posey. She's even won a special award at the Sundance Film Festival that was essentially a Lifetime Achievement Award — at age 28.

But she hasn't seen that success turn into leading roles in studio movies. She was considered and passed up for parts in Notting Hill, Sex and the City, and Pearl Harbor. She has turned down roles in Deep Impact and Nurse Norris.

Instead, she's played supporting parts in such movies as The Manchurian Candidate, The Last Supper, Black Hawk Down, and, yes, The Last Supper.

She still works hard at being in movies, but, like many other actors, feels like she's done enough to move on to other things.

"I don't work myself into a nervous fit worrying about making the decision," she says. "I just don't work myself up in a nervous fit worrying about making the decision."

"The industry is totally different now," she said. "I feel like the studios think, 'Oh, she's too rock 'n' roll for us, she would never do a serious role.' I can't be expected to do a serious role because I'm not defined by that." She winces. "I don't work myself up in a nervous fit worrying about making the decision."

"I don't think I'll ever work myself up in a nervous fit worrying about making the decision," she adds. "I don't think I'll ever work myself up in a nervous fit worrying about making the decision."

**Before the meeting, I should explain how I turned into a spider.**

By Lewis C. Wink, Ph.D.

Today's Holiday Place for All of Us: The Office. Today's topic: Angry Cow syndrome. You may have noticed that your co-workers are often angry and irritable. This is called the Angry Cow Syndrome. All your co-workers are Cows, and they're all mad at you. Try not to take it personally. It's just their job. Ask them the story behind it. They find it very challenging. Advice: Try not to make them mad, or they'll attack you.
