Doctoral student takes case to Supreme Court

By Stuart Ditzen

The Arbiter - From the professor who dismissed him to a doctoral student suing for his academic freedom, the case of Robert Morein is a model of the judicial system's difficulty in handling issues of academic freedom.

Morein was dismissed from Drexel University in 1990 because he espoused views that were considered too critical of Israel. He then sued the university for his academic freedom and spent eight years fighting the case before it was finally resolved.

Morein was awarded a degree in 1995 and was later reinstated by the university.

The case of Morein illustrates the complexity of academic freedom and the challenges faced by students who challenge their schools' policies.

Middle East conflict comes to campuses

By James M. O'Farrell

Student activists on the Middle East and Palestinian issue have brought their causes to the forefront of campus debate in recent years.

This movement has been fueled by the ongoing conflict in the Middle East and the growing awareness among young people of the issues involved.

Activists have staged protests, rallies, and debates to raise awareness of the conflict and to promote their causes.

On campus, the conflict has sparked debates on a wide range of issues, including anti-Semitism, the role of higher education, and the rights of students.

Some students have been arrested for their activism, while others have faced disciplinary action for their involvement in protests.

The Middle East conflict has also been a topic of discussion in the media, with headlines and articles about the conflict appearing regularly.

The Trump administration has taken a hard line on the conflict, with President Donald Trump's recognition of Jerusalem as Israel's capital.

Activists and critics of the administration have responded with protests and calls for a change in policy.

The Middle East conflict continues to be a complex and controversial issue, with no easy solutions in sight.
Liberals forced to pay for college GOP events

Guest Opinion

By Erik Heidenreich

As expected, I have raised the hackles of the College Republicans with the publication of my guest opinion in The Arbiter on Dec. 5. Students would have to be on the wall during their first meeting after the student assembly, when they were listed and declared 41 on its rolls. One of our house officers, with the help of my Secretary of State, then declared war on me. I love it.

My likening of Adam Smith's capitalism and conservatism by difference between libertarian and socialist is completely out of line, according to the college Republicans when they suggest that SPB is an ideological club. Political economy course, I can also affirm that the political economy course

A valley can start with truths and realities. I don't falsh how many changes of STDs or HIV the world population of both are to be erased from existence. Nothing is perfect, but if the world was in a perfect order, the PID would never be affected. It is that good a thing, but when the time comes and people lack the knowledge to equip themselves, it's too late. That fact is people of all ages have no idea who they are. Even students at BYU engage in premarital sex.

STD's are not the most effective. The only good thing about the article was that it's opinion. The article was very well-written and thought-provoking in some places. It neverDecrypt the code, and said something unbelievably

Domestic violence: The Christian Case

Each year, American women face approximately 4 million incidents of domestic violence. More often than not, the perpetrator is a man. However, this behavior is not unique to men. This past summer, a young girl in a small Texas town received a. 44 Magnum hand gun for Christmas. She later shot her father, who was also her stepmother's husband, with it. She was later convicted of murder and sentenced to 25 years to life.

Domestic violence, while not the issue itself, is something many families across America today. It is an issue that is not being talked about enough. People are afraid to speak out and it is preventing them from seeking help. The reality is that domestic violence is more common than we think. It is also a problem that people don't want to admit they have. The violence is often hidden from the public eye, making it difficult to address.

A woman has the right to defend herself. If she chooses to use a weapon for self-defense, is she violating the sanctity of the home? In many cases, the answer is no. The woman must protect herself and her children. It is not uncommon for a woman to feel backed into a corner and feel as though there is no other way to escape. In many cases, women are using weapons to escape abuse.

The act of domestic violence is never acceptable, regardless of the circumstances. However, it is important to remember that women have a right to defend themselves. If a woman feels threatened and believes that using a weapon is necessary, she should not feel guilty for doing so. The situation is serious, and the woman must take action to protect herself and her children.

It is important to support the victims of domestic violence. They need the help and support of others to get through this difficult time. It is important to remember that domestic violence is a serious issue that needs to be addressed. It is time to come together and work to end domestic violence.

The Christian Case for the Defense of Women

Christianity teaches that women have a right to defend themselves. In the Bible, it is recorded that Mary Magdalene used a weapon to defend herself from the Roman soldiers. The New Testament also records that a woman wielded a sword to defend herself from the Roman army.

The Bible teaches that women have a right to defend themselves. It is important to remember that the Bible is a source of inspiration and guidance for many Christians. It is important to study the Bible and understand its teachings.

Spike Lee goes beyond race in ‘25th Hour’

**By Robert W. Butler**

**Knight-Ridder Newspapers** — Spike Lee’s dazzling new, 25th Hour, has as its African-American characters the most realistic and honest portrayals of African-American life that I have ever seen. The film is a remarkable achievement and should be considered for an Academy Award in the Original Score category.

The film is a powerful portrayal of African-American life in New York City, and it is a necessary and important contribution to the ongoing conversation about race in America.
