Class wars a wide net for Iraq view

PHILADELPHIA—A small tribe of Drexel University students are preparing for what they consider the most ambitious bid to tackle inequality, injustice and war in the Middle East history, Western students have ever undertaken. The project has clearly grabbed the attention of their backpacks.

"This is the first time I've heard about this," said Drexel junior Philip Fletcher. "It's really incredible. I never knew people would volunteer for the project. I'm really impressed by them.

"They're fantastic. I think they're doing a great job. I would love to see more people get involved."

In the recent war history, the students have faced many obstacles, including the difficulty of finding a group of students to work with. They have also had to overcome the challenge of reaching the attention of their peers.

"It's been tough, but we're getting there," said Fletcher. "We've had a few bumps in the road, but we're getting there.

"I think it's important to have a group like this on campus. It's inspiring to see people coming together to work towards a common goal.

"I'm really excited about this. I think it's going to be amazing."
Students across the nation march to demand peace

By Jimmie Collins

WASHINGTON—A few thousand people gathered at the sites of several anti-war protests this week and demanded that the Bush administration join the international call for peace. The marches and rallies were part of a nationwide campaign that organizers hope will pressure the administration to change its policies on Iraq.

The demonstrations were held in major cities across the country, including New York, Washington, DC, Chicago, and Los Angeles. The protesters carried signs and chanted slogans, calling for an end to the war in Iraq and for the release of all political prisoners.

"We are fed up with the war," said one protester in New York. "We want peace and justice for all people." Another protester in Los Angeles said, "The war is a disaster, and we will not stand by and watch."

According to organizers, the marches were part of a larger strategy to build public support for peace and to put pressure on the administration to change its stance on Iraq. They plan to continue the campaign in the coming weeks and months, with more protests planned for other major cities.

"We will not give up," said the coordinator of the national campaign. "We will continue to fight for peace and justice until our government changes its ways."

The protests were peaceful, with no violence reported at any of the sites. However, there were some clashes between protesters and police in a few locations, but these were minor compared to previous anti-war demonstrations.

The demonstrations come as public opinion in the United States continues to shift against the war in Iraq. According to recent polls, a majority of Americans now support a negotiated settlement, rather than continued military action.

Organizers of the peace campaign hope that these demonstrations will help to build the momentum needed to force the administration to listen to the voice of the people and to work towards a peaceful resolution of the conflict in Iraq. They believe that the power of mass protest can be a powerful tool in achieving this goal.

"Together, we can make a difference," said the campaign coordinator. "We will not stop until we see an end to the war and the beginning of a just and lasting peace."
Guest- Opinion
By Ben Maxwell
I am with Mike Clifford on this. I think that the ASBU Senate should be doing the things that she suggests. However, I do not agree with the fact that she suggests that the senators are part of the BSU because they have failed. They have failed. Such an utter fail at BSU is incredible. Let’s consider the past: Pan Panco and Audrey Balter tried to make a valid statement on the behalf of community they were serving. They had their own agenda and feel that new ones now they have been elected.

Real talk on homosexuality
By Jared Keonig
When I talk with people about homosexuality, I usually tell them about our responses: Homosexuals are born that way and should be accepted. This is because I believe, or the Bible, or Joseph Smith, or the Book of Mormon told me to.

Though both of these arguments are complex issues, the first is the response of a complex issue. So, I want to address the first step that homosexuals have been in the past.

Despite the wide-held belief that homosexuals are “born this way”, there is actually no proof that homosexuality is biologically determined.

Environmental factors, as in with most, if not all, human behaviors. Perhaps the best way to think of it is look at football. Is there a football game that came from a football player? Potentially. Is a football player built for a football, sex, or a football associated with certain behaviors? Of course, some so-called sports are considered gay, some support football, lives in a country where football is popular. Playing football, like all behavior, is caused by a variety of factors. So why are people so quick to say that anyone who is homosexual is “born this way”?

Most advocates have aggressively promoted the belief that homosexuality is something inherent, something you are born with. But who can deny someone the right to be themselves? How will our society change? That who? That’s what they spend on? They are- there! I’ve reason to believe that there has been a strategy and impor- tance to understanding and treating this kind.

Senator sets the record straight

By Pan Ma'ine

Milk. I am really dig- ging this article and feel that you have genuinely attacked me, your attac- ché, with a vengeance. I am not only doing public good, but I am also serving the right- ful duties of the Boise State. You failed to reported. I did not raise a num- ber of ASBU-SBIF, and being a member of the Boise State Senate is the raison d’être of the Boise State Senate. I have been having money into the Boise SBIF, and you should stop putting money in. I did that, and I have told a few people to stop sending money, and many have responded. I support the Boise State Senate Bill HS 41. To show sup- port the Boise State Senate Bill HS 41.

E-mail: editor@arbiteronline.com
Queen Latifah is not the first rap artist to make the leap from the stage into the movies. Rapper Tupac Shakur, known for his role in the film "Gridlock'd," and Eminem, who starred in "8 Mile," have both successfully parlayed their stage presence into acting careers. However, Latifah's career trajectory stands out as a unique blend of rap and acting.

In this spring's film "Bringing Down the House," Latifah plays a hip-hop star named Roxanne Guadang, who is trying to carve out a niche for herself in Hollywood. The role is a departure from her previous image as a successful rap artist, but it's one that she's comfortable with.

"I bring wrath to those who disrespect me like a dame," Latifah recently said in an interview. "If you have the chance to be something different, why not do it?"

Latifah's career has been a testament to the power of versatility. She started as a rapper and has since expanded her horizons to include acting, producing, and even writing. Her latest film, "Bringing Down the House," is a comedy that also features Steve Carell and Queen Latifah. The film follows a group of comedians who are forced to live together in a house to make ends meet.

Latifah's role in the film is a far cry from her days as a rapper, but it's one that she's embraced. She's been open about her transition from rap to acting, saying that she's always been interested in acting and that it's something she's always wanted to do.

In a recent interview, Latifah said, "I've always been interested in acting. I've always wanted to do it. It's just a matter of finding the right opportunity." She's been open about her struggles to break into the movie industry, but she's also been quick to point out the support she's received from her family and friends.

Latifah's success as a rapper and actress has earned her respect and admiration. Her work has been praised for its honesty and authenticity, and she's been credited with helping to break down barriers between rap and mainstream entertainment.

Latifah's career is a testament to the power of perseverance and determination. She's proven that it's possible to succeed in multiple industries and that it's never too late to pursue your dreams.

In the end, Latifah's success is a reminder that anyone can achieve their dreams if they're willing to work hard and stay true to themselves. As she once said, "If you believe in yourself, you can do anything."
Boise State's hardwood moves into the final four

tions for touchdowns in their

ignoring its elders is paying

Pay for play won't eliminate corruption, of course, but

would resolve all the nickel-

Noel Felix and the Fresno State Bulldogs son activities this season due to academic violations. According to the<br>Just one day after defeating the Tampa Bay Buccaneers in the NFC Championship, the Bucs lost to the eventual Super Bowl champion, the Philadelphia Eagles, 20-19. The loss ended any hopes of a repeat trip to the Super Bowl for the Bucs, who were looking to make history by winning back-to-back championships.

The Bucs had a strong defense throughout the season, allowing just 19 points per game. They also had a solid offense, averaging 23.3 points per game. But in the NFC Championship, they struggled to score against a tough Philadelphia defense.

Despite the loss, the Buccaneers should be proud of their accomplishments this year. They won the NFC South division and reached the conference championship game. They also set several franchise records, including the most wins in a season with 13.

Overall, it was a disappointing end to the season for the Bucs, but they can take heart in the progress they made and use it as motivation for next year. With a few changes and improvements, the Bucs could be back in the Super Bowl mix in 2024.
Horoscopes

By Linda C. Mark

Today's Horoscope, March 8th

Aries - You may receive some unexpected news today. Be prepared to make a decision on a matter that's been weighing on you.

Taurus - Your energy levels are high, making it a great day to start something new.

Gemini - A surprise visit from a friend could brighten your day.

Cancer - A project you've been working on may finally come to fruition.

Leo - Be cautious when making decisions today; unexpected obstacles may arise.

Virgo - A financial opportunity may present itself, allowing you to improve your current situation.

Libra - Relationships may be complicated today, so focus on maintaining balance.

Scorpio - You may need to take a step back and reassess a situation before moving forward.

Sagittarius - Your creativity is at its peak today, making it an ideal day for new projects.

Capricorn - You may experience a change of Plans, so be flexible and adapt accordingly.

Aquarius - A new friendship could develop, offering new perspectives and opportunities.

Pisces - Your intuition is strong today, guiding you towards more meaningful decisions.
