Iraqi professors assess damage at war-ravaged university

By Aamer Madhawi
Chicago Tribune

Iraqi students rescue books from ravaged university.

"If I know here—and I just hope that "the other places—the most important lega-
lity was those people that I felt behind that wall and staff to support the
program all the years," Dr. Lynn Russell

Dean retires after noteworthy career

By Lauren Connolly Tunzi
The Arbiter

"As I leave here—and as I left those other places—the most important legacy was those people that left faculty and staff in support to the program all the years," Russell said.

Russell began his work in the space programs in 1960 at the Marshall Space Flight Center in Huntsville, Ala., where he worked on a project to get a soft-landing, instrumented vehicle on the moon before astronauts landed.

Russell then worked with NASA on various projects in Alabama and Texas until 1969, when he was asked to apply to the University of Tennessee at Chattanooga and was hired.

Congratulations and Good Fortunes! To our graduating seniors...

From TRO Student Success Staff

Congratulations to all the seniors who have graduated. We are proud of you and wish you all the best in your future endeavors.

Congratulations to the College of Engineering Graduates

May 2003

CARSON HOWELL

On this solemn day in September we sat and watched as thousands of people died, including your older brother, Brad. We will not soon forget.

So we all embraced and tried to comfort and console this stranger in our office. Whose life was no longer whole.

Carson, we will miss you as you graduate today. For to us you have become family and in our hearts you'll always stay.

Congratulations!
The Boise State President and Provost's Staff

The Criminal Justice Department faculty and staff would like to wish our graduating seniors and master's degree students all the best in the coming years!

Congratulations May 2003

Political Science Graduates!

We are proud of you and your many accomplishments!

From the Staff and Faculty of the Department of Political Science

Congratulations, Graduates!

On behalf of the International World Union to wish a Happy Graduation to All our Graduating International Students. We are proud of you! Good Luck! Experience '03"
Guest Opinion

By Joni Thomas
Student, political science

Today is the great day for capital lettering. You know, when you want to make a point. So, after my final capstone. I got a full ride to Asia. It was to study the politics and to see if you are one you think you are, it will show and demonstrate a whole academy department. This has happened. And in this society, to work with my friends, to put your heads up, we should. Yes, I’m talking about sociology.

Sociology is a discipline that was created in France. This country is known for a lot of things: the Eiffel Tower, the French Revolution, and its cuisine. One of the things that is unique to this country is the political system. The French government is a parliamentary democracy. This means that the head of state, the President, is elected by the people. The government is made up of various political parties, and the Prime Minister leads the government. The President is elected by the people for a term of five years. The Prime Minister is appointed by the President and is in charge of the government.

Sociology is one of the disciplines that is taught at universities in France. The field of sociology is concerned with the study of human society and its institutions. The discipline seeks to understand the social processes that shape our lives and the ways in which societies are organized. Sociology can be applied to a wide range of topics, including politics, economics, social inequality, and social movements.

Sociology is not just a study of the past; it is a field that seeks to understand the present and to inform the future. Sociologists use methods such as surveys, interviews, and ethnography to collect data. They then analyze this data to identify patterns and trends. Sociologists also use theoretical frameworks to interpret these patterns and trends. This allows them to develop explanations for social phenomena and to make predictions about future developments.

Back QBs: Progress made, but still a long way to go

Although McPherson was not the first black quarterback in the NFL, he was the first to have that title when he began playing in 1983. As a level. Freddie Solomon, who grew up in the same neighborhood as McPherson, said: "I was a big believer in McPherson. He was my role model."

"McPherson was the first black quarterback, and I was the first black receiver," Solomon said. "I remember watching him play and thinking, 'I want to be like him.'"

"He was a lot bigger than me," Solomon added. "I was a lot smaller than him. But I was a great receiver."
Mae (aka Mo) at 208-342-3313.
