Indian Child Welfare Conference comes to Boise State

BY MONICA PRICE

The Indian Child Welfare Conference, designed to promote an understanding of Native American culture and awareness, begins today. Native American culture is a vital part of the Boise State community.

The conference is held to encourage service providers to work together, and to promote awareness and understanding of the Nez Perce youth council. The conference is a chance to celebrate the "rich tapestry of Idaho life," said Kathi McCullry, Idaho's new state coordinator for the Indian Child Welfare Act. McCullry said the conference would like to encourage more youth to attend.

The conference is held today in the Student Union at Boise State University.

Music will be performed by the Intertribal Native Council, and the Nez Perce Youth Council will perform a traditional flute concert starting at 1 p.m. A performance by Iana, winner of 2002 Music Awards, will perform at 7 p.m.

Powell visits site of chemical attack on Kurds

The crowd of traditional Kurds had alighted the greyarea, where thousands with many large pro-American banners, all told the United States needed to accelerate the handover of security to the emergent Iraqi leaders are not seen to be increasing their control.

The Kurds told Powell they do not want the Iraqis to send troops to expand the U.S.-led military force if a new U.S. mission is provided to recognize the government of northern Iraq. The Kurds and Turkey have a long-standing relationship because Turkey's most restive minority is Kurdish. Ankara is also doubt the evil of Saddam and refused to spark questions about the U.S.-led war.

Pam Black, a local resident, asked Powell to help her get medical treatment for her eye that was blinded by the chemicals.

He said Halabja's mass graves "validate the destruction," said Barham Salih, prime minister of the Patriotic Union of Kurdistan, or PUK. "It is indeed rather painful, to hear voices in the mountains where theylive. But after the attack."

Bush highlights ‘Clear Skies’ initiative at power plant

MONROE, Mich. • President Bush hailed a coal-powered power plant in Monroe, Mich., as a model for reducing emissions that choke air and harm energy goals, but his opponents warned of environmental risks.

Bush’s message was delivered from a Detroit Edison power plant to highlight Bush’s proposal to decrease the amount of nitrogen oxide in the air.

“Clear Skies” is a new national initiative to reduce toxic emissions from older power plants.

Air data from the Environmental Protection Agency showed that the Monroe plant, which has operated for 35 years, would replace the nitrogen oxide with a cleaner source of energy.

Bush said the move was a step toward reducing the number of people who are affected by poor air quality.

By doing so, the plant would help improve energy efficiency and reduce pollution nationwide.

The Clear Skies measure would phase out coal-fired plants in the next five to 15 years, with the exception of plants that have already been retired or are under construction.

In addition, the administration would also put the first caps on mercury emissions from coal-fired power plants.

Bush said the Monroe plant would help improve energy efficiency and reduce pollution nationwide.

Transportation blues

GETTING around Boise is not as easy as it used to be a couple of years ago. The city government decided to construct a massive building in downtown Boise that is currently under construction. While driving around a long traffic jam can be tolerable, walking on a crowded sidewalk is not as pleasant. The building is very close to the Boise State University campus and its construction will make it even more difficult to walk around the area. The Boise City bus, on average, is at least 10 minutes late. At the same time, the cost of the bus for the general public is very high. Department of Education, was sent

Bronco State Broncos lose a higher Prep 10 challenge against Oregon St. after a week slowing in Moscow.

BY TIMOD GANDHI
Special to The Arbiter

The Bronco State Broncos take their show on the road this Saturday in their third game of the season. The undefeated Broncos travel to Corvalis to match up with Pac-10 powerhouse Oregon State. The Broncos are 2-0 this season, their only losses coming against WAC's Fresno State, 10-7. The Broncos have a 10-6 record against Oregon State.

James Corbin

I am going to be a great football player for BSU. I don't think I am underestimating as much as just overlooked. I'm just waitin' my turn.

BY DANNAH OLIVER
Sports Reporter

Q: Would you rather have money, power, or respect? Why or why not? They all go together, it is not either or none of them.

Q: Do you have any hooch? Can't we go together. The rich are possessed. I have money and you're a common person. It's neither or none of them all or none.

Q: What is something most people don't know about you? Probably, it's that I am a hip hop artist. I even rap, play an instrument. I'm not really a rapper but I do have a lot of rap and some hip hop songs.

Q: What is your favorite type of music? I'm really a self-taught musician. I just like to have fun.

Q: Have you ever been approached on TV or in writing? It's not often that I get approached on TV or in writing.

Q: Do you have any plans? I'm going to go to school. I'm going to do some writing and play some music. I want to stay focused.

Q: Define "pimp Juice." Many people can't really define what it is. It sounds like a nasty feeling, doesn't it? You gotta walk with a swagger, a different way of doing things.

Q: What is the "trendy"? I think that lightweight is the trendy.

Q: Do you have any advice for other women who are trying to make it in the music business? It's not a sense of urgency. I believe everybody has a little pimp juice in them to do some good. Be happy, be close, be happy.

Q: How do you spend your free time? I spend my free time writing and playing music.

Q: What is the "pimp Juice"? It's a sense of urgency. I believe everybody has a little pimp juice in them to do some good. Be happy, be close, be happy.

Q: How do you define "pimp Juice." Many people can't really define what it is. It sounds like a nasty feeling, doesn't it? You gotta walk with a swagger, a different way of doing things. I'm really a self-taught musician. I just like to have fun.

Q: Christianna Agathea: "You want to know all of me?" "You do or you don't know me at all, the way I am, you just don't know me. I'm real, I'm real, I'm real."

Get to know playboy Jovian Hutchison

Set to open their season against Oregon State in Corvalis, the Broncos are coming off a win against Idaho State, which gave them some momentum heading into a game against Oregon State. If the Broncos are to win this game, they will have to overcome Oregon State, a team that has been a thorn in the Broncos' side in recent years. The Broncos are looking to prove that they can compete against Pac-10 opponents, and Oregon State is the perfect team to do that against.

BY ANDREA REID

The Broncos face a challenging week as they prepare to take on Oregon State in Corvalis. The Broncos are looking to improve their record to 3-0 and prove that they can compete at a high level in the Pac-10. The Broncos will be tested in their upcoming games against Oregon State and other conference opponents.

BRONCO'S FACE CHALLENGE IN CORVALLIS

By Andrea Reid
Some other things have also changed since last year. We have a new coach, a new stadium, and a new set of opponents. But I feel that this team has the talent and the desire to compete at a high level. We are coming off of a loss to Arkansas, but we have shown that we can bounce back from any setback. We have a strong defense and a solid offense, and I believe we can win any game we play.

This year, I have a feeling that we have a real shot at making it to the Pac-10 conference. Of course, we will have to prove ourselves on the field, but I think we have the ability to do it. We definitely have the talent, but we need to put it all together and start playing better.

We have a lot of obstacles to overcome, but I believe we can do it. We definitely have the talent, but we need to put it all together and start playing better. We have a strong defense and a solid offense, and I believe we can win any game we play. If we can do that, then we will be in good shape for the season.

Sandel's Broncos ready to face new challenges

BY JON FISHER

The Arbiter

The Bronco volleyball team is meeting at the base of the Boise State facility this weekend to play in the Davidson College home court advantage tournament. The Broncos, who are coming off of a 12-0 weekend against George Washington, look to build on their momentum this weekend against some smaller out-of-conference schools.

Most of the opponents will be new. Boise State has not faced this conference, so we're feeling excited for this event, with the exception of the University of Virginia. The Cavaliers, with 11-1 on the season, have started our competition, which means the Broncos play on Saturday and Sunday as the No. 3 highest of the two teams.

The team has been visualized success and it looks like we can do it. The team already has a top-10 ranking for Boise State, which is known as one of the premier conferences in NCAA football. Whether it was a Pac-10 or SEC opponent, we've always had a loss by 2-0 is the record for Bronco football this season.

This year, I have a feeling that we have a real shot at making it to the Pac-10 conference. Of course, we will have to prove ourselves on the field, but I think we have the ability to do it. We definitely have the talent, but we need to put it all together and start playing better.

Here's a little inside info. Every year the season starts we come up with our goals for the season. And every one of them is to go undefeated. Last year we came the closest going 2-1 with that unfortunate loss to Arkansas to open the season.

Now it's time to 'Prove It.' If we can do it, then we will be in good shape for the season. We definitely have the talent, but we need to put it all together and start playing better. We have a strong defense and a solid offense, and I believe we can win any game we play. If we can do that, then we will be in good shape for the season.

We have a lot of obstacles to overcome, but I believe we can do it. We definitely have the talent, but we need to put it all together and start playing better.
Big Ten teams get a running start

By BRID HAUSLY
Chicago Tribune

The Big Ten isn't big only in the yardage and a mile of sand, but in size, too, as the conference has by far the longest schedule in all of college football. And as the conference begins its 89th season, the Big Ten is primed to be in the thick of things.

"I think it's going to be a long season," said Ron Zook, the former Illinois coach who now coaches at Northwestern. "It would be a shame if it wasn't because there are some good teams in the conference." But even though the Big Ten is the longest, it's not the best, according to some analysts. The Big Ten is ranked 13th in the AP poll and 16th in the Coaches' Poll. And yet, the Big Ten has produced some of the best teams in recent years, including the 1997 national champion Penn State.

Some people believe the Big Ten is too slow and conservative, but others believe it's the opposite. "I think it's the best conference in the country," said John Harbaugh, the head coach at Maryland. "The reason the Big Ten is so good is because it's the best conference in the country." But others believe the Big Ten is too slow and conservative, and that it's not as competitive as the SEC or the Big 12.

Regardless of whether you think the Big Ten is too slow or too competitive, one thing is clear: The Big Ten is a tough conference to play in. And as the season begins, the Big Ten teams will be tested to see if they can rise to the challenge.

Virginia Tech coach Frank Beamer said he was looking forward to playing in the Big Ten.

"It's good to get a chance to play in the Big Ten," Beamer said. "It's a chance to get a taste of what it's like to play in a conference that's been around a long time." But Beamer also acknowledged that the Big Ten is a tough conference.

"I think it's a good conference," Beamer said. "It's a conference that's been around for a long time and has produced some of the best teams in recent years." Beamer also said that the Big Ten is a conference that's not afraid to be physical.

"I think it's a physical conference," Beamer said. "I think it's a conference that's not afraid to be physical." Beamer and the Hokies will be tested in the season opener against the Michigan State Spartans.

"I think it's a good test," Beamer said. "I think it's a test that will tell us a lot about our team." And as the season begins, Beamer and the Hokies will be tested to see if they can rise to the challenge.

Internationally acclaimed pianist Olga Kern to visit Boise State

BY JASON BRIGHT

On Sunday, Sept. 21, 2003, the 2003-2004 Student Union Classic Performances Series will welcome the internationally acclaimed pianist Olga Kern to Boise State University. The Classic Performances Series theme for this season is "Rituals of the Heart," and Olga Kern is one of the six performers.

On a quest to elevate the listener, Kern has devoted her life to the art of the piano. Her musical career has taken her to every continent of the world, and she has performed with many of the world's top orchestras and ensembles. Internationally acclaimed, Kern is known for her ability to connect with audiences through her passionate and sensitive performances. Her repertoire includes works from Bach, Beethoven, Chopin, and many others. Kern's music is filled with emotion and a deep sense of joy, making her a true artist in the highest sense of the word.

Kern's performances are renowned for their technical brilliance and emotional depth. She has been described as a "pianistic poet," and her playing is both technically flawless and musically expressive. Kern's interpretations are filled with a sense of mystery and a love for the music she performs. Her concerts are sold out, and tickets are in high demand, but Kern's dedication to music and her passion for sharing it with others make her a must-see performance.

Kern's concerts are not just musical events, but they are also a chance to experience the art of the piano from a personal perspective. Her performances are a journey into the world of music, and her dedication to her art is evident in every note she plays. Kern's music is a reminder of the power of art to inspire and bring people together. She is a true ambassador of the piano and a testament to the importance of music in our lives.

After Kern's performance, the audience is left with a sense of awe and appreciation for the beauty of music. Kern's music is a reminder of the importance of art and the role it plays in our lives. Her performances are a testament to the power of music to move us, to inspire us, and to bring us together. Kern's music is a reminder of the beauty of life and the importance of pursuing our passions.

There simply was no else in music like Johnny Cash.

By Jim Arrington

The Orlando Sentinel

On September 18, 2003, in Kingsland, Ark., Johnny Cash was 71 years old, as he had been for decades. He was a living legend, a giant in the music industry, and a constant figure in the hearts and minds of fans around the world. His voice was his signature, and his songs were timeless. His message was clear: to be distinctive, to be true to oneself, to hold on to what is real and true.

Throughout his career, Johnny Cash transcended labels and genres, becoming a true icon of American music. He was a singer, a songwriter, a musician, and a cultural icon. His music spoke to the hearts of people from all walks of life, and his influence can be felt in the work of countless artists today.

Johnny Cash was a man of great talent and integrity, and his legacy will live on forever. He will be missed by all who knew him, and his music will continue to inspire generations to come.
Today is Leo (July 23-Aug. 22).

Leo is a 6 - The advantage is calling "growing." Annoying, but necessary.
