Family's battle with cancer touches chord with Boise State community

BY BRANDON BECKHAM

Four-year-old child Michael Smith, the son of Boise State English majors Wendy Smith and Priscilla Gallagher, was diagnosed with a rare malignant tumor before Thanksgiving break. Since then, Smith and his family have endured numerous surgeries and treatments, all aimed at helping their son receive the support from the BSU community.

"Wendy, Michael and the BSU community have worked in the best interests of their family through an incredible amount of adversity," said President Bob Kustra. "Michael's story is an inspiration for all of us, and we must continue to support him and his family in any way possible." Kustra also shared his thoughts on the importance of supporting those in need:

"Everyone has an special role to play in the BSU community, whether it's by attending a fundraising event or donating to a cause. I encourage everyone to contribute in any way they can to support Michael's family."

Senator is a student in the university. She works part time and manages to save enough money to purchase a used automobile. Since the fine sales price of the vehicle does not represent the full value of the car, Senator wants to take title to the property once the fine is paid. She, therefore, asks her attorney to help her.

He tells her that she should first take the car to the Boise State West campus. The Boise State West campus is located in the Liberal Arts Building, 400 University Dr. Residents is free.

Thrasymachus Motors has a long history of dealing in used vehicles. In the past, the dealership has sold cars to both customers and businesses. In the present case, Thrasymachus Motors sold a car to the senator.

The senator paid for the car in full, but the dealer retained possession of the vehicle. The senator then claimed ownership of the car, but the dealer refused to release it.

The senator sued Thrasymachus Motors for specific performance. The court ruled in favor of the senator, ordering Thrasymachus Motors to deliver the car to the senator.

Thrasymachus Motors appealed the decision, arguing that the senator had not paid in full for the car. The appeals court agreed, reversing the trial court's decision.

The senator then appealed to the Supreme Court. The Supreme Court ruled in favor of the senator, concluding that the senator had paid in full for the car and was therefore entitled to possession.

The case was Thrasymachus Motors v. Senator, decided by the Supreme Court of Idaho, 123 Idaho 789, 833 P.2d 905 (1992).

In what is a hopeful sign for free speech, the students published President Haysbert’s letter on the front page.

In January 2003, editors at Boise State University announced plans to publish the final issue of The Innovator, an independent student newspaper, under the threat of losing their jobs. The Boise State Women’s Basketball team was featured on the front page of the newspaper, and the editors were told that they would lose their jobs if they continued to publish the newspaper.

The editors of The Innovator, however, were determined to continue publishing the newspaper, and they searched for a new location to publish it. They found a new location in the state capital, and they began publishing the newspaper again.

Plea for intervention during nasty affair at FSU-Florida

BY RANDALL MELL
South Florida has reacted.

GAINESVILLE, Fla. — Florida State coach Bobby Bowden said he was surprised to see a male college athlete being described as fraud. "This is a man who has fueled up with something, whether he knows it or not," Bowden said.

The trophy, stored near the FSU bench, was paraded around with the Florida State football team for the first time since 1996. It was a great rivalry, the team's coach said.

"If we win, we break it," Bowden said. "If we lose, we break it. That's the only way you can break it.
