Arbiter, February 27

Students of Boise State College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
Senate discussion hinges on committee appropriations

February 16, 1970

The meeting was called to order by Vice President Jim Tibbs. He then led us in the Pledge of Allegiance. The minutes were read and approved.

Mike Requists was appointed by the Senate to have a seat on the Senate, representing the School of Education.

Dr. Hendry, Director of Student Personnel (sic), told the Senate of the recommendation from the Academic Council to completely do away with early registration for students. The only one a student can register at his designated time allotted to him to do so.

This means athletes, workers at registration, and all other excuses (sic). The Senate endorsed this proposal which will now go to the Executive Council.

BenHarleston, Social Chairman, told the members not to forget the concert put on by the Spiral Staircase, a rock band, on Feb. 26 in the West Ballroom of the SUB.

A blood drawing will also be held Feb. 26, in the West Ballroom.

OLD BUSINESS

Representatives were voted on to be on the Curriculum committee. These include: Pierce and Health—Carol Morgan

Arts and Letters—Gary Berman

Education—Joanne Newman

School of Business—Jan Hellake

Representatives for the All School Curriculum committee will be voted on at the next meeting.

STUDENT UNION BOARD

Linda (sic) Harl, representing the Student Union Board, the Senate with the constitution of the Boards. The constitution was already ratified two years ago, but additions have been made.

The new additions consist of being funded by ASB so they can bring in small groups which would consist of Coffee House entertainment, speakers, movies, etc.

The question was asked pertaining to the position of Social Chairman, an elected official, on whether this would take away his position of getting moderate entertainment and having to limit only to "big time" name groups.

The definition of both groups would have to be defined before a decision can be made. Gary Dance, Senate Class President, moved that the ASB give the Senate Class $4,000 for the graduation party.

This is to be an annual affair which will consist of dinner and a dance for graduating seniors, Senate, and Alumni. It was not put in an emergency session so it will be voted on next week.

Jim Althebury, representing the Parking Committee, passed out revisions that Dr. Barnes, president of Boise State, made, on the parking proposal. It was moved and seconded that the Student Senate endorse the code that Col. Mengel from the Parking Committee passed unanimously.

MISS BSC PAGEANT

The budget for the Miss Boise State College Pageant was discussed and members feel that $2,500 (sic) is too much to put on a pageant.

Members suggested that through a little bit of their own efforts the cost would be decreased.

At the next meeting Kathy Wertz, chairman of the pageant, is asked to come and discuss the high cost of the affair.

SHETLAND PONY

It moved and seconded that we buy a shetland pony to be used as the school mascot.

It was hard to compare a shetland pony to a horse. Guess some of us felt we'd drag our feet.

It was said that the Publications Boards (sic) constitution was an important piece of legislation to be shown out just because of one class (sic).

A committee of five members should be composed to go over to the Arbiter and see exactly what goes on, and come back to the Senate and give a report.

UNIFORM ELECTIONS

Gary Johnson, Junior Class President, submitted a proposal to set up a Uniform Election Law, which will set procedures (sic) for ballotting. This proposal was passed unanimously.

ARBITER

Gary Johnson also told the Senate that if people are so dissatisfied with the situation of the school newspaper, then they should do something about it.

Respectfully submitted,

Kathy Nolan

ASB Secretary

THE IDAHO STATESMAN

TV WEEKLY

ON VALENTINE'S DAY

Mickie Phelan was arrested for selling the peacocks (picturised above) in violation of Idaho Code 10-18401. This provision makes it a misdemeanor to sell any article on which a defaced representation of the flag has been painted or printed.

That Phelan is actually guilty of defacing the American flag questions whether consecutive issues of the Statesman TV Weekly (picturised here) and now the Arbiter's nameplate are also guilty of violating the Idaho Code.

Following the arrest of Phelan, indignant statements were directed toward police action. Since considerable comment has been made, the Arbiter will run the Apple column in next week's issue.

Sheriff’s aerial patrol should be eliminated

by Terry Ertter

Mike Phelan, operator of Boise’s only known hop crop, explains the current bond over the oncoming flight of illegal light zapping out through the foggy night air. Flying saucers were last reported by citizen Melcher who witnessed such a craft at around 8:30 p.m. The event raised the possibility of a new trend in night patrolling.

Granted, aerial surveillance is fine when a dangerous suspect is being pursued, but lighting the night around residential sections is as bad as breaking in the door unannounced looking for suspicious activity. People are concerned, some even frightened, to see beams of light ripping out through the foggy night air. Flying saucers were discovered by a local pilot the late 40’s and there are still people who don’t agree with the Air Force that UFO’s do not exist. Such panic caused by a sudden flash of light in the sky is only one reason for the county constables to discontinue the use of copters for night patrolling.

So many of our liberties are being infringed upon by federal and state laws which suspend the Bill of Rights, the use of actual light zapping out through the foggy night air.

Actually, the belief that the Bill of Rights is a paper guaranteeing personal rights is a fallacy. The law is that and order must prevail, as the court will make a law where no law is. These laws are all that stand between us and something bad.

I would not wish to go on record as advocating that everyone go out and paint the flag to protest this area.

There are logical reasons for laws against destruction of personal property, besides, flags are neither as good nor does the plot suit anyone to do anything that is "boring." Even Anthony Quinn is a desperate Greek immigrant living in Chicago with his family. He is a son who is dying of some incurable disease. Quinn is possessed by the idea that a return to Mt. Olympus will cure his son, but needs $700 to finance the trip back home. The ultimate breakdown of Quinn’s morals and scruples to secure the money lowers him to a social outcast among the proud and honest Greeks who cluster the slums of Chicago.

Advertisements indicate that the viewer should judge the man, but obviously no one could condemn him for throwing away his dignity and pride for what he believes will save the life of his son.

The movie is cluttered with colorful Greek traditions and manners, but might have lightened the film if it had not been for the seemingly overemotional plot of man versus environment.

For what it’s worth

Quinn movie does not equal other successes

by Bill Sommar

A Dream of Kings brings back memories of Anthony Quinn’s outstanding performance in Zorba the Greek—unfortunately the movie is neither as good nor does it do the plot suit anyone to do anything that is "boring." This movie moves.

Anthony Quinn is a desperate Greek immigrant living in Chicago with his family. He is a son who is dying of some incurable disease. Quinn is possessed by the idea that a return to Mt. Olympus will save his son, but needs $700 to finance the trip back home. The ultimate breakdown of Quinn’s morals and scruples to secure the money lowers him to a social outcast among the proud and honest Greeks who cluster the slums of Chicago.

Advertisements indicate that the viewer should judge the man, but obviously no one could condemn him for throwing away his dignity and pride for what he believes will save the life of his son.

The movie is cluttered with colorful Greek traditions and manners, but might have lightened the film if it had not been for the seemingly overemotional plot of man versus environment.

Sorority tags new officers

New officers of Epplon Nu, chapter charter of Alpha Chi Omega, were elected this week. Officers are Alice Kosek, first vice-president; Pat Oren, second vice-president; Molly Walling, third vice-president; Dee Shepherd, treasurer; Audrey Gaskell, secretary. Also elected were Cindy Frye, social chairman; Suzy Bush, assistant social chairman; Marianne Zutaverna, publicity chairman. Letters to the editor

Dear Editor,

This last weekend I visited the University of Idaho. The trip was quite an experience. This was the first time that I had ever been in a college atmosphere.

At the University, the kids leave their own little world and take an interest in their school, and the other people on campus. The students are proud of the University and its accomplishments.

As for their attitude toward Boise State University, it can be summed up by the remark of one of the students, "Those people who want to go to college will keep coming to Moscow. Those that are not sure will continue with their high school and will go to Boise State." The University of Idaho has nearly thirty students working on their school paper. The Arbiter has trouble getting a half-dozen people to put in an appearance.

People bitch and moan about paper delays and bad issues, yet they are the very people trying to help put out an issue.

The University of Idaho is proud and prospering, but it doesn’t always seem that way. We need some students out there who want to be college students!
19-year olds may not vote

Pollution bill reaches Senate; suffrage act may soon die

by Bill Year

In recognition of the intent of Congress to reduce pollution of streams and lakes, Idaho's House of Representatives passed House Bill 497 by a unanimous vote Feb. 9. The bill is now in the Senate Health Committee. The purpose of this bill, as explained by the House Affairs Committee, is "to enact and provide the quality of water resources of the State of Idaho and its so to prevent, control, and abate of water pollution." Under this act, the legislature had adopted water quality standards, authorized the State Department of Health to implement these standards and provided for a water pollution control fund. This fund is to provide 25 per cent of the cost for eligible projects. These projects being ones which would benefit the health and welfare of the people of Idaho Board of Health, and which could receive Federal assistance.

Federal funds would provide for as much as 90 per cent of the project costs. Although the unchecked dumping of pollutants into streams and lakes would seem to be the basis of the problem, this is not so, according to Representative Ed Hedges. Hedges was enthusiastic about the bill, and felt that it was an area in which legislation was needed. But he seemed to feel that the act was superficial to the actual problem. Hedges revealed, "Our population in the basis of this problem of water pollution. Air and water pollution are directly proportional to the number of people." Of the bill's waiting ruling in the House and the Senate of the Idaho State Legislature, one is the bill which would lower the voting age to 19.

Ed. Hedges, Representative from the 13th District, is a supporter of the 19-year old vote. He reported that "Although 2,500 signatures were recently received from the University of Idaho, they were simply filed with many others. The bill will probably not come out of committee."

Broncos ready for post-season games

The Broncos lost their last regular season game to the nation's fifth ranked team, 106-79. The first team to USC has ever played in the top ten national ranked teams handed a sound thrashing to the Broncos and clearly showed why they are ranked number 5.

The Broncos started well and kept it up for the most part of the first half. They even took a small lead at several points. With only four or five minutes left in the first half, the New Mexico State Aggies finally did what was expected and opened a nine point lead. Bill Greer had a great night, scoring 27 points to lead all scorers. Ron Austin added 21, Don Barnes 13, Woody Davis 12, Keith Burke 4 and Renne Raths had 2.

Sorry, excuse us!

The statement in last week's editorial stating that the Mountain West radio station is passé should have been corrected. The station KIFR is now and has always been functioning.

KIFR is now on the air from 2p.m. to 10p.m. weekdays with a staff of 12.

Broncos finish 19-5 season with losses to New Mexico

The Broncos were defeated by the Hartley-Simmons Cowboys in a game that started to look like a Broncos victory. USC started the game on a hot note and maintained a 7 point lead through most of the first half. They took a 44-37 lead into halftime. During the second half the Broncos fell victim to a reinvigorated team of cowboys that inflicted a full court press. The Broncos turned the ball over five times and lost the game. Cliff Harris of the Cowboys led all scoring with 13 points. Bronco scoring showed Ron Austin and Don Barnes each pumped through 19.

Bill Greer, before fouling out late in the game.

Final score of the game stood at Hartley-Simmons 100, Boise State 82.

Altrusions push ecology stickers

Bumper Stickers

Georgia Standing, a Boise State voice instructor, has brought to the attention of the Arbiter a service of the Altrusia Club of Boise.

This international service club, which is running a contest for high school students and awarding scholarships for antilitter essays, has undertaken a local project this year, distributing bumper stickers that read Keep Idaho Clean.

Anyone interested in a cleaner America and a cleaner Idaho is invited to contact Georgia Standing for an attractive red and blue sticker, in the Auditorium Building, Room 106.

Vandals desecrated Boise State termed Bum-of-the-Month

by Bob Kadloff

It's too bad that with all the interest in sports today, that lesser ambitions are more interested in the Almighty dollar than in the student's or individual athlete.

One future big Sky opponent finally decided to let someone else in on its gravy train, namely University of Idaho, which has said in no uncertain terms that they would rather play a football game, June 7-1 and take home $40,000, than play Boise State College and possibly win 10-10 and have a miserable $3,500 guarantee.

What are college sports for — the players and schools' enjoyment or for the college to build a multipurpose sports complex?

U of I is more interested in making money than in having a winning season or in the players' having a future in pro sports. Most of the time the prospects go to an individual who has come from the running team.

Boise State is developing into one of the West's future powerhousees, mostly on the backs of men like Tony Knap and Murray Satterfield.

Two years ago we didn't go to Georgia for the National Junior College Championship because we weren't 100.

Today if anyone asked us to go to a playoff, we would have already left on the plane. This is good, but why weren't we consistent?

New Mexico State, the number five ranked major college, was willing to take us on for one reason or another. Sports Illustrated called it "NEW MEXICOSTATE'S BUM OF THE MONTMOMBER." Well, if we are bums, what is Sports Illustrated? Mickey Mouse Cartoons?

I hope that in the future if Boise State College ever gets as nationally known as New Mexico State, we will take a page out of NMSU's history and not out of U of I's.
