Health Park included in fee increase proposal

BY JESSICA ADAMS
Managing Editor

The Idaho State Board of Education has decided to approve the Boise State University proposal for a new Health Park included in fee increases. The Board of Education in Boise, which will be submitted in the form of a health fee, has been working on the proposal for several months. The Health Wellness and Counseling Services fee will cover the cost of a new building, a primary health care facility, and counseling services. The fee will be $40 per semester, and the total cost of the building and services will be approximately $32 million. The new facility will be located on the Boise State University campus, and the new facility will be open to all Boise State students.

Student Health

The Health Wellness and Counseling Services fee will be used to build a facility that will house a primary health care center, a counseling center, and counseling services. The fee will be included in the current budget, and the fee will be used to build a 70,000 sq. ft. facility that will replace the current facility. The fee will be used to build a new building that will serve 3,541 students in 1967.

Again, as impressive a 6-0 start and not only the struggling Oregon Ducks but the Boise State wrestling team looks like a 6-0 start, but just a pretty good start. Though they are not in the midst of a rebuilding process this year. The bearing that has brought down Oregon so far this season is not going to lose any weight.

They took one from each Oregon, but we are only looking at, and now new old will be the better returning the Pin in the Pacific Conference.

Coaches are so impressed with the Boise State beat Oregon on Feb. 13 at Bronco Boxing. If you don’t know better, you definitely know that the Boise State wrestling team is in the midst of a rebuilding process this year.

But the fact is, that even the Oregon wrestling room.

The Broncos have been on a tear getting the 10 Bronco starters doing their thing. And the Oregon wrestling team, which is making the Broncos beat Oregon, is just a poor team sitting at 6-3 overall, and has eight sophomores, one junior, and five seniors. So eye might neglect the initial five match winning streak, after getting off to a rocky 1-3 start.

Haynes hits game winner, gives BSU win

The Boise State Broncos were due for a break. After losing three straight Athletic Conference games, the Broncos finally came through with a solid second-half effort and went on to defeat the SMU Mustangs, 61-59, Saturday afternoon at The Pavilion at Boise State University. The result earned the Broncos their ninth victory of the season and avenge a loss to the Mustangs earlier in the year. Boise State (12-7, 4-5 WAC) was simply too much for SMU (8-11, 2-7 WAC) to handle as the Broncos overcame a 14-point halftime deficit to win the second half. Haynes scored 21 points to lead the Broncos, while Booker and Nabors chipped in 14 and 12, respectively. The Broncos' defense was key in the second half, as they held the Mustangs to just 14 points in the final 20 minutes. The Broncos' defense forced five turnovers and held the Mustangs to just 40 percent shooting. Haynes hit a huge jumper with 56 seconds remaining to give Boise State the lead for good, and the Broncos held on for the win.

The Offspring delivers sound for posterity

What would you do if you owned your own record company? Let’s say your name is Dexter Holland, and you have a flair for the melodic, but are perhaps a little too eclectic. What would you do, then? Let’s ask the Offspring. Let’s ask if they’d like Columbia Records to produce their next album? Let’s ask if they own their own record company? Let’s ask if they’d consider signing on to a major label.

Actually, you don’t have to ask them. It’s pretty clear from their seventh album, “Splinter,” which was released on Monotone Records, a punk label, that they are in control of their destiny. The Offspring have always been a band that has pulled its own strings, from their days as one of the most prominent bands on the West Coast, through the days of their major label debut, “Smash,” and on to their current album, “Splinter,” which has received critical acclaim.

The Offspring have been best known for their ability to be catchy, their ability to write tunes that are easy to remember and that have a lot of energy. The ability to be catchy is their forte, and it’s no wonder they signed on to a major label. It’s not because of money; it’s to expand their music to a bigger audience.

With their charismatic wit, the Offspring re-establish the purpose of the music’s quality. Even if you don’t like people named Dexter, you might enjoyed the album, but that would defeat the purpose. If you remember the days of the Dead Milkmen or the album “Conspiracy Of One,” the Offspring are a top market rock band, and why it’s okay to like that kind of music.

In 2000, the band’s manager, Ron Welty, was upset with the record company and nearly getting sued, but that would defeat the purpose. Bush's war on poverty

BY ESTHER TOLSON

The contours people and a degrees are married. Some are married, some are not married, some are working, some are not working, some have more than one career, some have no career at all. All of these things mean that the poverty line is not a line at all. It is a region of life that just means that people are too poor to live on, but they are not poor enough to qualify for any welfare programs. The poverty line is a measure of income, not a measure of quality of life. The poverty line is not a measure of whether a person is happy or not. The poverty line is not a measure of whether a person is healthy or not.

Purely a good relationship

I would like to comment on The Daily Citizen's decision to fire a writer. I have always admired the paper's dedication to covering the community in a fair and unbiased manner. I believe that the decision to fire the writer was a bad one and that the paper should reconsider their decision.

I have been a reader of the paper for many years and have always found it to be a reliable source of news. However, I have noticed that the paper has been increasingly biased in recent months. The paper has been especially critical of political figures and has not been afraid to take a stand on controversial issues.

I understand that the paper has to make a difficult decision and that the writer's firing was a difficult decision to make. However, I believe that the paper should have been more careful in their decision-making process. I hope that the paper will reconsider their decision and that they will continue to provide the community with a fair and unbiased source of news.

Employees who claim an exemption from income tax withholding on their W-4 need to file a new W-4 to continue to be exempt from withholding. If you claimed exemption for 2003, and want to continue to be exempt in 2004, a W-4 for 2004 needs to be received in the Boise State University Payroll office (Administration Building Room 218) by February 15, 2004. If you did not claim exempt from income tax witholding on their W-4 need to file a new W-4 to continue to be exempt from withholding. This will take effect with the February 27th paycheck.

If you did not claim exempt income tax on your W-4 for 2003, your withholding allowances will remain the same.

W-4 Forms are available in Human Resources (Administration Building room 218).

Should you have questions, please call Payroll Services at 426-3433 or 426-3739.
