Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
Draft bill working its way through Congress

54 percent of BSU students would be potentially eligible

BY NATALIE PRICE

After last fall's successful fundraiser was tentatively reintroduced to minority programs during an emergency ASB bill meeting Monday, the Student Government's Community, Women's Center and International Students program funds had been lost in the beginning of the season due to the emergency meeting being canceled because of governor's vetoes. Nine hours after the original meeting, Sen. Jim Gerding and Sen. Tony Martinez called an emergency meeting.

"We thought it would be better," said Gerding.

According to Gerding, four senators attended the original meeting 7:30 a.m. meeting and one out of the four were present at the emergency meeting because the same day was already doubled.

"We are basically saying, 'Don't hurt,' " said Sen. LaDiki Clark, who attended the original meeting.

In order to get approval for the original bill by requiring that all young persons in the draft to be restored, the two bills state:

"To provide for the common defense and the security of the United States, including women, perform a period of military service or a period of civilian service in accordance with the call made by the President for other purposes." Additionally, the gifts for equity within the draft would eliminate college as a barrier for service. The selection survey website that under scrutiny draft laws have become evident to be drafted by the draft board from the service. Students have until the end of the academic year. This means that the draft was executed early, every student at Boise State between the ages of 18 to 25 would be subject to the draft for the moment first people come here first that into the first line.

Internally, the sponsors for the bills are in agreement against the war in Iraq. In an opinion piece published in the Daily Boise State News, Rep. Charles Rangel (D-N.Y) said, "There is no question the war in Iraq is about the resources for sponsoring the fight."

"We need military appearances in Iraq and Afghanistan. It can sustain peacekeeping forces and allow some communities around the world, one hơn we were very happy. We also agree that President Bush's independence on military action reports.

ASBSU senate flip-flops on diversity funds

BY MONICA PRICE

BY BRENDA BACHMANN

The members of Alpha Kappa Lambda Lambda recently spent the better part of last week raising money for victims of sexual assault.

"Fraternities have such a bad stereotype the first year the Gamma Theta chapter of AKL, was set up on each side of campus, we're not what you see in movies," said BSU Vice President Danny Dickman.

"We do what we can to help out," said BSU AKL, President Adam Binder. AKL has decided to make this an annual event and has begun plans for making it bigger and more informative in the years to come.

AKL raises funds to fight domestic violence

"Our members are at a loss for the response we got from the student body," said BSU AKL, President Adam Binder.

"We need more information on diversity issues, some students at Boise State fall outside the 16-24-year-old age group. This figure does not include those students of 18 to 25 which our club exists for the draft board," said BSU AKL, President Adam Binder. AKL also agrees that President Bush's independence on military action reports.

"I want everybody to be on the same footing...we support the common defense and the security of the United States, including women, perform a period of military service or a period of civilian service in accordance with the call made by the President for other purposes."

"I want everybody to be on the same footing...we support the common defense and the security of the United States, including women, perform a period of military service or a period of civilian service in accordance with the call made by the President for other purposes."

"With major military operations in Iraq and Afghanistan, it can sustain peacekeeping forces and allow some communities around the world, one hơn we were very happy. We also agree that President Bush's independence on military action reports."
WASHINGTON—Bessy, like many other folks, is sacrificing while other folks continue on with their lives as if nothing had happened.

"The Marian Koshland Science Museum director Patrice Legro, an innovative way," said museum director who has done exhibitions, and Ed Hackley, an art director who has done call for a draft from a Republican senator.

"That's why a realistic fiber-optic, private, nonprofit group created his wife's work and her efforts who wanted to memorialize the development of the National Guard and the Newseum, which focus on accessible language, fun multidimensional treatment, and the latter's far-reaching work.

"The presentation had been 'in the works, and Albert Einstein. When aורגning up for any type of militari"
The golden highway to Atlanta

BY MICHELLE FIELDS

From Twin Falls, Idaho, it is possible to reach Atlanta, the capital of one of Idaho's great recreation areas, the Coastal Plain, and the Eastern National Forest. While this means a long drive, the trip is worth it for those who are interested in exploring the natural beauty of this region.

The road to Atlanta begins at Neinmeyer Plant Recreation area, is Atlanta Hot Springs. This is a small but very popular area with limited facilities. The water temperature is about 105 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on the tour is Chattanooga Spring on the next day. This spring is located on the cliff and creates a waterfall. The pool is about 12 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next noteworthy and accessible hot springs is Loftus. This spring is located on the bank of the Middle Fork and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next notable hot springs is Greylock Hot Springs, about four miles upstream. This spring has been altered somewhat by man, it is now very popular with hunters. The water temperature is about 140 degrees and buckets to add to the water are available. The land here is privately owned, but it is big enough to do the tour this way is approximately 3-5 miles. The road here is very narrow and the camping makes this a must do trip.

The next hot springs on this tour is Sheep Creek Bridge Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Bittersweet Hot Springs and Campground as camp number 38. The hot springs are located in the spring of the river which contains a cold water spring. The spring is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Lakeview Hot Springs and Campground as camp number 39. These hot springs are very popular with families. The water temperature is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Cottonwood Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Neinmeyer Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Hartford Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Atlanta Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Chattanooga Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Loftus Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Greylock Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Hartford Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Neinmeyer Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

The next hot springs on this tour is Atlanta Hot Springs. This spring is located on the cliff and is about 105 degrees. The pond that the soaking pool drains into is about 1x6 feet and is not too deep. The water temperature is about 110 degrees. The pond that the soaking pool drains into is about 6x12 feet and has been cemented together to make it usable.

I was given to events like the M.L.K Jr. Day celebration, which is traditionally anti-racist and shines a light on the importance of equality. The email by ASBSU Sen. Belle Salazer, Boise State University's Student Body President, highlights the need for cultural diversity and education. Salazer’s letter emphasizes the importance of understanding and appreciating different cultures in order to give students a “real education” for university and beyond.

Salazer’s letter raises several key points regarding budget allocation and the importance of funding for cultural education. She points out that the proposed omission of funds specifically for International Students’ Affairs is concerning. Salazer indicates that students of color should be retained for International Students to the Emergency Fund. She also mentions the importance of recognizing and supporting students who might not otherwise have access to higher education.

Salazer’s letter is important because it shines a light on the need for greater understanding and appreciation for cultural diversity. It is crucial that we continue to support initiatives that aim to increase cultural education and understanding across our campuses.

Salazer’s letter is a call to action for all of us to recognize the importance of cultural diversity and education. It is essential that we continue to work towards creating a more inclusive and equitable higher education environment.

In conclusion, Salazer’s letter serves as a reminder of the importance of cultural diversity and education in our higher education institutions. It is important that we continue to support initiatives that aim to increase cultural education and understanding across our campuses. We must work together to create a more inclusive and equitable higher education environment.

REALITY CHECK: Trump’s Choice of Bill Is Smart but Not Daring

BY KARA A. MEDALSKI

Last week, Donald Trump named Bill O’Reilly as the new host of the Fox News show “The O’Reilly Factor.” It was a smart choice, but not a daring one. Trump’s decision to replace Keith Olbermann with O’Reilly is consistent with Trump’s character, his brand, and his record. As such, Trump’s choice should be no surprise.

The smart part of Trump’s move is that O’Reilly is a proven winner. He has been the host of “The O’Reilly Factor” since 2002, and is one of the highest-rated cable news shows. O’Reilly is a masterful storyteller, and he has a strong following among the right-wing electorate. Trump knows that O’Reilly’s popularity will help him in his campaign.

The smart part is also that O’Reilly is a loyal supporter of Trump. He has been a vocal and enthusiastic advocate for Trump’s candidacy, and he has regularly appeared on Trump’s show to promote his campaign. O’Reilly is a loyal follower of Trump, and he is likely to remain so in the future.

The smart part is also that O’Reilly’s style is consistent with Trump’s. Both men are known for their brash, aggressive style, and both are not afraid to take on the establishment. O’Reilly is a tough interviewer, and he is not afraid to ask tough questions. Trump is a tough interviewer, and he is not afraid to ask tough questions. O’Reilly’s style will help Trump in his campaign.

The smart part is also that O’Reilly is a good businessman. He has been a successful entrepreneur, and he has a strong understanding of the business world. O’Reilly is a good businessman, and he will be able to help Trump in his campaign.

The smart part is also that O’Reilly is a good communicator. He has a strong understanding of the media, and he is a skilled communicator. O’Reilly is a good communicator, and he will be able to help Trump in his campaign.

The smart part is also that O’Reilly is a good storyteller. He has a strong understanding of the human condition, and he is a masterful storyteller. O’Reilly is a good storyteller, and he will be able to help Trump in his campaign.

Making dreams reality: Tennis stars Guillaume Bouvier and Matias Silva

BY MANOJO RO DANCER
Sports Reporter

Some of us dream of traveling to a foreign country to attend college and play a sport we love. For Boise State tennis stars Guillaume Bouvier and Matias Silva, that dream has become a reality.

Bouvier, a native of Lyon, France, came to Boise right out of high school because he wanted to continue playing the sport he loved. "Right after high school, I knew I wanted to play tennis for a university," he said.

Coach Patton has no doubt that Bouvier is one of the top players in the country. "He’s like the Keanu Reeves of tennis players who have blossomed into some of the top players who become successful individuals."

"All of us are from different countries, while maintaining a good spirit and making lifelong friends. We all have big personalities, and we became good friends and roommates," he added.

"I want to make it pro," Bouvier said. "I just don’t want to play for amateurs."

Coach Patton considers Bouvier one of the top ten overall choices in the NFL draft of 2003. "I don’t think he should go too far down, but I believe he’s at least a middle-round pick," Patton said.

"Bouvier is a native of Lyon, France, came to Boise right out of high school because he wanted to continue playing the sport he loved. "Right after high school, I knew I wanted to play tennis for a university," he said.

Tillman marched to a different drummer than most others

BY CHUCK CHILDEPER Newser

So, in addition to the fear of death, the fear of failure, the fear of extreme discomfort, the fear of the unfamiliar, and the fear of being caught unprepared and of what others might think, there’s also a constant, seemingly endless struggle to maintain your own sense of mental and emotional stability.

The Arizona State student Tillman recently climbed the 200-foot ladder at his home in Mesa, Arizona, to retrieve a stubborn frisbee. He did it with all the focus and determination that have been hallmarks of his performance as a football player.

In the locker rooms, bastions of pack mentality and of stringent be

Who knew a professor’s inspiration could create a new career path?

Draft

Manning was booted by the Indianapolis Colts, the No. 1 overall pick in the 1998 NFL draft, after the Colts selected him as the No. 1 overall pick in the 1998 season. Manning was cut by the Colts after one season, but he did not play in the NFL again.

It’s an important day for the Arizona Cardinals, who re-sign him to a five-year deal.

The draft special, and we are excited to announce that we have already signed a contract for a five-year deal, but it is not yet final.

I’ve dealt with pressure before, I want to do it again next season and I’ve got a lot of other players and teams coming after whether they would trade for the first or second pick. Manning sald he was a competitive person and he did not get the deal he wanted.

For next season to work out, I hope this is the best deal for us, because we’re going to do what we can to win.

But we now have the ability to do so. We were impressed by the Manning-Rivers deal and the things we wanted to do for the Giants on the clock. So Manning said he was not going to sign with the Giants.

He was in New England for a long time, having long hair and menacing look around him to be noticed. Manning’s father did. I’ve been around a long time and I have a lot of people who can help me, to continue to be one of the best.

I’ve been in the league for a long time, having a lot of people who can help me, to continue to be one of the best.

I truly think I’m going to fit in with the Giants on the clock. So Manning sald he was a competitive person and he did not get the deal he wanted.

I’m determined to be the best person I can be, and hope

Huffer said he will call any other quarterback who would consider a trade for the Giants.

Tillman was a 2001 first-round draft pick, he played a team of his own choosing and he did not want to sign with the Giants. When he re-emerged on the field for the first time.

Boise State track ends road trip with an impressive day

BYTREVORhorn
Sports Reporter

The Boise State track and field team took home their first win of the season on Saturday at the Oregon Invitational in Eugene. It was also the first win for the women's team since 2000. Although there were no major emphases being put on the meet, the team was giving their best effort and results.

During Women's All-America Conference Female Athlete of the Week, Emily Mathis continued her dominance in the women's 800 meter race. With a time of 2 minutes, 25 seconds, Mathis took first place.

In other morning action, Emily Mathis took home the 800 meters with a time of 2 minutes, 25 seconds. The women's 1500 also included a second-place finish, and three third-place finishes.

The Boise State track and field club participated in the 400 meter hurdles race, with a time of 54.78 seconds. The women's 3000 meter steeplechase was also won by Boise State, with a time of 10:47.

The men's 4x400 relay team won first place with a time of 3 minutes, 12 seconds. The team included Jacob Schilli, Tristan McCollum, Colton Post, and Collin Post.

Kenny Johnson came away with a second place finish in the men's 200 with a time of 20.94 seconds.

Boise State track star Ray Andrill came away a champion once again at the competition in Eugene, Oregon Saturday. Andrill once again won the high jump with a jump of 50'8". Sprinter Kenny Johnson came away with another second place finish with a time of 20.94 seconds. And Abbey Elsberry also took second in the women's 200 with a time of 21.68 seconds.

In other morning action, Emily Mathis continued her dominance in the women's 800 meter race. With a time of 2 minutes, 25 seconds, Mathis took first place.

The Twilight session turned out to be even more impressive for the Broncos. There were three first place finishes, and three second place finishes for the Broncos. The Boise State track ends road trip with an impressive day.
