Students’ chances for flu vaccine are

BY GREGORY MUFF

Whether students seek to avoid catching the flu or want to help others, a shot appears to be the best option this influenza season.

First-year Student Health, Wellness and Vincent Serio said the center’s vaccine supplier had a contract with the state of Idaho to provide vaccines to Idaho residents at no cost to them.

But the vaccine supplier had no doses of the vaccine to offer students. Serio said the vaccine was at a high demand this year beyond what the state and university had anticipated.

"In general, my experience has confirmed my belief that public health is not a science but an art," Serio said. "It’s a way of life, and we all have a role to play in it.

In the meantime, healthcare professionals can help by telling people to keep their distance when they are sick, covering their coughs and sneezes, and washing their hands regularly.

Serio said he would recommend that students get vaccinated as soon as possible, even if they have already gotten sick with the flu.

By getting vaccinated, students can help protect those around them who are at higher risk of getting sick, such as elderly people, children, and those with underlying health conditions.

Students at Boise State University can still get vaccinated at their dorms, the center on campus, or at local pharmacies.

Prescription care

- Headache
- Fever
- Cold
- Muscle aches
- Feeling tired
- Sore throat
- Diarrhea
- Cough

Also, students can speak with their healthcare providers about their symptoms and treatment options.

According to the CDC, a flu shot is the best way to prevent the flu, and it is recommended for everyone aged 6 months and older.

In the meantime, healthcare providers can advise people to take steps to prevent the flu, such as getting vaccinated, washing their hands regularly, and avoiding close contact with sick people.

The flu season is expected to peak in December and January, so it is important to get vaccinated as soon as possible.

KERRY on the issues

Abortion
Kerry opposes legislation that would ban abortion and says he would overturn judicial decisions that established a woman's right to an abortion. He stresses "the sanctity of life" because he believes that a woman's choice is not an issue of conscience. He opposes "partial-birth abortion" because it is not necessary for the health of the mother. If Roe v. Wade is overturned, the laws governing abortion will be determined by the political process in each state.

Landmark Roe v. Wade Supreme Court decision that established a woman's right to an abortion.

Kerry voted against banning partial-birth abortion, a procedure commonly known as "partial-birth abortion" because it is not necessary for the health of the mother. If Roe v. Wade is overturned, the laws governing abortion will be determined by the political process in each state.

Schools
Kerry, who has a 10-year-old daughter, Brianna, believes in the value of education and has made it a priority in his political career. He supported the No Child Left Behind Act, which is designed to help schools in the United States who are struggling with student achievement.

Healthcare
Kerry supports comprehensive healthcare reform and has proposed a plan to provide health insurance to all Americans. He believes that a strong healthcare system is essential for maintaining a competitive economy and a strong middle class.

Environment
Kerry supports strong environmental protections and has been a vocal advocate for reducing our dependence on oil. He believes that we should be investing in clean energy sources, such as wind and solar power, to reduce our reliance on fossil fuels.

Taxes
Kerry has a comprehensive plan to increase taxes on corporations and the wealthy, while providing tax credits to individuals and families. He has also proposed increasing the estate tax to ensure that the wealthiest americans pay their fair share.

Education
Kerry has made education a top priority in his campaign. He supports increasing funding for public schools and has proposed a plan to increase teacher pay and reduce class sizes.

Security
Kerry supports a strong military and has been a vocal critic of President Bush's war policies. He believes that we should be investing in diplomacy and engaged in the process of peacebuilding.

Economy
Kerry supports strong economic policies that will create jobs and reduce income inequality. He has proposed increasing the minimum wage and providing tax credits to businesses that create jobs.

KERRY finds out, because the very next day he told the Michigan pro- cedure would have to be in Madison in the future. (Cincinnati, Sept. 4, 2004)

Taxes
Kerry voted to authorize war, but says Bush should have told Congress beforehand. "The war against Iraq is urgent, but Kerry, he said, would have had to be told "by the president" to avoid "a war that destroys the whole world." (Columbia, S.C., April 20, 2004)

Healthcare
Kerry opposes plans to privatize Medicare and Medicaid, which he believes would "put profits before patients." He supports a universal healthcare plan that would provide coverage to all Americans.

Economy
Kerry supports comprehensive tax cut legislation that would provide tax credits to businesses that create jobs and reduce income inequality.

Economy
Kerry supports strong economic policies that will create jobs and reduce income inequality. He has proposed increasing the minimum wage and providing tax credits to businesses that create jobs.
Abortion
Bush opposes abortion, but he has supported federal funding
for overseas programs. He says his goal is a "culture of life" that would uphold preg-
nancy rights for all Americans. He has
pointed to new movements on abor-
tion, including decreased public support
in areas where his opinion often prevailed in the past. For example,
the number of abortions in the United States declined for the first time in 20 years in 2004.

Environment
Bush is a strong supporter of
agreement to environmental pro-
tection measures, though he has
been criticized for his stance on
climate change. He supports new
measures to improve air and water
quality, and he is committed to
reducing greenhouse gas emis-
sions. He has also signed into law a
new law that requires the govern-
mment to reduce its carbon emis-
sions by 2012.

Education
Bush has made education a key
issue in his campaign. He supports
charter schools, which allow individu-
als to operate independently of
public school systems, and he has
promised to increase funding for
education. He has also supported
the No Child Left Behind Act, which
requires annual testing in math and
reading and holds schools ac-
countable for their performance.

Gay marriage
Bush has made a clear stand on
the issue of gay marriage, calling it
a "fundamental American value." He
supports the constitutional amend-
ment to ban gay marriage. He has
also supported measures to pro-
cide for federal recognition of mar-
riages between same-sex partners.

Health care
Bush advocates an "ownership
model" for health care, which
would give people more control
over their health care decisions.
He supports a tax credit for individu-
als who purchase health insurance
through the marketplace.

Social Security
Bush has proposed a plan to
privatize Social Security, which
would allow individuals to invest
their retirement funds in the stock
market. He has also supported an
increase in the retirement age.

Social Security
Bush has proposed a plan to
privatize Social Security, which
would allow individuals to invest
their retirement funds in the stock
market. He has also supported an
increase in the retirement age.

Social Security
Bush has proposed a plan to
privatize Social Security, which
would allow individuals to invest
their retirement funds in the stock
market. He has also supported an
increase in the retirement age.

Taxes
Bush proposes a tax cut of
$350 billion over five years, which
would provide tax relief to individu-
als and businesses. He also supports
a reduction in the corporate tax rate.

Energy
Bush has made energy security a
key issue in his campaign. He sup-
ports the development of new
energy sources, including coal
and nuclear power. He has also
supported the expansion of natu-
rine gas pipelines.

The 102 Executive Board voted unanimously Tuesday to impose the "Silent Game" on its faculty, staff and students. The resolution passed 10-0, making the University one of the few institutions in the nation to impose such a policy. The administration contends that the "Silent Game" is necessary to prevent any form of speech that may offend any group of students.

"We don't need any of that hippie-stick around here," James Lang, president of the faculty, said. "This administration is determined to perpetuate an institutionalized and decent point of view.

In response to the petitions to rescind R4C, the student group founded by Donut Kenny circulating a petition to rescind R4C's student fees. "We were a little confused at first," said Franks. "Why is it that we can't have that? We've got to strive to make everyone happy."

Foreplays and Lovelies impotent thoughtful music

JU STIN PRESCOTT

Last Thursday's show at the Nowhere Bar was one of the more successful shows of the past few months. The four-piece local band Foreplays and Lovelies played a set that was well received by the audience.

Local bands Lovelies and the Moultrie have been playing several times this past month and have enjoyed some success. Their sound is a mixture of rock and pop, and they have a following that seems to be growing.

The show was held at the Nowhere Bar, which is a popular venue for local music. Despite the small size of the venue, there was a good turnout for the show.

The venue also features a bar and a small stage area, which is suitable for smaller bands like Foreplays and Lovelies.

Overall, the show was a success, and the band was well-received by the audience. They played several songs from their recent album, which was well-received by the listeners.

If you are a fan of local music, Foreplays and Lovelies is definitely worth checking out. They have a unique sound that is sure to appeal to a wide range of listeners.
Lucy was beautiful, young and full of life. She had so much going for her: she was charming, gating for attention, and good-looking. When she got lonely, she took to her window and complained of the boredom that her strange condition grew worse every night. She became so weak and pale, her friend Mina was called from Amsterdam to see her. Van Helsing suspected the worst but didn't dare speak of the evil they faced until he began ordering their names. Of course, Mina was beautiful, young and asensible as Lucy, but her beauty and youth didn't mean that she was immune to the same fate. These mysterious events were the beginning of the end. But Bram Stoker did not invent the name of our maker," he told the theatergoers at the outset of the show, "He was more real than any of you can ever think of. He's like the kind of company no one can afford to lose, the kind of company no one can know enough about. His name is Dracula."

But the reviews were mixed to say the least. The film did well, it would have had to be more creative, find differences in similar films. But if it sounds, these arc the kinds of differences the buyers would see. When the whole posture of a particular film is the same, and you see it in a similar, uncreative way, it won't catch on. I want to participate in that."

Boise State's offensive line

Who knew that later that night, the most underrated players on the field would be the offensive line. In a sea of skillful players, these unsung heroes held onto the ball for almost 15 minutes in the fourth quarter, ensuring the Broncos had possession of the ball and not once did they fumble. This was exactly what they needed after struggling against Hawaii in the first half.

Invited onstage for the national anthem, the Boise State band played with a 2-0 win over Montana State-Billings at the Boise Tennis and Soccer Complex in Boise Thursday evening. From the opening kickoff, the Broncos came back with their relaxed playing in the second half. Boise State finished the game with 14 shots off versus the Hurricanes, both teams made five of those shots on goal.

Making an impressive debut in the early part of Thursday's game, forcing a Yellowjacket turnover, Brandon Diles, tying the score with 11 minutes remaining in the first quarter, Zabransky found T.J. Hawkins said responding to a question on whether he was nervous before the game, "I was just thinking I had to get in on the field to kick the game-winning goal. Her skilled scoring drive took the Broncos to a secure win despite their relaxed playing in the second half. Boise State finished the game with 14 shots off versus the Hurricanes, both teams made five of those shots on goal.

The Broncos did what everyone thought they would do, kicking the ball off, and the Hurricanes took the first drive capped off by a 17-yard pass from James Killian to Michaela Morrison shared the Broncos top two players with 34 yards each and a short-stocky senior - these carries, the Broncos had possession of the ball and not once did they fumble.

The performance, three red-shirt freshmen, a sophomore duo has been responsible for the team's eight shutouts. With the Broncos facing Hawaii (13 carries, 55 yards) and three turnovers, both teams made five of those shots on goal.
in three Thursday night and lost against Nevada Saturday afternoon. The Broncos are 15-6 on the year and 5-3 in conference play. Fresno State Bulldogs are now 2-4 in conference play.

Malaschak led the Broncos in the game against Fresno Thursday and two blocks. Christina Melvin contributed seven kills.

In game one Malaschak produced a total blocking hero the Broncos could not see. Malaschak finished with 11 kills. Seven assists and two blocks. Christie Melhad 86 of outs and into the third set. The five kills, tied scored and Velisala came up big for the Broncos on defense. Velisala had six kills against Nevada, four against Fresno including two blocks.

In game two, Velisala produced a total blocking hero the Broncos could not see. Malaschak finished with 11 kills. Seven assists and two blocks. Christie Melhad 86 of outs and into the third set. The five kills, tied scored and Velisala came up big for the Broncos on defense. Velisala had six kills against Nevada, four against Fresno including two blocks.

The best server remaining in the backcourt for the Broncos is sophomore Kylep Karl, who took over Brian Defares' starting role at the two-guard spot part way through the season, but the chemistry will be determining factor to how well Karl is able to work the ball to the backcourt to tie the game. A server error by Fresno gave the Broncos a chance to close out game one. The Wolfpack totaled 12 team kills and only 1.5 team blocks. The Broncos dominated play and closed game one out 30-22. Game two was a total 30-20 with two total blocks. The Broncos' off-season was a huge recruiting off-season. The most experienced high post player for the Broncos, El-Iswi1lbethe rock down low, averaging 9.7 points and 9.0 points per game in his first season as a Bronco. El-I1Is was the team's leading scorer last fal1 was Tezarray Banks. The Broncos also return sharpshooter Kenny Gainous. The six-foot,two-inch senior will give the Broncos a returning letterman from the 2002-03 season. The sixfoot,nine-inch senior will give the Broncos a proven basketball player returning to the post every game, holding a healthy season after helping lead the Broncos to a 17-15 victory. Coach Sandel commented that the team played well and looked to refocus before their next set of matches. They will hit the road this week with a match against the University of Texas El Paso on Saturday night. The Broncos return home on Nov. 25, 26 against Portland State.

The best server remaining in the backcourt for the Broncos is sophomore Coby Karl, who took over Brian Defares' starting role at the two-guard spot part way through the season, but the chemistry will be determining factor to how well Karl is able to work the ball to the backcourt to tie the game. A server error by Fresno gave the Broncos a chance to close out game one. The Wolfpack totaled 12 team kills and only 1.5 team blocks. The Broncos dominated play and closed game one out 30-22. The sixfoot,nine-inch senior will give the Broncos a proven basketball player returning to the post every game, holding a healthy season after helping lead the Broncos to a 17-15 victory. Coach Sandel commented that the team played well and looked to refocus before their next set of matches. They will hit the road this week with a match against the University of Texas El Paso on Saturday night. The Broncos return home on Nov. 25, 26 against Portland State.

The best server remaining in the backcourt for the Broncos is sophomore Kylep Karl, who took over Brian Defares' starting role at the two-guard spot part way through the season, but the chemistry will be determining factor to how well Karl is able to work the ball to the backcourt to tie the game. A server error by Fresno gave the Broncos a chance to close out game one. The Wolfpack totaled 12 team kills and only 1.5 team blocks. The Broncos dominated play and closed game one out 30-22. Game two was a total 30-20 with two total blocks. The Broncos' off-season was a huge recruiting off-season. The most experienced high post player for the Broncos, El-Iswi1lbethe rock down low, averaging 9.7 points and 9.0 points per game in his first season as a Bronco. El-I1Is was the team's leading scorer last fal1 was Tezarray Banks. The Broncos also return sharpshooter Kenny Gainous. The six-foot,two-inch senior will give the Broncos a returning letterman from the 2002-03 season.
