Women's Center coordinator wins award for victim advocacy

BY EMILY PELTZ

Melisa Wintrow, coordinator for Boise State University's Women's Center, was honored on June 5, 2005, for her lifetime work with crime victim advocates. The Idaho Council on Domestic Violence and Victim Assistance (ICDVVA) honored Melisa with the Award of Distinction, which is designed to recognize individuals, organizations, and communities for their outstanding support of crime victims. Wintrow was not able to attend the 2005 ICDVVA Annual Conference in Stockton before moving to Boise. Wintrow's award was presented at the 2005 ICDVVA Annual Conference in Stockton before moving to Boise. Wintrow's award was presented at the 2005 ICDVVA Annual Conference in Stockton before moving to Boise. Wintrow's award was presented at the 2005 ICDVVA Annual Conference in Stockton before moving to Boise. Wintrow's award was presented at the 2005 ICDVVA Annual Conference in Stockton before moving to Boise.

Wintrow has been working as an advocate for the underprivileged or victim of violence for a number of years in the Boise area. She has worked in various positions within the Boise State and Idaho communities, including a position at Boise State University, where she served as an administrative assistant to the Dean of Students. She currently serves as the Women's Center coordinator at Boise State University, where she helps victims of domestic violence and sexual assault.

According to Wintrow, her work with the Women's Center has been both rewarding and challenging. She has helped victims of domestic violence, sexual assault, and other crimes find ways to cope with their situations. She has also worked with domestic violence and sexual assault awareness campaigns, including the recently launched Boise State University Domestic Violence Awareness Campaign.

In addition to her work with the Women's Center, Wintrow has also served on the Boise State University Women's Center Advisory Board and the Boise State University Women's Center Student Advisory Board. She has also served on the Boise State University Women's Center Student Advisory Board, the Boise State University Women's Center Student Advisory Board, the Boise State University Women's Center Student Advisory Board, and the Boise State University Women's Center Student Advisory Board.

Wintrow has received many awards and recognition for her work with the Women's Center and community organizations. She has been honored with the Boise State University Women's Center Coordinator of the Year Award, the Boise State University Women's Center Volunteer of the Year Award, and the Boise State University Women's Center Community Service Award. She has also been recognized for her work with the Boise State University Women's Center Student Advisory Board. She has also been recognized for her work with the Boise State University Women's Center Student Advisory Board, the Boise State University Women's Center Student Advisory Board, the Boise State University Women's Center Student Advisory Board, and the Boise State University Women's Center Student Advisory Board.

Wintrow is proud to have been able to help so many people over the years. She is committed to continuing her work with the Women's Center and helping others in need. She continues to work hard to ensure that those in need have access to the resources and support they need to build a better life for themselves and their families.

"It's overwhelming that I get to be a part of the Boise State University Women's Center, and it's an honor to be able to help others," Wintrow said. "I've always been passionate about helping others, and I feel that my work with the Women's Center allows me to do that on a daily basis. It's truly rewarding to see the impact that we can make in the lives of those we serve."
Idaho Universities Receive $9 Million Federal Grant To Boost Water Research In State

A $9 million federally funded research program announced here June 15 will bolster Idaho's ability to study water-related issues.

Falls businessman who leads the Idaho EPSCoR committee. "This funding will be significantly important to Idaho's existing expertise in water research and will help Idaho universities become more competitive in attracting future support for their schools," Jacklin added. The Boise State University and the University of Idaho will receive grants to support their ongoing research activities.

The Boise State students are receiving $16,000 and the University of Idaho students will receive $10,000. The students will use the funds for their research projects. The Boise State students are studying the effects of climate change on water resources. They will also study the impact of water pollution on human health.

The University of Idaho students are studying the effects of water pollution on the salmon population in the Snake River.

The students will be working in the new academic building on the Boise State University campus in Nampa. The building will be opened in the fall of 2006.

In addition to the Boise State and University of Idaho students, the students from the College of Idaho and Northwest Nazarene University are also receiving grants. They are studying the effects of water pollution on the salmon population in the Snake River.

BY MURREY BECKER

Trying to perform a comedy show while it's still light outside is like attempting to have sex in a room you didn't like the smell of the lights on—just isn't very amusing. Well, unless you join Comedian Central funny man Attell Allen.

Since last week, several comic wannabes have entered the big city looking for the same kind of fame. And most of them have ended up on a padlocked show at Friday night at the Big Easy. For his first of six shows throughout the Boise area show began late, then was still light. Walking through the doors as Attell was handed shots of other drugs of degeneration, after he proclaimed that he had once dreamed of either hitting the A or A-1 one night.

The most memorable moment of the night came when all went to make his first shot, when he turned up the sky-desired comedian Mitch Hedberg, who had been playing a clear case of an apparent open attack. Hedberg was the third member of the highly acclaimed tour with Dead and Lethal (both under 300). The crowd was a bit eclectic throughout the night, getting jokes from Attell, because "if you are going to laugh half the time, you are going to half-ass yourself." Since then, the crowd spread out, but to no avail. Attell was still ready on stage. Mike and I look like the most talented and multi-faceted of the most talented and multifaceted. But Attell and Little Feat, to name a few, and serves them up in tight, bone. The show started at 10 p.m. and went well into the night with the night's eye, shining between its nausea and power. Their live performances are full of energy and sense and power. Their live performances are full of energy and sense and power. Their live performances are full of energy and sense and power.

BY MURREY BECKER

The most endearing moment of the room is when the tour with their previous albums and their new CD "Funshine" that was released but week.

According to Blevins Jr., playing a fourteen-person game in a studio is a totally different experience. "It's a great learning experience and a great change," Blevins Jr. says. According to Blevins Jr., plays its own new CD games get their chance in "getting tripped. Live music in their CDs is no longer an option but in the tour line it is not complete with the kind of shows and social scenes and places. Their live performances are full of energy and sense, that disappoints a lot from the other CDs. Nonetheless, Mingo Fishtrap is still a shape of their own. With influences from great performers like Stevie Wonder, Nils and James Brown their songs are full of themes of love, sex, and getting funky. They enter the room as the two and in the crowd, and said The subtlety's genius is the best of the best, starting with the music and taking the show to the edge, shining between its nausea and power. Their live performances are full of energy and sense and power. Their live performances are full of energy and sense and power.

The Chich Chick: Fashion hilts and missteps. Socks with sandal bare often a miss... no matter what!

Ah, warm weather has finally arrived. It's now time to shed the pullover and show off the tan tops and flip-flops. The sun is shining, and the grass is green... everything could be a little sunnier, maybe?

Scratch that. The horrendous sunless tanning spray that will turn your lovely feet into burnt, bare, blistered, blemished appendages. The cold part about this stuff is that it doesn't have an effect and it's not the best thing for your shoes. Why risk it? In summertime, socks are definitely a fashion no-no for your bare feet this season.

Send the July 10 issue of The Arbiter for a summertime fashion primer.

The entire band contributes to putting the songs together, with Blevins Jr. is putting the lyrics and the rest of the band choosing the song. "It's always the same way to get songs because, is the best way to have songs, because the band is the best band to have songs." According to Blevins Jr., the creation of a song is a really a part of the show. Their performances are totally unique. The small crowd could easily make dance and activities in your "pop's" get "freaky." Thursday's show was the first.

"I am alisted!--bobjet: Blue Heron"

Dear Blue Heron customers,

I am writing to tell you about a very special event that will be happening at Blue Heron on Monday, May 16, at 7:30 pm. The event is the launch of our new line of environmentally friendly cleaning products, which we are very proud to offer to our customers.

The three main ingredients in this line of products are:
- Organic, plant-based surfactants
- Non-toxic, biodegradable ingredients
- Safe for use around children and pets

These products are designed to be effective at removing dirt and grime while being gentle on the environment. They are made with ingredients that are safe for the environment and biodegradable, so you can feel good about using them.

The event will feature a presentation about the benefits of using organic cleaning products, as well as a hands-on demonstration of how to use the new line of products. There will also be samples available for you to try.

We hope you will be able to join us on Monday, May 16, at 7:30 pm to learn more about our new line of products and to try them out for yourself. We look forward to seeing you there.

Sincerely,

[Your Name]

And yet I still want that sandwich. man.

Yeah, I say "Super Size Me" too. I think daylight saving time.

I'm not sure what the best approach is to dealing with the triplets. But I don't think it's worth it. It's just not something I want to deal with. I think it's best to just let them have their own time and deal with it as it comes.

As for the rest of the movie, I think it's a bit of a letdown. The trip to England is interesting, but the rest of it is pretty predictable. I think it's a bit of a letdown, but it's still worth seeing.

As for the rest of the movie, I think it's a bit of a letdown. The trip to England is interesting, but the rest of it is pretty predictable. I think it's a bit of a letdown, but it's still worth seeing.

But overall, I think it's a pretty good movie. I would recommend it to anyone who enjoys adventure and mystery.

Sincerely,

[Your Name]

Cam Hall removes himself from BSU football team

By Dustin LeRoy
Sports Editor

Boise State basketball player Cam Hall announced Thursday he has removed himself from the Bronco’s active roster. Hall was part of one of the most exciting recruiting classes to come into Boise in recent memory.

Nurse joins coaching staff

Former Boise State security Wes O’Dell has been retained by the Broncos as an assistant coach. O’Dell was a three-year starter at the University of Idaho when he graduated in 1996.

Boise State University’s Director of Career Development, Kim Madsen, has decided to retire at the end of this year. Madsen has served in the position for 17 years.

A total of 26 Bronco student-athletes are being recognized for their academic excellence by earning a Spot on the Academic All-Western Athletic Conference team.

Two Swedish-born athletes propel Bronco into Top 15 in the nation.

Double the pleasure

Two Boise-born athletes pleased Bronco into Top 15 in two years in a row.

Seeseers re-injured shoulder, will not attend Boise State

By Trevor Ross
Sports Editor

Kyle Seeseer, the fifth, sixth, seventh and eighth-year senior on the Boise State women’s basketball team, has been ruled out for the rest of the season after suffering a shoulder injury.

Seester was named to the all-state team.

Boise State football player

Hall and Lazinka have been in a relationship with the Boise State football program for a good part of the last two seasons.

Track and Field Championships

BY DUSTIN LPRRY
Asst. Sports Editor

The Boise State mens and womens track and field teams both performed well this past weekend.

Students and faculty members were named to the all-state team.

Boise State women’s basketball player

Jameson Davis has decided to serve a 2 year Mormon mission after the spring/early summer of 2007.

Bledsoe, two Olympians lead 2005 class in the Humanitarian HOF

BY TERRY HOBSON

Dallas Cowboys quarterback Troy Aikman, Olympic swimmer Ledecky Zampatti, and three-time Olympic gold medalist Carla Liberman were inducted into the Humanitarian Hall of Fame for their efforts as role models and humanitarian work, according to a 13th annual induction ceremony held in Boise.

"It's a completely different thing than playing football or putting on your uniform and going off the field, and I believe it's far more important," Bledsoe said.

The induction is accompanied by an annual humanitarian award program recognizing community efforts throughout the Treasure Valley.

The program also includes a $2,500 scholarship to help students who are seeking careers in the field of philanthropy.
