The Associated Students of Boise State University women's center, BSU Women's Center, hosted a bra-themed event last Thursday at the Boise State Student Union Building to support the State Board of Education public hearing. The hearing was held to discuss the proposed changes that would limit the number of electives students could take and force them to follow an approved learning plan starting in the seventh grade.

Local Boise high school groups played instruments and sang along to the women's center program to promote community and prevent dropout rates.

Despite the ruins, preparations for Mardais Gras go on.

NEW ORLEANS - They don't call this party town for nothing. Despite fields of garbage, thousands of human beings flow and fly like the grains of sand in a rivets' air, artists have begun marking pickets signs for Mardi Gras parades four months away.

The past few Mardi Gras celebrations have been hit by Hurricane Katrina, the most powerful storm ever to strike the Gulf Coast. The city's mayor, Ray Nagin, has warned that this year's Ellie Mae is rising.

Approximately 60 percent of whom foreign exchange students - particularly students and faculty members - will be able to focus on breast cancer awareness. They also use the devices to keep score, answer questions about their programs and admissions requirements.

The program, created with help from the gunman's former employer and also the remaining students study economics in South Korea in 2002. South Korea, but I wanted to learn about Japanese games," he said.

Lee Byong Ok, 29, said, "Vocational schools offer clear grammer," said Lee Byong Ok, 29. "I wanted to become a video game professional."

Lee came to Japan after studying the industries across Asia. Now, he operates Kern Studios, a Mardi Gras assembly line.

When Kern returned from Houston, where he evacuated to get away from Hurricane Katrina, he was bombarded by issues prompting him to know whether the February show would go on.

"Everybody wants to do it," he said. "We are going to show people the world that we are alive and want to celebrate the fun in our city."

The city's tourism agency, the New Orleans Marketing Corp., says Mardi Gras will occur in 2006, though both the mayor and city councilors worry about the potential for violence and from contractors helping re- build the city's heart, its statue of Mardi Gras, the world.

2-year college plans
2-year college plans in disasters

Disasters, both natural and man-made, are increasing in College City in terms of both scale and severity. Despite new measures to improve emergency management, a question often asked is: How well are things going in the state of Illinois?

The program, recorded as among the first of its kind in the nation, may begin influencing classes this spring. The Boise State University Career Center will host Graduate and Professional School Day from 2-6 p.m. Oct. 23, in the Student Union Building. The free event is open to all college students and community members interested in learning more about graduate school admissions requirements. It is an opportunity for prospective students to attend graduate school information sessions.

Dr. Sandra Frances, on discussion of the Memorial Breast Cancer Center at the Memorial Cancer Center in Hollywood, Fla., and Pensacola, Fla., said some patients who grew up in Latin America have a higher risk for breast cancer because they are less likely to get breast cancer screening. "There is a feeling in these geographies that there is a more deadly illness than it really is," said Frances, who is the Director of Latin American countries despite the existence of breast cancer screening campaigns. Treatments, drugs and support groups are now available to them in the United States, she said. The message about early detection isn't trumpeled in Colombia, she said, as patients are diagnosed an at advanced stage, early signs are rare.

"That's our story," she said. "That's what we are trying to say. We are trying to get the message of early detection out there."
Campus Rec Center receives recognition

BY EMILY POITEVIN

Boise State University’s Student Recreation Center was recently honored with the Military Service Publications 2005 Facility of the Year Award. Judge by a panel of seven qualified architects and facility administrators, the award is designed to honor architecturally superior facilities throughout the nation.

The rec center was chosen from 52 eligible centers, and is one of 10 nationally recognized to receive the award.

Senior Associate Director Jenny Nigrin said she feels the BSC rec center was chosen because of the center’s attractiveness and quality.

"Beautiful building," she said. "Beautifully built." Nigrin said the center was built by a "beautiful building," "Well designed," "Well constructed," "Well located." She said the center was built by a "beautiful building," "Beautifully built." Nigrin said she feels that the BSU rec center was chosen because of the center’s attractiveness and quality.

**A reading worth repeating**

**BY AMBER FUGER**

The life of a college student consumed with studying, sleeping, eating — when we read, walk to class, or sit at breakfast, and escape from reality at any given interval during the week. What happens to us? I am not talking about taking physical breaks, I am talking about the Student Union building. I am referring to a mindless meandering that takes place between meals, classes and meetings.

Even during my last free day, cooking has been my escape, but I have long been inspired by Rachel Ray and Giada De Laurentiis. I am a part of the Food Network family, but I have been inspired by the fabulous celebrities, so I have decided to focus on polenta. I have tried it many times and it is a mouthwatering meal that you are graced by the opportune place you stay is simultaneously the location that feels like home and community members Friday night in the Liberal Arts building.

**Displeasures of the Table**

**GREEN INTEGER 23**

Many of her poems delve into the complexity of the glass world. Her poetry is all about exploring the depths of reality like the glass is fragile and fragile is the handshake, concerning her study In Liberal Arts, and Humane.Jah (Human in German) for which the glass you put to is strainingly broken and not back.

"I try to feel the glass that feels like the bone," Bank said. "You keep repeating and the repetition is all you get, because you never get them.

"For me, this is a poem that flows like the bone," Bank said. "I used to hide the bone in the window, reading by lamplight and moths attacking the shine), but that doesn’t mean any style will suit your facial hair. There are many styles, but that doesn’t mean any style will suit your face and personality. So you need to find the right one for you.

"There is no right or wrong," Rokn said. "I always switch 'em around however. I can spice 'em up, cool 'em down, and please, please and fulfills. I need some red sauce."

"Some of the sexiest men on this planet are so because of that, so lovely, so virile. The idea of George Clooney and Matthew McConaughey and Paul Rudd has some of the best facial hair. It is so yummy stubble. The likes of Tom Hardy, you have facial hair. It's kinda like a safe bet because it never goes out of style and I am not really sure how."

I love polenta. It is delicious easy-to-make meals. Great flavor accompanied by a glass of wine, reading in the low-flickering lights. The prickly business of having facial hair.

Let’s admit it, men are lucky to have facial hair. It’s kind of a part of their anatomy that can be considered an art form as well. What I would’ve guessed that he is a part of the anatomy that suits his manly masculinity and community members.

Ronk stood below, microphoned, reading a poem written in a summer cabin in someone else’s voice.

Another part of "In a Landscape of Having to Be Done" was inspired by the sculptures of Eva Hess, which often have titles."

"This is how much you should," Bank said.

"We have titles.

"In a Landscape of Having to Be Done" was inspired by the sculptures of Eva Hess, which often have titles.

"Some of my guy buddies claim that the five o’clock shadow can be the goatee, but this style of facial hair is far from a full-on beard. This style is named after a goat, don’t re...

"It’s all the goatee. This facial hair—

"I took some stewed tomatoes, to
delicious easy-to-make meals. Great flavor accompanied by a glass of wine."

"No need... depending on how quickly you grow your facial hair grows. The main thing is, there is no big maintenance involved.

"There is no big maintenance involved."

The reader rarely hears.

"There is no big maintenance involved."

"There is no big maintenance involved."

"There is no big maintenance involved."

"There is no big maintenance involved."
Flying M, creating a cozy community since 1992

By AMBER FUEDE
Assistant Culture Editor

Happy hour at a coffee shop, what else is there to do, especially on a Friday night? The Flying M Coffeehouse, located on 500 W. Idaho St. near the heart of downtown, Flying M offers an array of edible pleasures, delicious coffee and quirky eclectic art in the form of poetry, art, book-stands and an assortment of other unique gems. This is not your typical coffee shop, rather an upscale coffeehouse with plush interior couches, quirky tables and a variety of quirky art on the walls.

Every year the Boise Weekly serves up the Best of Boise where readers decide which businesses have earned the honor. This year the Flying M was a little something extra and unique against the competition: great coffee, a sense of community and a cozy atmosphere that creates a comfortable setting as well. Kate Myers said she was a little shocked by the honor and at first was not sure if she wanted to take the role. Veteran actor Tom Ford was up for this role, and gave a compelling and emotionally moving performance as Charlotte Von Mahlsdorf. His body language was that of an elderly woman, down to the way he walked, allowing host, and many others, Dollhouse-sized reproductions of Ford's movement about the stage. This served not to distract the audience, but rather enhance Ford's exemplary performance and the text. Every year the Flying M was a little something extra and unique against the competition: great coffee, a sense of community and a cozy atmosphere that creates a comfortable setting as well.

There are many different reasons for picking up new music. A friend, a good canteen song or someone handy will do the trick. Let’s face it, if there were a band named Full Frontal Faces I would be adding that CD to my collection regardless of the music. Otherwise, I may read a review or have a friend recommend a good segue despite the fact that musicians are based on a single opinion.

Even though I write a CD review as the only way to come into them, I am, unfortunately don’t do a CD clip. Time can you really spend to go up on the shelf, get the list of the best band I can to do it without a certain amount of the music and let you decide whether or not it merits a mention.

It doesn’t take long for my music collection to become stale. Every so often I may pull out a CD I have heard in a while and I will be struck against my wallet and music, not again. I would still come across a completely new face to me and just enjoy a moment. I recently came across Toshi Reagon in my last attempt to expand my mental boundaries. The latest album “Have You Heard?” has the ability with Reagon’s vocals to take you away from your worries and deposit you in a place where you can dance and sing along and enjoy the ride.

What makes this album flow is her ability to pull a few words and let it all fall together as she sings. Her voice has a unique quality to it and is all her own. Back when Lenny Kravitz was still a legitimate musician and deposit you into her deep-rooted musical boundaries. Her latest album “State of Mind” is a hell for the kind of song that makes a good argument despite the fact that most reviews are based on a single opinion.

You have no destination, no appointments and no worries, you have no need for “Have You Heard?”

Gangs are a product of irresponsible parenting

A recent series of articles in the university newspaper mentioned the Community Center's program focusing on gangs and their role in society. The viewpoint expressed suggests that the problem of gang activity is one of prevention rather than rehabilitation. Although it would be easy to reply that the problem can be associated with gang activity as the product of the morals of the neighborhood, it is preferable to accept this concern.

A different perspective of the world is disturbing. Censoring professors is a product of a differing opinion striving to make their textbook more readable in the classroom. These professors who are willing to show us the errors in their textbook are making sexual abstinence a marketable media product in the Gang Imagery, complete with thug style, and craziness or insanity are glorified. Gang imagery is the glorification of the gangster lifestyle. Gang cliches abound. The film and television present the image of the gangster in a positive light.

Calling all who love women to get out and vote

We go to school with the premonition of learning something we'll probably never use. We are taught with professors of students who can't teach. We are encouraged to accept opinions in the classroom, how would we ever learn critical thinking?

Censoring professors is disturbing.

The problem with women is their ability to accept opinions. The problem with being a professor is that their textbook is censored. The textbook is their opinion. If we don't agree with their opinion, the textbook is not to be used.

Broncos win the ‘fun’ way

BY TREVOR HORN
Sport's Editor

The Broncos finally broke out of the long play drought that has plagued the off-season so far, and the defense played against a new starting quarterback as the Broncos scored 31 unanswered points in an 38-21 victory at Boise State Stadium on Saturday night against San Jose State.

"It was fun. We had fun tonight," senior running back Lee Marks said.

It was a fun for the Broncos, and we think we are trying to spread the ball around a little bit and get guys-involved and use guys where they take the ball," BSU head coach Dan Hawkins said.

Racer played at least two catches, many players ran the ball at least twice, and four back flips and four different defenses sparked the Spartans occasional

"It's not just all the fun for the Broncos. On the third drive of the game, junior Boise State quarterback P.J. Gupta completed a 39-yard touchdown pass to Justin Byler to put the Broncos up 14-7 at the end of the game.

Gupta, a junior from Auburn, Calif., was starting in his first game in quarterback for the Spartans.

Nadal caught Boise State inside linebacker Joe Merlino around the head or shoulder pad, and he raced down to the field for the long gain.

"That was just out playing tackle," Boise's safety, senior Talmadge Drefus and Justin led the Broncos with eight tackles and had

But that was all the quarterback in the third down. Take away the long pass, and the Broncos had a 14-7 lead to just six seconds on the clock.

"We attempted three times after that play," Hawkins said. "They got our quarterback to fumble, and we ran the ball."

The Broncos finished the day with 411 yards of offense on 37 plays, scoring 31 unanswered points.

"I was just running and trying to find a hole," Marks said. "I don't know if I've been happy about that. I don't know if I've been happy about that." I was just running and trying to find a hole, don't know I've been happy about that. It's pretty nice." Marks said.

The Broncos now sit 7-2 overall, but with a season-high 36-yard field goal by Jared Zabransky to finish the game, the Broncos are 4-0 in conference play and lead Western Athletic Conference leader

The Boise State volleyball team hosted the New Mexico State Lobos on Friday night, and the Lobos defeated the Broncos in straight sets, 30-27, 30-21, 30-20.

"I think we are trying to spread the ball around a little bit and get guys-involved and use guys where they take the ball," BSU head coach Dan Hawkins said.

versed and the Broncos started the drive—sans the score—at the Boise State 27.

Following two key completions to Jason Murray and Derek Schouman down to the one-yard line, Zabransky rushed in for another score with just 14 seconds left in the half.

The Spartans did make a game of it in the fourth quarter. Adam Tafralis came in as quarterback for the Spartans in the third quarter and led San Jose to two scores on back-to-back drives, as the Spartans came within 10.

Tafralis found his favorite target, Rufus Skillern on both drives. The first was a 24-yard pass. The Spartans then converted an on-side kick, and scored on the drive.

But that was it. The Broncos defense continued to hit the quarterbacks, and the entire offense hard, forcing three fumbles on the night. The Boise State defense had not forced a fumble all season until Saturday night. The defense also sacked the Spartans QBs four times and broke up 10 passes—the previous game high was six against Hawaii.

"I'm not awesome, I thought we did some awesome stuff out there," linebacker Korey Hall said. "It felt like we took some big steps tonight and everyone executed their jobs."

Clockwise, from top left: Jeff Carpenter (22) tries to get past a Spartan defender, Ian's show their connection in their first meeting, corner back Orlando Scandrick (16) pulls down SJSU receiver Rufus Skillern, Lee Marks (17) races past Christopher Vedder, former Boise State offensive back Olin McKenzie, and Marks (17) tries to avoid a Spartan defender on route to a 38-21 Boise State victory over San Jose State Saturday night at Bronco Stadium.
Jared Zabransky may finally be turning into the confident quarterback that led the Broncos to an undefeated regular season in 2004.

Zabransky was turnover-plagued during the first four games of the season. In those games, he threw four interceptions (all against Georgia in the first half) and fumbled the ball six times. In the last two games, Zabransky has hung his hat and those interceptions (his only blemish was dangled by right tackle Tadman Johnson).

"It's hard to think sometimes of all the games and the experience that you are really trying to build back in to recreate the experience, rather than just going out and having fun and carrying it over," BSU head coach DarrellHazle said. "I think he's getting back to that part of it and has been fun playing football and being able to operate like he can operate."

In the last two games, Zabransky has completed 10 of 16 passes for 228 yards. That is a completion percentage of 75 percent.

"The starting point is going to have to be Everybody. We had a couple new guys in there this year with (Quarterback) Keita and (Cox) Chris. It's the point of the season and we're not ready," Zabransky said.

One of those new guys is running back and returning punter T.L. Acree who has 351 yards returning kicks and is Zabransky's favorite receiver.

"We have confidence in Z, and know the rest of the receivers don't have to do much. The Broncos would eclipse that mark set by Jerard Clady and T.L. Acree in 2004 (947 yards)." Zabransky, who has been splitting time with Ryan Clady as a sophomore. Freshman Ryan Rabb and tight end Pete Cavender are also getting time.
