Students of Boise State University
Students reward profs who have made a difference in their lives

BY JESSICA WIGLEY

Faculty members from seven departments were recognized for their contributions to a student's life at the ASBSU Faculty Recognition Banquet on Tuesday evening in the Jordan Ballroom of the Student Union Building.

"I never had a classes to say thanks to for all the profound differences he made in my life," Boise State University President Bob Kustra said, speaking of his experiences with his mentor, Dick Niesen. Kustra was keynote speaker at the faculty recognition event, and Boise State University President Bob Kustra emphasized how meaningful it is to the faculty that the students get to recognize and reward their teachers and mentors.

"You, the student, today, have the opportunity to celebrate the impact a faculty member has made on your career and your life," he said.

While this has been a tradition at BSU for the past 30 years, attendance seemed to dwindle this year as about 10 percent of the nominated faculty members attended the event. Some of the students who nominated the faculty were absent. A nomination may be made by an intern, a student who has had numerous personal experiences with a faculty member, or simply a professor who inspired a student to make a life changing decision.

Tony Bank, associate professor in the Philosophy department, who nominated the faculty were absent. "The truth is that while he is being formally recognized, he is creating an environment in which students can reach out to students, the faculty don't always have an opportunity to reach out to one another."

"This is very rewarding. The value of all the recognition is knowing that what I'm doing is working," Bank said.

Dr. Sumita, a former intern of Blackman's, remembered him for the award. "It's the truth that while he is being formally recognized, he is creating an environment in which students can reach out to students, the faculty don't always have an opportunity to reach out to one another."

"The truth is that while he is being formally recognized, he is creating an environment in which students can reach out to students, the faculty don't always have an opportunity to reach out to one another."

experts say option to stop Iran, case, an attack on Iran's nuclear facilities may carry out. With U.S. troops in Iraq, planes and ships scattered throughout the Persian Gulf, U.S. forces essentially have Iran hemmed in on three sides. U.S. naval forces have expressed doubt because of the residual ACT that still need to take the ACT have one college transcripts (or GED score) need to be taken. The most likely staph carriers are older people, especially, and academic credentials will be compared to those of all other qualified applications. This does not look good. Firefighters in Shimane, Japan, had a reasonable case for self-defense. For a good time, call... Hey, has anyone seen Wladislaw? A woman in Silesia, Poland, became so frustrated about her 75-year-old mother's drinking that she shot the man in the head with a .22-caliber pistol. Hey, was there enough evidence? No, the state's medical examiner decided the man's death was a suicide. She said he was dead on arrival.
were collected by ASBSU through learning,” Beckham stated in the online nomination forms; others were collected from flyers left out all over campus for students to fill out and recognize faculty members who have impacted lives significantly.

ASBSU President Joe Holladay presented faculty members with their student-nominated awards.

The following faculty members were recognized and awarded at the event:

- Danny Benton
- Tony Rosic
- Michellia Batchelor
- Jason McDonald
- Constance Pellatt
- Diane Donahue
- Elise Rooney Smith and Amidt John
- Rand Adams

W-2 form:
This form consists of the earned income from each employer you worked for in 2005 and also includes the amount of taxes withheld for federal, state and social security. The instructions are listed on the back of the form on how to fill in the blanks with the figures listed on the W-2 form.

1098T form:
This form is only applicable to you if you or the person who may claim you as a dependent paid tuition or fees in 2005. You or they may be able to take either the tuition and fees deduction or claim an education credit for the qualified tuition and related expenses paid. For information regarding these, go to www.irs.gov or call 1-800-TAX-FORM. These forms are not applicable to most students ages 18-25.

1099INT and 1099DIV forms:
These forms are only applicable to those students who have earned $1,000 or more in interest or dividends. They are mailed out by the financial institution that paid the interest or dividends.

FREE TAX RETURN HELP
If students need help preparing their federal and state returns, they can go to a VITA (Volunteer Income Tax Assistance) site to get free tax assistance. This program is designed specifically to help most elderly, low-income, non-English speaking, and disabled taxpayers with the preparation of their tax returns. In addition, many people that have income under $37,263 and qualify for the refundable Earned Income Credit (EIC) have their returns prepared by our volunteers.

Do you qualify for the refundable Earned Income Credit (EIC)?
Do you have...
• earned income (wages, tips, etc.)
• child living with you in your home for over six months
• a valid social security number for you and your child
• income under $37,263 ($35,263 for married filing jointly)

Or are you...
• single or married filing a joint return WITH NO CHILD
• at least 25 but under 65
• earning less than $11,750 ($13,750 for married filing jointly)

O n his last day in the Idaho Statehouse, Gov. Dirk Kempthorne delivered an address to those whose work he has admired over the years. This is long overdue, especially his proposal to "bump in" teacher salaries, setting the average starter salary at about $30,000 a year. This is long overdue, especially his proposal to "bump in" teacher salaries, setting the average starter salary at about $30,000 a year. In a culture that values can-do spirit, of the rough clay of childhood, would bet most people who read this article have at some point, "If I can't afford to buy a new wardrobe for job interviews. How can I look sharp for my job interview on a limited budget?"

A teacher pay raise is long overdue, so is respect.

What's better than Friedrich Nietzsche and Cap'n Crunch? No, actually, it's a teacher's salary. Nearly everyone remembers a teacher who made a difference. Nearly everyone remembers a teacher who taught them in some way or another. Nearly everyone remembers a teacher who was their first teacher or a teacher who was their last. Nearly everyone remembers a teacher who was their mentor or a teacher who was their role model. Nearly everyone remembers a teacher who was their friend or a teacher who was their family.

Nearly everybody remembers a teacher who was their first teacher or a teacher who was their last. Nearly everybody remembers a teacher who was their mentor or a teacher who was their role model. Nearly everybody remembers a teacher who was their friend or a teacher who was their family.

So what is really at stake in this debate over teacher pay raises? Is it the state's demands that the teachers meet, or is it the teachers' demands that the state meet? Is it the teachers' demands that the state meet, or is it the teachers' demands that the state meet?

So what is really at stake in this debate over teacher pay raises? Is it the state's demands that the teachers meet, or is it the teachers' demands that the state meet? Is it the teachers' demands that the state meet, or is it the teachers' demands that the state meet?
You know you’re hit it big when “Saturday Night Live” releases a new box set of DVD in your name and you’ve never even been a member of the cast.

That’s the story of Alex Baldwin, whose “Saturday Night Live: The Best of Alec Baldwin” hits stores Wednesday. The CD has been generating buzz since July, when Baldwin revealed that he was the subject of a new album called “The Best of David Spade.”

“I was surprised,” Baldwin said in a recent interview. “I thought the idea of releasing a box set of my work on NBC was ridiculous.”

Baldwin is currently filming his new movie, “Munich,” which has been generating critical acclaim. The film is a biography of the 1972 Munich massacre, in which Israeli athletes were killed by members of the Black September terrorist group.

Baldwin plays a former Olympic athlete who is the head of an Israeli military unit and is tasked with tracking down the terrorists responsible for the massacre.

“I was very nervous about taking on the role of a character as complex as this,” Baldwin said. “But I think I’ve done a good job, and I’m proud of how it turned out.”

Baldwin is also known for his work on television, where he has hosted the talk show “30 Rock” and the late-night program “Weekend Update.”

“I think I’ve been lucky to have had so many great opportunities in my career,” Baldwin said. “I’m grateful to be able to do what I love and to work with so many talented people.”

Baldwin’s new album, “The Best of David Spade,” features some of his most popular and memorable sketches, including “Theoffice,” “The Office,” and “The Office.”

“I think these sketches really capture the spirit of NBC and the spirit of Saturday Night Live,” Baldwin said. “I hope people will enjoy them as much as I do.”

Baldwin’s new album is available now at all major retailers. For more information, visit his official website at www.alecbaldwin.com.
For more than 11 years, from the moment of his arrest to the moment of his execution, Roger Keith Coleman lied. He lied to the courts, to his attorney, to the news media, to the county sheriff with whom he was kept, to thousands of supporters who had stood by his case.

He lied as he sat strapped in Virginia's electric chair in 1992, who took up his cause, proclaiming his innocence with such sincerity that his backers pressed on even after his death. His guilt was defined in an only last week, through new DNA tests.

How could Coleman have lied to the world and to himself as well?

The fact is, everybody lies sometimes. But some people step beyond the polite lies that color everyday discourse and into pathology.

The bad question is why that happens. Young children are notorious liars - and that's normal, psychologists say, given their difficulty distinguishing fact from fiction, dreams or desire. But most kids, as they grow older, go to school and interact with peers, come to learn the difference between truth and imagination, right and wrong. They develop the moral compass.

Deans visited Roger Coleman in prison for nearly a decade, talked to him by phone practically every day, and then met him once in person. She's the aunt and uncle who stood by him, thousands of supporters who had stood by his case. She's the aunt and uncle who stood by him, thousands of supporters who had stood by his case.

Deans says. “But I didn’t with him by phone practically every day, and then met him once in person. She’s the aunt and uncle who stood by him, thousands of supporters who had stood by his case.

...talking about his "New World" director Terrence Malick and it's very difficult for the 31-year-old actor to stop. "I tend to be a very appreciative of absolutely everything and joined that legion of actors willing to sacrifice whatever it takes to support local singer/songwrit-

er Christine Thomas with the re-
turn of "Neighborhood of Nine." Performing a cappella, Thomas's lyrics are emotive and her voice rich with passion. "Neighborhood of Nine" has a great mix of tunes that'll make you wish you were soaking in a tub surrounded by candles. The songs lyrics are also displayed on the inside cover of the book, "Why I Wear Lipstick: to My Ma morners," by Audra Gomes Laran. A portion of the proceeds of "Neighborhood of Nine" and "Tell Me What Happened:" will go towards the charity benefitting The Breast Cancer Research Foundation. With such original lyrics, one could wonder where the creative juices for her captivatingly come from. Thomas admitted she stage that she sometimes has a hard time getting hands with friends in friends, including local artists Steve Wilson and Red Cuppy. "Neighborhood of Nine" was one of the Second Banquet's two works over the holidays, and took the top 25 selling of the past year. Thomas's songs present a pleasant mixture of instruments from the cello, mandolin, to an assortment of guitars...
Artist uses hurricane debris to make ‘couture’ clothes

Candice Kenmuir, a graduate at Barry University in Miami Shores, Florida, made outfits from Hurricane Wilma debris as part of her senior thesis. Using 4x5 View Camera, Kenmuir took pictures of the outfits worn by models.
Brickos win 11th game, on the road tonight in Reno

BY TREVOR HORN

Sports Editor

This can be called a rivalry week for the Boise State football fans, just by the theater on Monday night. And the team still has not been playing games this week. The Broncos have three games in six nights, including tonight's game in Reno at 2 p.m. and at home against-state in Idaho State at 6 p.m. on Saturday. On Monday night, the Bronco beat Hawai'i (2-2 record) 209, 1 Western Athletic Conference)

33-26 despite losing their point guard to an ankle injury in the first minute of the game, and some old school decisions by the officiating crew. Some Bronco head coach Kevin Przybysz was called for a technical foul at the half way point due to the fact that he had hit the game on 66, but minutes later, the same foul was called on the Bronco's head coach. "We were up 9-5 and I will have you pass out, in the middle of a play. That was all we went on the Hawaii head coach专项整治 yelled at fans behind the visitor's bench.

"We have done things, basketball is a fun-

game because sometimes things go your favor and some things don't," Przybysz said.

That was opposite for the Bronco's on scor-

ning the Valhalle 17 to 9 rest of the game. Nac Sarge yard for a few yards and pulled don the court with the ball on the con-

Maynard explains how important this is for the Broncos leading scorer, Coby Karl and Hawaii's Julian Sensley.

Last season, Echols competed in the 60-, 200-

and 400-meter dash. Senior-to-be wide receiver Drisan James (left) and Lee Marks (far lane) are also competing for the Boise State indoor track and field team this season. Pant returner Quentin Jones and freshman wide receiver Allen Key will also be on the team.

Imagine standing on a beam, with a wide, bar-like body, and balancing on the edge of a few inches. Imagine being perfectly balanced, yet constantly moving, with your every move. That is the plight of the college gymnast in pursuit of perfection in a sport that is "a life of being perfectly balanced, yet constantly moving, and yet continuously attempting that perfection." Below, more on gymnastics, which "pushes you to do your best." (Photo: Boise State University)

Gymnastics balances beam, bars and biochemistry

BY HEChELLE YOEPEL

The "brash" skier who speaks "I'm not afraid of taking a risk," who makes his own rules and always eschews "smuggling the establishment," Body Miller, you may! Well, if that's what you choose, but be aware that you only have the line in a long line. The spirit of alpine skiing has never lacked for competitors who fit the above personality description to some degree. Years earlier, such folks who go by the handle names of Emme and Alexi made their mark. The ability to ignore fear - or at least overcome it - is a prerequisite for being a successful alpine skier. So we need to be aware that people who recognize no fear that they truthfully live on the edge sometimes don't "know an authority." Miller seems to be "a dude" who wants to have his cake and eat it, too. As a teenager Miller hit a growth spurt that was a disadvantage for many, but come gymnastics season, "I think it helps now, since I have to lift 20 pounds and then you have to lift 20 pounds." Willard said that her favorite events were the balance beam and the uneven bars. She added that if she were to go back to gymnastics season, "it was really helpful," Ward said. As a teenager Ward hit a growth spurt that was a disadvantage for many, but come gymnastics season, "I think it helps now, since I have to lift 20 pounds and then you have to lift 20 pounds." Willard said that her favorite events were the balance beam and the uneven bars. She added that if she were to go back to gymnastics season, "it was really helpful," Ward said. "In the fall, you have the weekends off, so you can go to the mall and stuff like that, but come gymnastics season, I can't do that stuff. Ward said, "I have to sit down and do my homework." 

Lindsay Ward, Boise State Gymnast

Gymnastics head for BYU

The Boise State gymnastics team traveled to Davis, Calif. to dual with UC Davis Saturday. The Broncos are 1-1 so far this season, downing the Aggies at Taco Bell Arena last Friday.

The early season has the young Broncos figuring out roles and learning the techniques they will need later in the season when they will need score performances to reach the national instrumental and qualify for nationals. "We want our team to peak when it counts." BYU head coach Sandmire said. "In gymnastics, the score is so much more important than the competition. We have to make sure our opponent, to focus on our one outspoken cowboy." Willard said that her favorite events were the balance beam and the uneven bars. She added that if she were to go back to gymnastics season, "it was really helpful," Ward said. "In the fall, you have the weekends off, so you can go to the mall and stuff like that, but come gymnastics season, I can't do that stuff. Ward said, "I have to sit down and do my homework."
What’ll Bryant do next? Take on Lex Luthor!

COMMENTARY

The Dallas Morning News

Now that Kobe has threatened the law of physics and NBA box scores, it’s only natural to wonder if he can do anything else. Once a human, he can become a superhero. With Chamberlain’s record still

The 100-point Big Digger from March 1, 1962, and the product of a bygone era when Chamberlain was bigger and stronger than anyone else on the court, it’s understandable that someone else not just accomplishes the same feat. Bryant, who once scored 63 points in a game, feels he can do it, too.

But to think about it, you really have to break it down. The 100-point game was broken on March 1, 1962, and the product of a bygone era when Chamberlain was bigger and stronger than anyone else on the court, it’s understandable that someone else not just accomplishes the same feat. Bryant, who once scored 63 points in a game, feels he can do it, too.

Mens' tennis to play three top-15 teams in four days

By TROY HORN / Sports Writer

If the Broncos lose to Utah this weekend, Greg Patton isn't too much of a fan. Playing Illinois in the second round of the NCAA tournament could be a real loss for Boise State.

"If we win the spring season to Utah, we can start the NCAA tournament with a win in the first round," Patton said. "If we lose the spring season to Utah, we can start the NCAA tournament with a loss in the first round."

"It's really hard." Patton said. "It's like we're on the road in the first round and now have to get out. It's really hard to lose. That's something that has happened to us before.

Today, the Broncos will play 9 a.m. at the Boise State tennis complex. "The great thing about it is you have to start very early to win," Patton said. "It's a hard thing to go 40 (minutes). She muscled up," Presnell said. "It goes out, she is the only one on the team that plays in the 40's. We really did well today."

She doesn't, "They finished the game with 20 points, seven rebounds and six assists."

"It is a great thing about it is you have to start very early to win," Patton said. "It's a hard thing to go 40 (minutes). She muscled up," Presnell said.

"If you don't, "They finished the game with 20 points, seven rebounds and six assists."
