ASBSU removes Sawmiller, Wilson threatens to resign

BY BARRY FRANKLIN

When Boise State's Associated Students of Boise State University met on Thursday, September 21, they removed Jonathan Sawmiller, a senior criminal justice major, from the Senate. Sawmiller was removed after a discussion about his academic performance and the criteria that ASBSU must follow to maintain its status as a registered student organization. The vote to remove Sawmiller was 10-2, with the vote of the president and vice president being the deciding votes. The removal of Sawmiller is the latest in a series of disputes between the Senate and the university administration over the registration status of student organizations at Boise State.

The Senate's decision to remove Sawmiller comes after the Associated Students of Boise State University (ASBSU) met on Thursday, September 21, to discuss the criteria for maintaining the registration status of student organizations. The Senate was faced with the decision to remove Jonathan Sawmiller, a senior criminal justice major, from the Senate after he was found to be in violation of the university's criteria for maintaining the registration status of student organizations.

According to the Senate's constitution, student organizations must meet certain academic criteria to maintain their registration status. These criteria include maintaining a minimum grade point average of 2.5, paying required fees, and meeting the minimum requirements for extracurricular activities.

Sawmiller, who was a member of the Senate and a leader in the university's student government, was found to be in violation of the academic criteria. The Senate voted 10-2 to remove Sawmiller, with the vote of the president and vice president being the deciding votes.

The Senate's decision to remove Sawmiller is the latest in a series of disputes between the Senate and the university administration over the registration status of student organizations at Boise State. The Senate has been facing challenges in maintaining its registration status due to the university's strict criteria for student organizations.

As the Senate deliberates on the removal of Sawmiller, the university administration is expected to respond with a statement on the matter. The university administration has previously expressed its support for maintaining the registration status of student organizations at Boise State.

In conclusion, the Senate's decision to remove Jonathan Sawmiller from the Senate is a significant development in the ongoing dispute between the Senate and the university administration over the registration status of student organizations at Boise State. The decision is expected to have a significant impact on the university's student government and the registration status of student organizations at Boise State.

Medicinal and religious groups on the Boise State campus agree that the Federal Drug Administration’s approval of making the Plan B emergency contraceptive drug available over-the-counter is positive. They do not agree on the wider implications of the approval.

According to Wilson, Associate Director of Student Activities Mike Esposito and Business Manager Al Robison have met with Sawmiller during his deployment. Sawmiller’s unjust termination. Under article one, section three of the ASBSU constitution all ASBSU senators must be full fee paying students (enrolled in at least eight credits). In the same section and under the same article in the ASBSU constitution senators are required to maintain a cumulative grade point average of 2.5 on a 4.0 grading scale.
A problem with an oxygen regulator caused a fast-
ning situation Monday, Sept. 11 on the space shuttle Atlantis, which
as an alarm went off. Russian cosmonaut Pavel
played down the concerns. "An un-
planned event had occurred," the
spokesman for Roscosmos said.
Oxygen levels aboard the station
had been switched off and the situ-
ation was under control, and the
crew had turned off the system
before the U.S. space shuttle
Atlantis undocked from the station.
"Roscosmos informed Russian
Commander Fyodor
Vorontsov and American Jeffrey
Williams about the oxygen
levels, Vorontsov said. Voron-
sov told them that the levels had
been switched off and the situ-
ation was under control. They
decided to turn off the system,
then switched it back on.

Kustra discusses ‘Mountains Beyond Mountains’ with students

BY CASSIE GUTIERREZ
News Writer

President Bob Kustra spoke to up to 30 students Monday, saying he was reading the book “Mountains Beyond Mountains” by Tracy Kidder in Donald Hall.

“This year was the start of the First-Year Reading Program at Boise State, which means our university and increasing our students and our community in every way across the region.”

The First-Year Reading Program’s goal is to encourage students to read and engage with the book while they were still in high school and to talk about their own high school experiences of their own reading habits.

President Wyatt Parke in- terviewed Parke in Donald Hall.

“We think it’s really important to students in social with a wide diversity of reading habits and we hope that we have a good discussion about it. I think those books are great for the purpose of the learning and the knowledge that we are going to before class contrast.

I’d like to help students develop a habit of reading and I think this is one of the best ways of learning and the knowledge that we are going to before class contrast.

I’d like to help students develop a habit of reading and I think this is one of the best ways of learning and the knowledge that we are going to before class contrast.

Globalization only helps the top-hat tier

Michael Mclasaki

Since the most recent round of trade talks in 1995, the Group of Ten nations has been held up as the requirement, and they should be.

At another meeting such as the G8 or not even going for new rules; they just want to be able to say that they already have what they were supposed to do.

Others, on the rich countries are ignoring the little ones. Global trade is a sticky subject when the World Trade Organization held a summit in Seattle last December. On the street, ships were stranded and protesters were gassed by the police. As at every meeting of the G8, promises are broken.

Apparently, there must be something wrong with the global trade system if countries can't afford a change in the status quo.

When the United States joined the WTO and signed on to NAFTA (North American Free Trade Agreement), it was hard to see what was going on.

No one knew that a large portion of the rich countries market would be the WTO.

Now we have empty factories from coast to coast, and an average

$500 billion annual trade imbalance with China.

It's all about newcomers taking advantage of cheap labor, enabling them to keep up with global competition.

And that is the race for the lowest bidder.

It really is a small world after all.

By Michael McIasaki

A+ students don't get any love

BY JON BILLS
Guest Opinion

There are eight different grade systems currently being employed by colleges and universities throughout the country. Six of these systems grant varying quality points based on a plus/minus scale. The two-fold purpose of a plus/minus system is to give students a finer test with which to evaluate academic performance, while also decreasing the opportunity for human discrimination (discriminated between our classrooms). In addition, the particular grade-reporting system that a school chooses is implementing fails to fulfill its purpose.

Professor David Farber said, "The system of grading is completely flawed. It is too easy to授予 students with a grade of A minus. The grade is not adequate for a student who is not perfect but needs a bit of a quality point. Spoken like a true phi beta kappan, ain't it?"

The more diligent students would earn as 'A' which has no increased quality points assign-

When I was 20 years old, I was in the Army ROTC program here at Idaho State University. I was never quite sure whether or not I would make it through the program, but I did make it. I was very proud of my service, but I was also very proud of the fact that I was able to make it through.

In terms of my career, I have always been a fighter. I have always been someone who was willing to put in the work to get what I wanted. I was always someone who was willing to take risks. I was always someone who was willing to fight for what I wanted.

I always knew that I wanted to be a fighter. I always knew that I wanted to be someone who was willing to put in the work to get what I wanted. I always knew that I wanted to be someone who was willing to take risks. I always knew that I wanted to be someone who was willing to fight for what I wanted.

I always knew that I wanted to be a fighter. I always knew that I wanted to be someone who was willing to put in the work to get what I wanted. I always knew that I wanted to be someone who was willing to take risks. I always knew that I wanted to be someone who was willing to fight for what I wanted.

Thrilling, thundering punk band The Bronx will be ripping through Boise's Easy Concert House this Thursday, Sept. 21.

The foursome - Matt Caughthran (vocals), John E. Ford (guitar), Gilby Clark of Guns-N-Roses, is a trio of anti-establishment, their first album, titled Suicide Silence, a rock tour de force with punk overtones. The band formed when bassist James Tweedy, guitarist Matt Caughthran, drummer Vik (drums) - call themselves The Bronx, but they actually originated on the opposite coast in Los Angeles in 2003. Their sound mixes elements of 70's garage rock, punk, and metal to produce something new and unique.

Their first album, produced by Gilby Clark of Guns-N-Roses, is a 30 minute-long epic of sonic, intense sound landscapes. In fact, the band's recording process consisted of a do-it-yourself ethic. "Why would you want to make an album that doesn't sound like your head?" exclaimed Ford. "It wasn't that we were weird if we did that, because we're not that kind. Why would you record anything that you couldn't play live?"

Although their attitude seems at first anachronistic, their first domino attracted some media attention from the LA entertainment industry; however, their desire to remain indie was strong. After signing with Island Def Jam, they toured an enrolling their full-length debut and promoting it as the road for two-and-a-half years. Their second self-titled effort marked their major label debut for Island in 2006. Critics didn't have the same enthusiasm for their second album, claiming the passion and range seemed forced, and that the overall sound was directionless. Yet others praise the group as their air-right performances.

The album moves out strong with songs like "Small Streets" and "Dirty Future." Their lyrics are explicit with disgust for cultural norms and the misrepresentations of society.

"Welcome you in your shaky feathertouching future (and on alice in chains was accepted and nothing worked) (the current phenomenon of heroin, narcotics, terrible transport and their owners have already been)

The Bronx hasn't been to Boise since 2000, so if anyone's seeing a reme- ning some fencing margin. Rand on Boise's Thursday, the band promises to be a soaking, raging event. Opening acts include hardcore metal bands: Mindless and punk band Covergence.

The Black Dahlia

October 19

By Phillip Wunch

This documentary follows the true life story of the woman who was the real-lifecrime of the century. The film is about a video game that turns deadly. It is based on the novel by David Johnston, a man who turned his life story into a Hollywood documentary. The film incorporates all the wild action of the game and shows us what really happened.

The Devil and Daniel Johnston

This documentary follows the life of a famous artist who is battling severe depression while trying to stay focused on the things he loves: painting, music and writing.

Hard Candy

This film is about Internet predators. It is about the dangers of the Internet and how easy it can be for people to get caught up in it.

Stay Alive

This film is about Internet safety. It is about the dangers of the Internet and how easy it can be for people to get caught up in it.

The Boise State Soccer Club is looking to capture some titles this fall. The club, founded by Heather Chisholm, is looking to build on its past success in the next season. The club was officially founded four years ago, but has been in and off ever since. Team members are excited about what the club can achieve in the future.

The club has a number of goals. One of the main objectives is to increase the number of students interested in soccer. The team will be offering competitive play in the next semester. This is the first time the club has offered competitive play in the past two years. The club is also looking to expand its reach and attract more students.

The club’s president, Antonio Rojas, is looking forward to the upcoming season. "We want to give those students the opportunity to come to our club and compete," Rojas said. "We want to build a program that is equipped to attract more players and keep our players motivated." The club has a strong team this season, and Rojas is confident that they will be successful.

The club plans to compete in the National Intramural-Recreational Sport Club Championship Tournament this fall. The tournament is a great opportunity for the club to showcase its talent and attract more members. The club has a strong team this season, and Rojas is confident that they will be successful.

Duquesne player: 'I still can’t believe what happened’

BY MICHELLE KAUFMAN
McClatchy Newspapers

Student Baldonado left his family in Bogota, Colombia, three years ago in search of a better and safer life in the United States.

Everything was going according to plan for the AAU basketball player until 2:15 a.m. Sunday, when he and four teammates were shot as they left a campus party at Duquesne University in Pittsburgh.

Baldonado, a junior college All-American at Miami Dade College the past two seasons, was one of five players sprayed by bullets near the tranquil, Catholic university.

Their dormitory on the campus of the University of Miami was surrounded by gunfire.

A bullet entered his left elbow, went into his side, grazed his fifth rib and remained lodged in his arm, which was bleeding heavily.

He was upgraded to fair condition after surgery to repair a severed artery in his arm and is scheduled to have the bullet removed from his arm this morning.

“It’s my, r It’s my, r P s,” his mother, Santarita Martinez Baldonado, in Colombia to break the news. He said his hands were shaking as he placed the call.

“ar in the United States.”

In all the years I’ve been helping kids, I’ve never had to do anything so hard as making that call,”

Baldonado, in Colombia to break the news.

One of the teammates who jumped in the fray helped save Baldonado’s life by pulling off his belt and making a tourniquet for his arm, which was bleeding heavily.

“ar his arm. He was bleeding heavily. We weren’t even doing anything bad, and all of a sudden, we were all diving for the ground.”

According to Baldonado and campus authorities, the play-

ers had just left a student union dance, and the gunman, who was not a student, had become disrup-

tive. When a girl he was with began chatting with one of the players, he followed a few players as they walked a few little steps, so that the gunman remained in the loose Monday morning.

One of the teammates who jumped in the fray helped save Baldonado’s life by pulling off his belt and making a tourniquet for his arm, which was bleeding heavily.

“ar is a kid who made a lot of personal sacrifices to chase his dream: ‘I still can’t believe what happened. It was very scary. Nobody knew what we were up to. We weren’t even doing anything bad, and all of a sudden, we were all diving for the ground.”

"Earn national respect." This motivating goal has become a common theme for the Boise State football program since Head Coach Chris Petersen took over as offensive coordinator in 2001.

On Sunday, Sept. 16, Coach Petersen's Broncos garnered that national respect, finding their way into the Associated Press and College Coaches top 25 polls for the fifth consecutive season.

Although 2006 is Petersen's first year in charge of the program, it is clear that the team's progress toward becoming a national power hasn't skipped a beat. After a 3-0 start to the year, Boise State has gotten one monkey off its back, but now faces new challenges to prove it deserves to be in the spotlight.

"I think the bulls-eye is always big now here at Boise State," Petersen said. "I think everyone kind of knows what they're gonna get; we're gonna fight them hard, with your position as a Doctor of Chiropractic, contact Logan University today!

as a very dangerous University of Hawaii team visits Boise Saturday night.

"Everyone always thinks you have to stop the pass (with Hawaii)," Petersen said. "Which you do, but first and foremost you have to stop the run. We've done very well in the past stopping the run game, and I think you have to make sure it's totally one-dimensional to have a chance."

Hawaii came into the 2006 season with little expectations from the rest of the country. The Warriors were voted the No. 4 team in the Western Athletic Conference Preseason Coaches' Poll.

However, with two former NFL coaches running the program and top-level quarterback Colt Brennan, Hawaii comes to Boise as one of the scariest teams BSU has to face this season.

"I wish I was playing against a couple guys that don't know football," Petersen said. "That would crank me up. (Brennan) is one of those guys who has a good feel for the game. His instincts are very good. For me, that's one of those commodities that you can't estimate."

The match-up against Hawaii will be the first WAC game of the season for BSU.

With five consecutive conference championships on the line and the task of proving they deserve a top 25 ranking, the pressure to succeed is apparent for the Broncos.

"I think the competition level that we're starting to play is getting tougher, but I don't think that distracts us. I mean, we've got guys that are fairly mature, and it's something we talked about way back in the summertime. Not getting caught up in rankings. Our record right now is 0-0. It really wouldn't matter what our true record is. We just have to go out each week and play the best we can."

The University of Hawaii's traditional air-it-out offense has made one thing clear early on in the 2006 season: they're going to keep on airing it out. The Warrior offense has put up big numbers during junior quarterback Colt Brennan's tenure as the team's signal caller and show no signs of slowing down. Brennan led the nation in passing last season with 4,301 yards and completed an impressive 68 percent of his attempts. Through his first two contests this year, Brennan has thrown for 350 and 296 yards with four touchdowns and a completion percentage of just over 68 percent.

In an opening game loss to Alabama, Brennan completed 30 of 44 passes against a stingy Alabama defense and threw two for touchdowns.

Sophomore wide receivers Davone Bess (5-10, 167) and Ryan Grice-Mullen (5-10, 174) have been Brennan's main targets early on this year, which is nothing new to Warrior fans. As freshmen last season, Bess and Grice-Mullen both had more than 1,000 yards receiving, more than 80 catches and more than ten touchdown grabs apiece.

Early this season, those two have continued to be electrifying. Bess was named to the freshman All-American team, a First Team All-WAC selection and the WAC Freshman Player of the Year in 2005. He has had 18 catches for 198 yards and a touchdown through two games this year. Grice-Mullen has grabbed 13 passes for 220 yards and two touchdowns thus far.

It doesn't end there for the Warrior passing attack. Besides Bess and Grice-Mullen, Hawaii returns its third and fourth leading receivers from last year's team as well: senior Ross Dickerson (5-10, 185) who had 51 catches for 725 yards and four touchdowns last year and Senior Chad Mock (5-11, 171). Mock only played in eight games last year, but still managed to finish with 42 receptions for 502 yards and a touchdown. Dickerson has seven catches for 76 yards this year while Mock has two catches for 17 yards.

The Warriors also returned their leading rusher from 2005, Nate Ilaoa (5-9, 248). Ilaoa adds that needed extra dimension to the Hawaii offense. Ilaoa ran for 643 yards and piled up six touchdowns last season as a junior. Interestingly enough, he averaged more than 7.5 yards-per-carry and also caught 36 passes for 274 yards and a touchdown last year.

The Warrior defense has been among the nation's most prominent over the past decade and appears to be continuing that trend this year.

Coach June Jones, who is in his eighth season as the play-caller for Hawaii, knows Boise State's defense will provide a tough match-up.

"They just play football. They hustle. They're very, very well coached," Jones said. "They do what they're told to do, and they play extremely hard. Their coaches obviously do a great job with their players."

To cap off their offensive attack, the Warriors will return a group of offensive linemen that have experience and talent. Three of the five starters were All-WAC players in 2005.

Defensively, the Warriors play a 3-4 defense, allowing their four sophomore linebackers to run and make plays. Inside linebacker Solomon Elimimian (6-0, 224) led the team in tackles last season as a freshman and will be the centerpiece of their line-backing corps this year. The Warrior secondary may be the most suspect group on the entire roster. It only returns one starter - Junior Brad Kalilimoku (5-10, 204). Kalilimoku had 71 tackles last season - the third highest mark on the 2005 team. Surrounding him will be two untested cornerbacks at the division-one level: junior college transfers C.J. Hawthorne (5-11, 165) and junior A.J. Martinez (5-10, 177). Those two will surely be put to the test this weekend as they will match up with an incredibly experienced group of Boise State receivers.

Up front, the Warriors boast three upper-classmen who all have size. Defensive ends Melila Purcell (6-5, 280) and Ikaika Alama-Francis (6-5, 280) are both seniors and both have plenty of game experience. Alama-Francis finished with five sacks last season (the second-highest mark on the team) and Purcell has had more than ten sacks in his collegiate career. Unquestionably, the Warriors' defensive success will largely depend upon the level of play that the young linebackers and experienced lineman provide.

Sophomore kicker Dan Kelly has been consistent during his short time at Hawaii. He does not possess an overly-powerful leg, but connected on 10 of 15 field goal attempts last season with a long of 46 and converted 42 out of 45 extra points last season. Kelly has not missed a single kick in 2006.

The Warriors come into Boise with a 1-1 record. A tough 25-17 loss at Alabama and most recently a convincing 42-13 victory over UNLV have given Warrior fans reason to believe that success in 2006 is quite attainable.
WAC Play Up Tour stops in Boise

COURTESY WESTERN ATHLETIC CONFERENCE

Alongside the WAC staff will be Bronco great Bart Hendricks. Hendricks will be signing autographs and meeting Bronco fans. Also joining the WAC will be radio stations KBOI and KKGL.

Fans can come by and register to win a helmet signed by Head Coach Chris Petersen. The WAC will select a winner, who will be announced during the game and become registered for a chance to win a trip for two to the New Mexico Bowl.

After each of the nine tour stops, a winner will be selected from that pool and will receive a trip for two to Albuquerque to cheer on the WAC against the Mountain West Conference on December 23. WAC affiliates will also be handing out WAC tattoos, t-shirts and footballs.

If you are unable to make it in time to get a shirt, you can order one online at wacstore.com.

For more information about when and where the WAC tour will be, please visit their website and click on the Play Up Tour logo.

Boise State University cornerback Quinton Jones and punter Kyle Stringer were among those named as WAC Players of the Week after the team’s win at Wyoming on Sept. 16.

Jones, a senior from Cerritos, Calif. (Las Alamitos HS), had one solo tackle in the 17-10 win at Wyoming, but also picked off a pass and returned it 61 yards for a touchdown to give Boise State a 17-3 lead in the second quarter. The score proved to be the winning margin of victory for the Broncos.

Stringer, a senior from Humble, Texas (Humble HS), averaged a school-record 50.1 yards-per-punt during Boise State’s win at Wyoming. He punted seven times for 351 yards with a long of 61 yards.

His efforts enabled Boise State to win the field position battle in the defensive struggle between the two teams. Stringer is now third in the nation in punting with an average of 48.9 yards-per-punt.

Others nominated on offense: sophomore running back Ian Johnson, Boise State; junior running back Dwayne Wright, Fresno State; senior running back Patrick Jackson, Louisiana Tech; senior running back Jeff Rowe, Nevada and sophomore running back Jeremiah Williams, New Mexico State.

Also nominated on defense: senior strong safety Josh Sherley, Fresno State; senior linebacker Brad Kalilimoku, Hawaii; senior corner- back Stanley Franks, Idaho; senior safety Mark Dillard, Louisiana Tech; senior defensive end Charles Wilson, Nevada and junior defensive back Alex Bernard, New Mexico State.

Sophomore kicker Tino Amancio from Idaho was nominated for special teams.

Hawaii running back Nate Ilaoa, Boise State cornerba Quinton Jones and punter Kyle Stringer were named the Western Athletic Conference offensive, defensive and special teams Players of the Week respectively.

Ilaoa, a senior from Stafford, Va. (North Stafford HS), had nine carries for 104 yards and scored two touchdowns in Hawaii’s 42-13 win over UNLV. He averaged 11.6 yards-per-carry and scored on runs of eight and seven yards.

Ilaoa also caught three passes for 32 yards. It was the second 100-yard rushing game for a Warrior back in the last 23 contests.
Pac-10 suspends officials

BY BRIAN DAVIS
The Dallas Morning News

Pacific-10 Commissioner Tom Hansen issued a one-week suspension for Gordon Riese and Roger Judd, who were the officials in the replay booth for Saturday's Oklahoma-Oregon game. Hansen also apologized Monday to Oklahoma officials for two blown calls that resulted in the Ducks' 34-33 win in Eugene. However, that wasn't enough for the Sooners.

"You discern whether a one-game suspension is appropriate for those individuals," Oklahoma Coach Bob Stoops said. "That's not for me to decide what's appropriate. But I think it's fair to say a one-game suspension, compared to the way our season now is altered - I don't know if that fits the situation."

In a statement, Hansen said an Oregon player illegally touched an onside kick inside of 10 yards with 1:06 remaining. Oregon's Allen Patrick also recovered the loose ball.

Yet Riese reviewed the play and upheld the call on the field that the Ducks recovered it at their own 48-yard line.

The ball should have been awarded to Oklahoma, Hansen said. The Sooners, who were leading by six points at the time, could have run out the clock.

Riese also decided there was not indisputable video evidence that an Oklahoma defensive end tipped a pass when Darien Williams was flagged for pass interference. Oregon was awarded a first down at Oklahoma's 23-yard line and scored the go-ahead touchdown on the next play with 46 seconds remaining.

Pac-10 Spokesman Jim Muldoon said Riese and Judd were both former game officials. Riese was moved to the replay booth last season.

Riese could not be reached by The Dallas Morning News. He told The Associated Press, "I feel so bad I missed that call, it's driving me crazy."

Oklahoma President David Boren went to the extreme Monday. He wrote a letter to Big 12 Commissioner Kevin Weiberg saying the replay official should be suspended for the season and that the game should be recorded as neither a win nor loss for either team.

"It is truly sad and deeply disappointing that members of our football team should be deprived of the outcome of the game that they deserved because of an inexcusable breakdown in officiating," Boren said.
