The need for speed... and safety

An officer looks at a Porsche destroyed in an auto accident. Practicing safe driving can prevent serious auto accidents, injuries and fatalities.

BY MARTEE ORTIZ

Drivers want their cars to sound like sports cars, feel like sports cars while driving, look like sports cars and also drive like sports cars. However, state troopers say people need to act like responsible drivers.

"One could say he was coming around the bend driving slowly. With 4,000 deaths as results of motor vehicle accidents last year alone, people should ask themselves this question: "Can you not see that a car is coming?" Many accidents occur while cut-offs or cutting other drivers off. Leaving a few minutes earlier may help drivers arrive at their destinations on time.

Changing one's driving routine can add to personal safety. Simple things like making eye contact are a good eye-to-eye. For drivers, obeying traffic signals can prevent食堂 sleeping and police officers making more traffic stops.

Buckle up. For some, seatbelts are seen as a requirement, but for others, seatbelts are a luxury. This law means a police officer

Strange odor on Cesar Chavez Lane causes subsequent investigation

BY ARBITER STAFF

During regular safety checks around Fairview Circle, an unusual odor was detected on a Thursday, Oct. 19. Boise Fire officials brought out the head of the first department and Boise State staff near Cesar Chavez Lane in case of an explosion.

With a fire alarm in the Boise State Health, Wellness and Counseling Services office, students may call 429-4189 for an appointment to receive the vaccines at other times. For more information: 800-258-4268, Boise State, 1460 University Blvd., Boise, Idaho 83725.

POPULATIONS OF IDAHO CITIES INCREASE WITH MIXED REVIEWS FROM RESIDENTS

BY CEAN SIGEL

Idaho is becoming increasingly urban. The state as a whole is growing rapidly. Idaho's population has increased by 235,000 people from 2000 to 2008. More than twice the number of the United States as a whole. However, this growth has not been evenly distributed to all cities.

The rights and powers of cities Cites in Idaho have two different options in zoning to regard to their form of government: the mayor-council or the council-manager form. The mayor-council system also known as a "strong mayor sys-

Idaho: A state where we need to change the way we operate. The future needs to be different. The future needs to be a larger city mentality." Dale said in an interview with the Idaho Statesmen. "When we approach the future, we need to take a different approach, a future of specialization and collaboration will allow for a larger city mentality.. At the same time, the states continue to expand. In an ever-changing world, it is important for citizens to adapt to these chang-

High: Jackson Oscar worthy
It means every time you hear the word “Oscar” people think of Winslet. However, things are changing for Jackson this season with three Geminis.

The French Connection’s same target is “The Prestige.” Alongside Cate Blanchett, he brings a renewed energy into competitive dramatic thriller with the dream of winning Oscar.

While all his ensembles involving leather and fur have been noticed, it is acknowledged by the Academy of Motion Picture Arts and Sciences, this may just be Jackson’s year.

Not

Hotfilm, fifth time around
It means there are some movies that disappear and people don’t know about them. However, others make numbers because of the ends of their印尼, representing how many times they have to be seen.

The current specifications of requiring imaging vocal and sop with both scenes on all classics “Termite Park II,” “Indiana Jones I & II” and “Terminator 2” made this way of its movie. However, while some voters may become affected upon hearing this news, Chapman has to explain the question: “When will people stop thinking about new and no more?” I mean, how many times have we heard of the same old movies??

One thing to watch out for this weekend with the festivities is the prevalence of STDs.

While the girls in bunny suits are likely to be getting their skin out of gear consisting of underground animal ears, what else could guys keep themselves busy? Try going on the great night out on a weekday, this weekend is over to consist of multiple parties.

Enjoy Halloween this year, whether you’re almost naked, dancing or just your face full of tricks on the treat.

Get on the edge with ‘Jackass 2’

BY MATTHEW BOYLE
Culture Writer

\"Jackass 2\" can make anyone laugh. The movie is chock-full of attention homes with a little taste of everything: slapstick, some disgusting parts in the movie, however, funny and heartwarming to be in sympathy.

The movie opens with the "Jackass" crew running from bull, doing stunts in the amusement park. This entire film plays on the tradition of the Running of the Bulls in Spain, however, one of the scenes in the movie actually has the "Jackass" crew running from a bull.

Most of the movie consists of wildly unskilled stunts and risk-takers. Although, the movie was quite dry and devoid of intellectual thought, it brings a smile and a laugh to the viewers.

Some of the亮点s of the "Jackass" crew performed in the movie are you will see that you can’t help laughing. Some and Johnny Knoxville were the best of the film, but Bam Margera also goes commanding performances. Most of Bam’s stunts consisted of something gruesome. Although, there was no denying about the stunts, they were actually quite painful. Johnny Knoxville led the "Jackass" crew and completed many difficult stunts that the other group members wouldn’t do. He is the coolest member of the "Jackass" crew because he managed all kinds of the stunts.

In particular in some of the scenes. The rest of the crew work and Bam’s face makes him shine in one point in the middle of the film, which is the best part of the movie.

Extra movie credit: This movie is about a boy who goes to a school in order to get his driver’s licence. It is also a very educational movie for the people who don’t know anything about cars.

So you might want to bring a book to read, some homework or perhaps some book on how to drive instead of watching "Jackass" 2. Out of all the movies this week, "Jackass 2" is the one movie that can make anyone laugh.
A Johnson worth knowing

BY MEL TROUT
Culture Writer

Among the cadre of high school band directors, music teachers, and students, Holly Johnson stands out as a sophisticated and brilliant alternative to indie music fans. Holly Johnson is a musician and singer-songwriter who has been performing since a young age. She is also a prolific writer and political activist, known for her powerful lyrics and passionate performances.

Holly Johnson, known primarily through her underground music career, performs her alternative/indie music regularly at the monthly Vocal Power Show at Terrapin Station located downtown.

"The audience becomes my therapist," she said. "Free therapy!" The music that she played helped me understand my own emotions and experiences.

Holly also incorporates political and social messages into her music. Recently, she wrote a song about the exploitation of third-world workers and African slave trade due to the current conflict in Iraq. She did this by sharing her experiences in stopping illegal sweatshops and giving her listeners a sense of empathy.

"It's the idea of resonating and connecting," she said. This music

 has musical notes that she left to me in the letter I had just read. It's the idea of resonating and connecting, she said. This music

 has musical notes that she left to me in the letter I had just read. It's the idea of resonating and connecting, she said. This music

Holly is interested in performing at coffee shops and local talent shows, and is working on her musical career. She is also learning to walk.

Johnson's lyrics are adjusting to her emotions to be laid out for the audience. It's an indispensably healing experience for Johnson. "Basically, the audience becomes my therapist," she said. "Free therapy!"

The music that she played helped me understand my own emotions and experiences.

Holly also incorporates political and social messages into her music. Recently, she wrote a song about the exploitation of third-world workers and African slave trade due to the current conflict in Iraq. Cursive concert captivates audiences

MATTHEW BOYLE
Cultural Critic

The Cursive concert was at the Rexburg Last Wednesday night. The throngs gathered to see the band Chin Up Chin Up, The Thermals, and Cursive. Personally, I listened to hip-hop, rap, and something that is in the radio. This kind of music, numerically, is the reason that the crowd at the concert was more so than Chin Up Chin Up. I was amazed by the performances of all three bands. The wait was wellworth it.

At first, I thought the concert was going to bore me into eventual exhaustion. After the first opening band played, my opinion was debunked. Chin Up Chin Up gave a stunning performance of its music. After hearing it, I could hear the band for hours. The second performance by The Thermals was definitely mind blowing. From what I researched on their work, I could hear the band for hours. The Thermals' music was a little different than that of Chin Up Chin Up, but they still gave an awesome performance featuring any change of style concerning bands.

The final band to play that night was Cursive. It was insulation to the idea that the crowd at the concert was there. They also gave a stunning performance. The concert was definitely successful and I hope they perform in Boise, Idaho again.

Boise State has next weekend off before hosting Fresno State at home Wednesday Nov. 4 in the opening round of the Western Athletic Conference leading Broncos also got some help elsewhere around Conference.

Not only did Boise State beat The University of Oregon, The Broncos jumped ahead of all other teams in the Mountain West Conference. The Broncos dominated the Vandals 42-7, scoring on their first three drives of the game.

Johnson carried the ball three times and just didn't get him the ball that he deserved. But Johnson's second-half performance was his best ever, as he finished with 61 yards on 11 carries, including a run of 28 yards. That one run made up nearly half of his total heading into the break. Regarded as Boise State's first Offensive back, Johnson is a tough running back with good vision and good speed. He also has a good amount of experience, having played three years at the University of Colorado.

Johnson's big game leads Broncos past Vandals

Boise State defeated Idaho on Saturday, winning its eighth consecutive win over the Vandals.

The Boise State Broncos jumped ahead of the Idaho Vandals early in the first half, scoring on their first three drives of the game. The Broncos turned to Johnson on Boise State's first offensive play, and he delivered with a nice gain of 18 yards on his first carry. Johnson then added a second-down pitch-and-catch for 21 yards, setting up a 39-yard field goal on the next drive. The Broncos received the kickoff on the next drive and moved the ball downfield, scoring on a 4-yard touchdown run by tight end Luke Smith-Anderson.

Johnson's second-half performance was one to remember, as he finished with 61 yards on 11 carries, including a run of 28 yards. That one run made up nearly half of his total heading into the break. Bronco golfers take fifth at New Mexico

By BRIAN LUPTAK
Sports Writer

The women's golf team made a strong start up to its 2006 season. They have placed in the top five in five of the last six tournaments they entered and have been considered among the nation's best teams. This fall's tournament this weekend will give them an indication of how they will fare in the 2006-07 season.

"We've had a couple of strong tournaments," said Head Coach Lisa Wasinger. "It's been a very windy spring and it's been a very long season, so we have to be prepared for that." Wasinger said the team is in the right state of mind.

The women's golf team will compete in the Arizona Grand Slam this weekend. The tournament will be played at the Red Rock Golf Club in Tucson from October 25th to 29th. The team has been practicing for weeks in order to prepare for this event.

"We've been working on different shots and different strategies," said Wasinger. "We're trying to focus on our short game and our putting, which are two areas that we need to improve on." Wasinger said the team is in good shape for the upcoming season.

The women's golf team has made a significant improvement in recent years. They placed in the top five in three of the last four tournaments they entered, and Wasinger believes that this year's team is even stronger than in the past.

"This year's team is definitely more competitive," said Wasinger. "They have more experience and they are more focused on their goals." Wasinger said that the team has been working hard to achieve their goals and they are looking forward to the upcoming season.

The Arizona Grand Slam is the first tournament of the season for the women's golf team. They are looking forward to the challenge and they are confident in their abilities. Wasinger said that the team is excited to compete and they are ready to take on any challenge that comes their way.

"We're looking forward to the Arizona Grand Slam," said Wasinger. "It's a great opportunity for us to compete against some of the top teams in the country." Wasinger said that the team is motivated and they are ready to take on any challenge that comes their way.

The women's golf team has a strong core of returning players and they have recruited some talented freshmen to join them. Wasinger said that the team is in a great position to succeed this season.

"We have a great mix of experience and talent," said Wasinger. "We have some returning players who have been consistent and we have some freshmen who are showing promise." Wasinger said that the team is in a great position to succeed this season.
