

Flipping the Classroom with Streaming Media with Margie Ruppel and Amy Vecchione

<http://bit.ly/boisevideos>

As faculty, you may be interested in flipped classroom pedagogy, but are intimidated by making and finding your own video materials.

The Library has made available thousands of videos for you and your students that they can watch outside of class time, from home, or from anywhere, and then come to class ready to discuss. These videos can be embedded in Blackboard, Moodle, or other course sites. Learn the platforms we have access to, and find some videos that you can use today!

Streaming Video - also available at <http://library.boisestate.edu/find/videos.php>

Boise State Only:

- [Academic Video Online](#) - Searches all Alexander Street Press (*) video databases
