Student Body of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
The President's Greeting
BY EUGENE B. CHAFFEE
President of Boise Junior College

This year marks another milestone in the history of Boise Junior College. Seven years ago the college opened its doors to the people of the Treasure Valley and the State of Idaho. During this period, the enrollment of the college has increased from 200 to 2537, and it is providing a higher level of instruction to a larger number of students.

The growth of the college is truly inspiring to us who have been associated with it. We have had the opportunity to see our college develop from a dream to a reality. Today we can take pride in the facilities and the activities of the college.

It is this realization that makes students, faculty and friends happy as they stand on the threshold of a greater Junior College. You are privileged to enter this college during a remarkable period of its life. You have the opportunity to partake of the fruits of the college's scholarship, social and extra-curricular activities. You have the privilege of being a part of a college's growth and development.

It is our hope that every student who enters this college will make the most of the opportunities that are available to them. We believe that every student has the ability to make a significant contribution to society. It is our responsibility to create an environment that will foster this growth.

We are confident that you will find your time at Boise Junior College to be a period of pleasure and development. We are confident that you will leave this college as a knowledgeable and well-rounded individual.

We wish you all the best in your endeavors and encourage you to make the most of your college experience.
Cooperation is Keynote, Declares Student Body Prexy

By JAY COLLINS

B. J. C. Student Body President

Today is the beginning not only of a new year, but of a new era in the life of Boise Junior College. As president of the assoiciated student body, I welcome all of you in the fold of B. J. C. With the arrival of sophomores, the faculty will do all it can to help you make this a good year. We will have many new activities to keep everyone interested. We will have regular solutions of our school paper to keep informed of our school progress.

With the increased enrollment, our student body budget has increased its funds some 75 per cent. Thus there will be more for athletic equipment, awards, school paper, debate and incidentals.

Boise athletic equipment in general are intensely interested in our institution—which, incidentally, is also their institution. Let us enjoy ourselves together this year. Let us develop socially and intellectually. The following is a list of some of the activities we have this year.

Night Football Should Boost B. J. C.

At last B. J. C. will have some night football games. Every sophomore remembers well the many controversies of last year on the subject. B. J. C. C., through its faculty, has the opportunity to put football across the public, and out of the realm of the night. This is the first year the school has attempted to be enthusiastic over night games, after a successful season of baseball.

Students, now is your chance to put over an item that has always been desired. It's up to you just as much as it's up to the team. Prove yourselves worthy members of B. J. C. by promoting an energetic ticket campaign.

Give Our Advertisers a Break B. J. C. Students:

How many issues of the Roundup would you like to see if there were no advertising at all? Is there anything more irritating than having more issues than you have accustomed to having in the past.

Advertising is the backbone of the paper, financially speaking, without advertising, the news and features would be nil.

Do you wonder why, as you are urging us to "patronize the advertisers!"? Well, the least you can do is to read the ad and when you are going to buy something, it just happens the Roundup advertisers chance to show you that they have what you want.

In short, we won't ask you to be blindly patronizing the Roundup advertisers; but we are, definitely and specifically, asking you to give them a break by considering them when you buy.

“Not So Green” Thrilled to Be Collegeton

By A. FREEMAN

Starting all over again—freshmen—but not for the first time as we had when we started high school four years ago. And it is not starting over exactly. We're starting a new phase of our life. We find this beginning class of freshmen much more around our old surroundings with our old friends with us.

It is not with regret nor disappointment but with excitement and interest that the freshmen start junior college this year. "Oh, I think it is going to be fun." "I wouldn't miss it for worlds" and "It will be a wonderful year" are among the comments. New friends are made as the slate or place of the spring tour.

SUMMER VACATIONS
Mary Perkins landed herself a job with the Capital News in return for long years spent in your
multitalent study, turning down a scholarship in order to be a news-
paper woman instead of a coed.
Verna May Dunning made a very good doctor's office secretary during the summer vacation, in wire of the office of Dr. Harmon Tra-
mae; Ceeone Thomas paraded her work by holding down a simi-
lar job in a hardware store.
Bettina Kroeger attended B.B.U. during the summer and in her spare moments exercised her sadd-
le horse.

MRS. POWER IN MEXICO

Americans and Mexicans in Former Jesuit School Do Research and Sight-See

By ELIZABETH BUCK

This rumor setting on our dears of women, Mrs. Isabel M. Power, one rainy morning and had an enjoyable time looking at pictures taken at the University of Mexico. This summer Mrs. Power visited parts of Mexico and took a six-weeks course at the university of Mexico city.

There were 350 persons attending the school this year, about half the usual enrollment. Most of the summer school students are Americans, the rest Mexicans.

Professors and teachers from everywhere doing research and studying Spanish around the region. Among these students was the young Mexican, Roberto de la Rossa, who visited Boise Junior College last year.

Great Grammarian

Her grammar teacher is one of the greatest authorities on Spanish grammar in the world. Even such learned men as the Jesuit school in Mexico, an economics course; among these students was the young Mexican, Roberto de la Rossa, who visited Boise Junior College last year.
