Roundup, January 26

Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.

**Sweetheart's Ball Will Be Given**

"Sweetheart’s Ball" will be the theme for the Annual Women’s Ball to be held at the Crystal Ballroom in the Hotel Boise on February 29, with the orchestra will furnish the music.

Rosemary Reed will head the dance, with Marion McDonald her co-chairman. Other committees are as follows:

**Decorations**—Phyllis McQuen, Bertha Hufnagel, and Margaret Hussey, chairman; committee: Helen Caine, Jacki Mitchell, Mary Ester, Marie Pearse, and Virginia Peterson.

**Publicity**—Betty Taylor, chairman; committee: Helen Caine, Jacki Mitchell, Mary Ester, Marie Pearse, and Virginia Peterson.

**Patrons—** Dot Barbour, chairman; Dorothy Basque, chairman; committee: Helen Caine, Jacki Mitchell, Mary Ester, Marie Pearse, and Virginia Peterson.

Chaperons for the dance will be Mrs. Power, dean of women, and Dr. Robert Vallerius, president. Patrons and patronesses will be Mr. and Mrs. Pauline L. Leland, Mr. and Mrs. R. A. Ash, Mr. and Mrs. R. A. Ash, Jr., Mr. and Mrs. R. A. Ash, Mr. and Mrs. R. A. Ash, Jr., Mr. and Mrs. Eakin, Mr. and Mrs. Eakin, committee: Eleanor Eakin and Nancy Fairchild.

**New Building Planned**

Large lecture halls, fine laboratories, and lounge rooms for both men and women and 40 acres of the administrative buildings is the new campus to be commenced.

The building will be of dark red brick with some variations. It will be heated well off Capital boulevard and facing the river. The department of letters and sciences will be located in this building.

The chemistry, physics, zoology, botany and commercial and liberal arts are to be included.

On the third floor will be a drafting room, a biology and art studio, and a study craft. Home economics will also be taught in this building.

The library and stock room will be located on the first floor and a lounge room and lounge room for the teachers will be on the first floor also. On second floor will be the student union where students will congregate.

**Captain Bilbao Will Give Lectures About Basques**

B.C. students will have the opportunity to learn of the minute of the Basques when Captain Jean Bilbao delivers his Basque lectures on his native country, beginning February 1, at 7:30 p.m.

This year, the junior college students may take these credit courses and have them taken to be used as a hobby.

The opportunity to learn about his culture, the Basques, which influenced his paintings, is presented, and that student who is interested in his work. The Arts club also looked at water colors and oils by California students.

**Pre-Med Club Elects**

Elections were held last Wednesday at the weekly meeting of the Pre-Med Club, officers elected were: Bob Monk, president; Jack Harris, vice-president; Thelma Robers, secretary-treasurer.

After a talk by Dr. Budge on the trends of modern medical education, the Pre-Med club went west through St. Luke's hospital.
In Defense of Rhymsters

Oh friends, our hearts are greatly pained
That you should think so sappy
Of us in sooth, fools' fool we be
We're not as common yaps.

So we shall set about to prove
In fooling with this notion
That picturized fools we be,
As righteous as the tithe.

For foolish fools in folly wise
Can feast the wisest wise man;
But wisdom never can fool nie,
As every fool is wise enough.

In rhyme and rhythm we stand
With beauteous ditty
That we as fools full foolish are,
On folly we excelt.

And wiser fools are not again,
E'e your soul to heaven.

We Like Them Because

Johnny Reagan—We like him because he is of a different nature than most boys, being so far from formal with an ever-ready smile. He never displays the affected smile, the nervous smile, the careful smile, but he has a true smile that is a line of the honest and the person that seems to have proven true this year.

Johnny is considerate and it will mean recognition of the ROUNDUP staff. Now your opportunity. If there's something about the paper you don't like, get to work and change it. If you want a weekly paper, start managing the staff.

Students—it is your paper.

More Cost Hangers Needed

Each morning one may see an empty row of cost hangers in the men's cloak room, but as the term begins, Ferdinand finds there are two, three, four, five, six, seven, eight, nine places occupied, each person who comes in has a slightly different costume.

Each one seems to have a special reason for having his own hanger. But did you ever think that the staff members have just as much to do, and in most cases more? Yes, you will think of them as the busiest person and that seems to have proven true this year.

New Year Holds Much for B.J.C.

The school year started in September, when January comes around we feel that B. J. C. has finished one unit of time and is starting another. We have the right to look back with a great amount of pride and forward with considerable hope and anticipation.

In looking forward to the coming year, we wish to note the following items to be removed. We have received financial help from the state and consequently a huge reduction in tuition. Finally we were given additional time off from class meetings.

This year we are looking forward to, holds much for us. We can look forward to starting school in the same location and in the same entourage. This will bring many problems which we should like to share with the faculty. Considering that the school is giving us a year of rest and future, we can be very well satisfied with the world in general.

Boys, Do You Want Baseball at B.J.C.? last year King Baseball celebrated his 100th year of reign. Thousands of people all over the world crowded baseball parks of all sizes to watch their favorite player pitch a hit, run game, knock a home run, or make a spectacular one-handed running catch. Of course, the 1950 year of baseball was very important because of all the love which had a double celebration.

Not only did it mark the 100th year of baseball, but also the return of baseball after a number of years of absence.

Yes, dear readers, you have guessed it. It is our own fair city of Boise. Not for a long time will the city of Boise forget the announcement of the baseball team, and every BOY will have a chance to ‘enjoy the game. It is an event that surely should be desired.

This year we are looking forward to, holds much for us. We can look forward to starting school in the same location and in the same entourage. This will bring many problems which we should like to share with the faculty. Considering that the school is giving us a year of rest and future, we can be very well satisfied with the world in general.

Studens Have Many Interesting Hobbies

Students have many interesting hobbies.

This is the old, old story of hobbies.

But what hobbies?

For instance,

One is the attractive lasagne, torded hen, whom everyone glosses over and is fed up as something.

I note that there is a great deal of tenacity, and the nutty-ment.

That is completed when deadly criminals should not be given a chance to go out into society.

It is extremely difficult for him to find work with our system.

It has not been worked out here as it is in European countries.

It refers to Turrou, the most brutal crimes committed.

Dolly Bates didn't run into a door.

The wearing of those dresses was necessitated by the weariness of the false riding habit.

Our sympathies, Dolly, we like horses, too.

Basketball Tips

After getting off to a good start in basketball this season by defeating the College of Idaho Coyotes, Carver had crested 38 to 39, the boys took it on the road. There were no games. It was no disgrace to lose to the Southern Branch, 39 to 38, as the last act from Portland. The student representative, who marked the day, was still playing the week after the game.

Miss Dale Whittimore, physical education instructor, stopped the game and said that the boys shouldn't be too down about it.

Saturday the boys bowed to the other boys and took the third place in the scholarships. The contest continued.

The final outcome was Armstrong winning two out of three, the last game being the deciding factor.

Students Take Tests

The January 5, 6, 12 and 13 mental tests were given to 65 members of the junior and senior classes. The test was, according to Mr. Adkison, a factor. "Class C" was quite fascinated in watching the game, and one of the students, who knew that they were in the one of a plate glass window.

The play has parts for two women and four men. The women's parts were written by Barbara Cornel and Jane Harris, and the men's by Gene Frazier, Eldred Renk, John Templeton and Carl Burke.

The play is now translating the play and at the same time beginning actual work on the lines for collaboration. Neither has much to say, but the idea is to develop the idea of after school Boy ... hobby is collecting stamps. The play will probably be done in March.

So That's the Reason

Have you been wondering why a certain activity is not being pursued? Have you been curious to know why B. J. C. girls are so quiet and busy? Well, don't get excited, those people are just one of the quiet, studious sophomores. B. J. C. thinking (if possible) and doesn't think B. J. C. girls are swell.

Basketball Personalities

Stanley Maurice Jones, Bass — lives in Boise — plays center — studying to be a doctor — hobby is poker; a real good, hard-working guy — thinks B. J. C. girls are all right.

Leonard Hugo Robinson, Robbie — lives in Boise — plays forward — studying to be a veterinary — a really good student — thinks B. J. C. girls are nice.

Orie Leslie Dudley, Orie — lives in Boise — plays guard — studying to be a teacher — in love with girls — is a real goer — wants a girl — thinks B. J. C. girls are swell.

Dorrell Wayne Parente, Shad-ow — lives in Boise — plays forward — just going to school for fun — hobby is collecting stamps — thinks B. J. C. girls are swell.

John Golden Gray, Jr., Laughing Boy — lives in Boise — plays guard — studying to be a lawyer — hobby is wrecking cars — doesn't think B. J. C. girls are pretty.

Student Backgrounds Are Peeled Into

While scrounging around the campus you found that many students have interesting background stories to relate. Here are a few of them.

Garth Lee, Herbert Hoover are Mansur. Their ancestors came when the Dutch settled in America from England in the late 1600's. Garth William, who signed the Declaration of Independence, resided on their mother's side. Herbert Hoover of England was a distant relative. He was a "Bloody Mary" for religion. Two brothers farmed here. Herbert was a Scotch ancestor fought with Robert Bruce in the thirteenth century.

Helen Garby is German. Her parents were born in Germany and she is of mixed ancestry. She bE-longs to the Irish and Welsh. Her father, born in England. Her ancestors didn't come for the North, while he fought for the South.

She is a Scotch-German. Her father and his side have lived in Germany for the past seven generations. She is a member of the ,Northland Student Council and was a great social success. The girls were particularly interested in her religion. Two brothers in the family were Catholic. Their uncle was president of the First Methodist Church.

Mrs. Thrailkill was born in England. Her uncle made a great deal of money in Australia.

Mr. Hooper, who signed the Declaration of Independence, is German. He is Gennan. Her uncles and aunts are German and escort led the grand march.

All the relatives on her mother's side are Scotch. His father was born in Scotland. His mother was born in Wales. His father is a Scotch. His mother is a Scotch-Indian. Fenimore, came from James more relatives, but never took the last name Garbe there.

The second year Spanish class under Mrs. Roland M. Power has recently been studying the "Vocabulario, de Cordomines," which will be given with the other foreign language plays in the spring. The play has parts for two women and four men. The women's parts were written by Barbara Cornel and Jane Harris, and the men's by Gene Frazier, Eldred Renk, John Templeton and Carl Burke.

Eugenio B. is now translating the play and at the same time beginning actual work on the lines for collaboration. Neither has much to say, but the idea is to develop the idea of after school Boy ... hobby is collecting stamps. The play will probably be done in March.

Poring ELECTRICITY for Comfort

If you had to pour so much electricity into your lights, your range, your refrigerator, water heater and your clothes dryer, you would at once recognize just how much of a bargain your electric service is. Your service is delivered to your appliances, ready to serve you at a cost far below the normal average. Yet, if our customers had to "pour electricity" into their appliances, they would be greatly surprised to find how much better the low cost electricity brings them for only a very small price.
