

# FACTS AND FIGURES

2013-2014

BOISE STATE UNIVERSITY

# BOISE STATE UNIVERSITY

As Idaho's metropolitan research university and one of the top public institutions in the Northwest, Boise State University plays a crucial and growing role in the region's economic development and famed quality of life. We strive to be known not only for providing the finest undergraduate education but also for outstanding research and graduate programs.

The breadth of opportunities and services offered, combined with our unique location, make us one of the nation's best places to live and learn. While remaining committed to the arts and humanities as well as science, technology, engineering and mathematics (STEM) education, a focus on innovation and creativity is earning us a reputation as an emerging metropolitan research university and a key economic engine in the Treasure Valley and Idaho.

Boise State students have the opportunity to work with and study under some of the West's most respected scientists, artists, researchers and educators. And more than 200 student organizations, Boise's nearby downtown and the many outdoor recreation opportunities guarantee plenty of fun.

# ADMINISTRATION

## BOARD OF TRUSTEES

President Don Soltman

and Administration

Stacy Pearson 426-1200

Vice President for Research and  
Economic Development

Dr. Mark Rudin 426-5732

Vice President for Student Affairs

Dr. Lisa Harris 426-1418

Vice President for University Advancement

Laura Simic 426-3276

# STEM AND RESEARCH

In our constantly evolving world, the demand for STEM literacy (science, technology, engineering and math) is more critical than ever.

Boise State University is committed to providing a solid STEM education and is an emerging research leader in biomolecular science, innovative materials, health and public policy, sensors, and nanoelectronics and integrated systems.

Faculty and students can find support at the STEM Station — a consortium of more than a dozen National Science Foundation STEM education initiatives and research programs, in conjunction with partners from Academic Affairs, Student Affairs, and Research and Economic Development. Programs further STEM student and faculty development by integrating learning and life, research and teaching.

# STUDENT INVOLVEMENT

Student life is an important part of the college experience, and Boise State students have plenty of opportunity to play, learn and grow.

Students can join one of more than 200 clubs, be part of a fraternity or sorority, affect policy by participating in student government, play on an intramural team or enjoy films, concerts, lectures, cultural celebrations and a host of student organized events.

Leading the charge is the Student Involvement and Leadership Center. Located in the Student Union, it provides leadership development, civic engagement, campus programs and partnerships. SILC also hosts the Bronco Parent and Family Association, which harnesses the energy and goodwill of family members for the success of students.

# TIMELINE

- 1932** Boise Junior College founded by the Episcopal Church
- 1934** BJC governed by a board of directors after the Episcopal Church ends affiliation
- 1940** Campus moves from St. Margaret's Hall to its present site
