Forgetting My First Language

Team Members: Samantha Lee

Department of Modern Languages & Literatures

Faculty Sponsor: Dr. Zhen Ruan

I was born in South San Francisco, where we lived in Chinatown. Mandarin Chinese was my first language; but as I spend most of my childhood in California, I forgot my knowledge of writing it and speaking fluently. Now, at Boise State University, I'm studying Mandarin Chinese because I feel it's really important to be fluent in one's native language.

The 2009-2010 school year was my first taste of the Chinese language. I have wanted to take a foreign language class for some time, and there seemed to be a lot of interesting aspects to the Chinese culture. My goal was to be able to recognize the different tones when the language was spoken while being proficient in the written component of it. My teacher helped out a lot, but it was still a lot of work with more than one set back. Ultimately, I hope to come out of this class with a solid foundation that I will be able to build upon.

Why do I want to study the Chinese language?

Team Members: Huiying Wu

Department of Modern Languages & Literatures

Faculty Sponsor: Dr. Sharon Wei

(This is an oral speech spoken in only Mandarin Chinese) Hello everyone, my name is Huiying Wu. I'm in Dr. Sharon Wei's Chinese 202 class. A person asked me why I want to speak Chinese and I told them it was because I grew up in America, so I don't know how to speak Chinese. I want to learn to speak Chinese and to learn about the Chinese culture as well. I also want to be able to speak to my Chinese friends in college. I think that learning is also fun. I am meeting a lot of new friends and am happy to be in Dr. Wei's class.

The population of China is continually growing. At least 1.3 billion people are currently residents of this vast and beautiful land. Although China has an extensive history and many customs still in practice today, China is a changing land. I have chosen to learn the Chinese language so that I may have the opportunity to take part in the amazing and drastic changes this ancient country is facing. I would like to present a short overview of this decision while speaking in Chinese.
