Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
Executive Board Adviser Explains Budget

Faculty to Be Patrons
Boise Junior College faculty and their wives and husbands have been named patrons at all college dances. The scholastic community announced this week.

Four Debaters, Coach Leave for Tournament
Four star debaters accompanied by Dr. C. D. Myers, chemistry instructor, will leave Boise Junior College this morning for the Eleventh Annual Northwest Debate Tournament to be held at the University of Washington.

The tournament will include debate teams from Idaho, Oregon, Washington, and California. This year the tournament will be held in Portland.

The debaters are to return Saturday night, and each team will be expected to debate seven to eight times by Saturday night.

The tournament will be divided into four sections, and the debaters will compete in the section they are placed in.

The tournament is to be held at the University of Washington, and will be held Saturday night.

The debaters expect to return Saturday night, and each team will be expected to debate seven to eight times by Saturday night.

Survey Shows Lack of Time and Effort
Faculty and students of B. J. C. agree on one thing: low grades are the result of lack of application and preparation.

This fact was brought out in a survey conducted by Mr. William H. Collie of the psychology department under sponsorship of the scholarship committee. Results were given out recently in a mimeographed statement.

Faculty members and all students who made low grades during the past quarter were given an opportunity to participate in the questionnaire. Answers showed that students and teachers ranked lack of preparation and application as the cause of the low grades so frequent among a number of cases.

Other causes of the low marks were, in order, being crowded, students' difficulties in adjustment, attitude, ability, special skills, hobbies, physical handicap, and lack of interest in school affairs.

The English language was taught in the junior college.

Dr. DeSantis was not able to return Saturday night, and each team will be expected to debate seven to eight times by Saturday night. The tournament is to be held at the University of Washington, and will be held Saturday night. The debaters expect to return Saturday night, and each team will be expected to debate seven to eight times by Saturday night. The tournament is to be held at the University of Washington, and will be held Saturday night.
TO THE EDITOR:

It was announced last week in a story about Dr. C. D. Myers, that he has retired and has moved to a 17-month-old daughter, and that he has a 17-month-old son. It is hoped that Doctor Myers will forgive the reporter.

GIRLS KNOW SOLUTION TO KEEP HAIR DRY

Los Angeles, Calif.—"Oh, look at my hair!" is a common exclamation from the girls, and the reason why girls get gray hairs way before their time! Hair gets greasy, and dyes find themselves with an overloaded head after an hour's session. Then the waiting begins. Those who have classes the next hour hurriedly pin up their hair before they leave. The result is as average a quintet as you can imagine. They have not attained the height of perfection they're hoping for. If the curl is all gone when you look in the mirror, then the wailing gang? Let's remedy this situation!

If you have noticed the girls around the campus, you'll find that it's either gray or it must be getting spring, but at any rate the head is grey.

Boys have that schoolgirl complexion are: Charlie Baxter and Bob Packham. Their hair with a toothpaste-like smell are Ed Brown, Jimmie Gray, and George Miller. Those with nice looking hair; those among the list are Nick Kepros, Eugene Peron, and Ken

Boys have who use eye on us are Johnnie Lejarl, Otis Harris, Bruce Lay, and Betty Harrique.

Boys to be, but there are some who really look neat in the clothes they wear. Among these are Joe Parkey, Jim Shaw (if you saw him last Friday?), Colonel Munyon, and Ken-

Personalities of B.J.C. are Dick Armstrong, Brodie Lay, Elp H zw. Harris, and Bob Simmons, and Porter Siebert.

The boys with the glamourous hair is not hard to find. There are many boys, and Bob Pyper.

The only big thing is that these boys with the hip-man physique and they are none other than Johnnie Lejarl, Bob Thomas, Jim Shaw, Johnnie Gray, and Jimmie Gray.

Haircutters—those who you love to touch—Dick Steele, Jack Adams, and Darrel Parente.

Construction of a driveway from the gym to the heating plant will begin this week. The walk will be on the front of the gym and go to the south side of the building. Then will be a sidewalk that will be between the building and the heating plant. There will be a side walk from the building directly to the assembly hall. These sidewalks will lead to the assembly hall, Mr.

Some time in the future bridge may be built across the Boise river between the C.J.S. campus with Julia Davis park. This bridge would not be for pedestrians, and we hope that the Bicycle riders would be permitted from the campus on this bridge. The proposed bridge would pass over the Boise river about 100 feet west of the Administration building.

The road that is being built behind the Administration building will be 30 feet wide. As the Boise Junior College grows, this road will be widened to 60 feet.

Baird's regular high-grade cleaning, plus (+) Lusterizing equals (+) the same dress to you with a mere fraction of the cost.

Lusterizing costs nothing more than regular dry cleaning of silk, rayon or crepe dress, yet it restores the shining, metallic luster to that dress look new again.

LEARNING ON THE OLD Top Rail

Last week everyone from the Student Executive Board to the janitors completed a two-day stand against Albion State Normal. The Bronco basketeers managed to gain an even break in the series by winning the opening game 41 to 34, after they had lost the first game by a score of 41 to 38. The victory gave them a 1 to 1 edge over the Panthers of Albion.

The first game was close all the way with Albion always managing to hold a slight lead. The Broncos, after leading 4 to 2 at the start of the game, were never able to catch up with the Albion team. Earlie Millard, the normal school's big center took Wednesday evening's headlines by scoring 45 points through the hoop. Tommy Collins, flashy Bronco center chalked up 13 points to lead the Broncos. Harland Storey was second-high with nine points.

Trailing Albion on the second night, the Junior College made a last gasp effort to overtake a half time lead and win with a 5-point margin. Collins again had individual scoring bursts with 11 points and gave a fine performance in holding big Millard, usually a scoring threat, to one point. Harland Storey was second high with 10 points.

ATTENTION TO STUDENTS AND BASKETBALL TEAM: The Broncos will begin to prepare for the A.A.U. Tournament to be played at the new Junior College gym and Y. M. C. A. gym. The winner of this tournament will win the right to compete in the nationals in the fall. So students, let's get behind our team and hope the team gets ahead of the rest.

NOTE TO MR. RUSSELL: Tuesday night's game was well attended by B. J. C. students and plenty of pep was shown indicating the band. This was accomplished in the midst of mid-term exams! The student body was there, but where were the college professors? Right! Making up the exams!

TO THE TEAM: You boys showed what you can do Tuesday night. Let's see you all forget about being high-point man and trying to be the star. Let's stick together and play ball!

That's about all I can say for this week except let's keep the pep and put B. J. C. back in the limelight.

Until next week without fail, I remain your UNCLE DALE.

ALAS: I wish I were a mentor in my professor's class; For no matter how idle a moment I always seem to seize.

BRONCOS BEAT OREGON FIVE IN CLOSE GAME

Boise Junior College chalked up another victory Tuesday night by defeating Eastern Oregon Normal by a close score, 52 to 50. This contest proved to be the most exciting game the Broncos have played at home this year.

The first half seemed to find B. J. C. in trouble, but the visitors were led by their captain, Ted Wilson, in floor play and the sharp shooting of Guard Rostock, who collected 13 points for the Oregon boys.

The second half found the Broncos trailing 22 to 26, when they came on the floor. Then the firewoks seemed to start. The game was a fast and furious affair, and after about 3 minutes of play, found the score tied. Much hard blocking and body contact could be witnessed from the sideline, which kept the small crowd on their feet throughout most of the half.

Both teams proved they could take it and come back for more as the score began to climb. Parent led the scoring attack with 20 points, followed by Tom Collins with 17 points, playing short Storey, who scored 13 points of those being foul shots.

RIO THEATRE
Sun., Mon., Tues., Wed.
Louis May Alcott's
"Little Women"

This is the picture that skyrockets Katherine Hepburn to stardom.

"What do you mean, taking that lamp bulb out of my room? Give it here!"

"Don't get sore. I was just practising for Saturday. Bright lights and dates don't go together. Bulb snatching might be handy. Which one is yours?"

On the other hand, too little light is no good. For instance, study lamps (15s lamps) need 100 watts to cut eye-strain and headaches. Try it. You'll see.

FRESHMAN DANCE TO BE GIVEN AT ELKS FEB. 28
Plans are well under way for the freshman dance to be held in the Elks' balcony February 28th.

The committee in charge promises to make this one of the biggest dances of the year and hope that it will be attended by every member of the student body. Students will be admitted on their activity ticket and outsiders may come if they are accompanied by a student.

George Ganz and his orchestra have been selected to furnish the music for the sale of variety. His orchestra is one of the best in this section, and according to all expectations, should be able to dish out real music for this real dance.

Everything is to be informal and dedicated to good fun and in the student body of B. J. C. by the freshman class of the new school. All they ask is return in the satisfaction of seeing everyone there.

stands in the way. Why don't the college boys think over the numerous ideas: A bi-monthly Menlo News Reel? A fictional story? We should like to see the thought carried out.

-Menlo School and Jr. College

LIVES OF CHEMISTS
Have you ever wondered about the personal life of those efficient scientific men in long rubber gloves, who have a -vent tube to all the aspiring chemistry students? They always appear to be the very essence of competency, but investigation has shown that after all one must admit that he has spent many hours on Saturday afternoon, and alpha to get his chemistry to be a success.

"Now, how many c's of distilled water was that?" is a favorite query when Mr. Gruber is on the scene.

Mr. Gruber is a real sportsman and has flown so much over the years that it is reported this gives him an opportunity to observe the females without hitchhiking to and from Meridian for flying. In the spring Gruber will get his next to flying, of course, ground aviation license.

Gruber is a real sportsman and has flown so much over the years that it is reported this gives him an opportunity to observe the females without hitchhiking to and from Meridian for flying. In the spring Gruber will get his next to flying, of course, ground aviation license.

A chemistry major, Gruber naturally finds the work in the stock room interesting. Having more than one point of view. "I am very interested in some of the new freshman chemistry students," confided Mr. Gruber one day, "but, of course you understand, I am a confirmed bachelor. I just appreciate the finer art, that's all."

Gruber is a real sportsman and shares Mr. Arquette's enthusiasm for it. In the spring Gruber hopes to join the Navy Air Corps, but fully intends to complete his college work sometime in the future.

An ardent camper, and particularly a hiker, Gruber finds that he can enjoy his sports best by hitchhiking to and from Meridian every day. He keeps records of his escapades for his great-grandchildren by taking pictures and saving them for the education of future generations.

The third member of the dispensing army is Robert Monk, who can always be distinguished from the other members of the group, by his carrot-colored hair. He resides in the chem lab all his spare time, but say that he thinks zoology will be his pre-medical subject.

Robert Monk has for his hobby the reading of Mark Twain. He seems to enjoy eating as a pastime, too, for totally without saving them for the education of future generations.

Monk hopes to attend Northwestern Medical School in a year or two, and in the meantime stores clear of the wusses by playing for a dance at the Woman's Club. Bob says that this gives him an opportunity to observe the females without saving them for the education of future generations.
