Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.

Winter Term Offers Various New Courses

The winter term will bring a number of new or different subjects for students desiring a "new term" change. Those are learning the fundamentals of good drawing and painting have for the past three years been under the direction of Miss J. Cline, and will continue until January 5th. Students are urged to enroll in these classes.

Choice of Advisor Left to Students

When the student teacher conference was put into effect officially last spring, students then elected to their advisor the student to choose the instructor with whom each would confer. A number of students did not make any choice and were assigned to instructors by a committee of the faculty. A number of students have been retained on the list made in the spring and new students were assigned space according to the understanding that an opportunity would be given later for all students to review their assignments at the end of the fall term. By this time those students who wish to know their instructors and if anyone feels that some other instructor understands the student better, a slip in the office of the registrar upon which is written the name of the student and of the instructor desired. All individual schedules for the next term will be planned with conferences with instructors.

C.P.T. Trainees Scattered Afar

By BOB REED

Out of the more than 170 B.C. students who have successfully completed the Civilian Pilot Training Program, those representatives are to be found in the Army Air Corps, Naval Air Corps, Royal Canadian Air Force, and the Canadian Air Force, and many more are completing advanced courses.

Johnnie Pease and "Turk" Harshburger are second lieutenants in the Army Air Corps, Johnny Ziehler, who parachuted to safety over the Sierra Nevada Mountains 58 days ago, is stationed at Salt Lake Field, Detroit, Michigan. "Turk" has been ferrying equipment from San Francisco to the east coast.

John Knepper is flying for the United States Navy from Snead, Alabama, Lloyd Schomaker, and Jerry Doherty are enlisted in the U. S. Navy and are stationed in England. Stan King is an ensign in the navy. In the Navy Air Corps, Bayard Griffen in instructing at the navy's air echelon in the early stages in California, while Alvin Lindsey is teaching instruments at Pennacola, and many others have been found in the early stages of their air force.

Included in these are: Buddy

(Continued on Page 4)
Good Light Transforms more than Children’s Faces

Why is one child carefree, willing—another “jumpy,” nervous, irritable? Often the answer is LIGHT. Poor light bring can bring eyestrain, and it with a host of nervous disorders. Good light, eyesight-protection light, makes study so much easier. Eyesight is so precious—it an important part of good health which we all need in the National Defense Program.

Down With the Water Level!

Maybe we are just chronic grumes. Maybe we don’t like water or maybe our mother was scared by a sprinking wheel wagon. We admit all that, but don’t you think that “puddle” (or should we say lake) out there in the Forestry lawn is an anachronism? A trounce of the parking area, is getting a little too grand.

Strange things are going on in that puddle! Strange noises have been heard by the Forestry Department. Only yesterday, a boarload of freemasons was rescued from its vastness, literally snatched from the jaws of death. They had been lost on that “puddle”, out of sight of land, for two weeks.

The Naval Department has not yet revealed the name of the rescued students. Officialrea confirm that a number of students were rescued, from the great Idaho Inland Basin yesterday.

But, we are glad to report that all are well and resting comfortably in the yard of the Department of Agronomy. Several unverified reports have come in claiming that Greenbush’s office is suffering from eye strain. But the Dean of Forestry denies this.

Kroeger Girls Win
Both Tennis Titles

Three Nettles have triumphed again—Phyllis and Hermie Kroeger captured first and second place in tennis. It was disclosed recently at the end of the W.A.A. tennis tournament. Phyllis, after defeating Phyllis Clark in the finals, won first place, and the title of B.J.C.'s Tennis Queen. Second place was captured from Ruth Hill by Hermie Kroeger, who thus won her title of Consolation Champion.

Girls who participated in the elimination consolation tournament were June Coffin, Shirley Kibichuede, Joan Arrick, Shirley and Hermie Kroeger, Betty Mitan, Midge Priest, Betty Hugy, Greta Lindstedt, Frances Hopkins, Mary Coveill, Betty Schmidt, Betty Wallison, Ruth Hill, Helen Howard, Betty Craig, Connie Prout, Mary Margaret McGrath, Jewell Reid, Betty Bush, Ethelmary Gordon, Mary Beal, Hayward Baker, Carol Gregory, Pauline Ducker, Winnie Little, Marjorie King, Mary Jane Goodman, and Phyllis Clark.

Joe: Prince fainted at the club this other night. We thought he was going to die.
Bob: Well, did she kick the bucket?
Joe: No; she only turned a little pale.

Moeller: I just bought home a skunk.
Lindy: Where you gonna keep him?
Moeller: I'm gonna tie him under the bed.
Lindy: What about the smell?
Moeller: He'll just have to get used to it like I did.

THE ROUNDUP

CPT Trainees Scattered

Continuous from Page One

Tompkins, Jacksonville; Frank Turman, Jacksonville; Ted McCutchen, Jacksonville; Lee Thomas, Jacksonville; Bill Hunt, Jacksonville; Ade Coutler, Corpus Christi; Bill Gilley, Jacksonville; Gordon Harbert, Jacksonville; Leotis Horace and Robert Jones, Ontario, Cal.; Robert Long, Pennsylvania; Bill Belnap, Carl Chase, and Joe Farley, who are also stationed at Jacksonville.

Others have gone into different fields outside the nation’s air corps. As a direct result of C.P.T. training, Jim Beall is studying meteorology at the Massachusetts Institute of Technology. Win Dalley is at Purdue University studying aeronautical engineering. Paul Anderson is working as a meteorologist at Medford, Oregon.

Scattered over the Northwest are civilian instructors who get their training at Boise. William Skinner, who is instructing at Webb’s Flying Service, is one of these persons.

Most of these boys are earning $200 a month and up, according to reliable sources out at the airport, besides doing what they want to do.

She: “Don’t you love driving?”
He: “Sure, baby, but wait till we get off the campus.”

Vocation Program Developed at B.J.C.

Vocational tests for those interested in finding out whether they are headed in the right vocational direction and those who are in doubt about what courses to take next term were given this morning from 9 to 12 o’clock in room 108, and will be given again in the same room from 2 to 5 this afternoon.

No charge will be made for taking these tests.
