Gym Gossip

This trip to Moscow has proved to have been a very exciting adventure as far as Midge Priest, Mary Beall, Betty Bush, Shirley Kroger, and Winnie Little are concerned—yes, we heard that the girls had to lock Winnie in the bathroom because she talked so much they couldn't sleep—and all the kids are talking about Midge's new Jim, whom she met at Washington State. It seems he's very tall, blonde, exceedingly handsome, with a beautiful mustache. According to the kids, Jim is the ideal of all the girls on the Pullman campus—yet Priscilla claims he has—Betty Bush did all right, too—she was dated by a good-looking Vandal from the University of Idaho and attended one of the home dances.

"The other four spent the evening in a Moscow theatre trying to sleep to the tune of the annoyance from some Pullman kids behind them. —Miss Lewis has a sweet time renewing old friendships, we hear. —On loving the Moscow trip that's what we hear, the basketball player Gert Cipriani changing from a ball-chaser to a man-chaser—at last, where a certain B. J. C. man is concerned. —Robbie Hill seems to think an awful lot of a certain Meridian man and vice-versa. —Who is it who keeps Mary Kroger on so late at night that she has to sleep it off in the lounge? —Have you Goody B. J. C. 's旺盛ing? —Our former president, Jean Arriola, is having quite a time with some of her kids—er—we mean her pupils in her practical teaching. —You know that spring is here when the "Yanks" start warming up for the season with Lefty Schofield and A Cape all Choir present a program. Every Wednesday in Main Hall.

Let's dramatize YOU!

Springtime's your stage. And if you would really steal the show let "Capitalizing" enhance the color, the charm and the attention-value of your clothes.

"Capitalizing," because it includes cleaning with Sanitone, revives tired colors and textures. It clears to the very heart of the fabric; causes it to look brighter; helps it wear longer because it clears gently but completely. Finally, the use of True-Staining in finishing restores that desired sleek fit.

POWER—where it's needed!

- The amphibious tractor—a startling product of American industrial ingenuity—delivers military help to the landlocking project.
- The electric network—another example of American ingenuity—connects hundreds of operating electric companies and delivers electric power at points of need.
