Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. Air Force Needs Ground Officers

Ground Commissions Offered to Those Near Fit for Air

Young men who cannot qualify physically for aerial training in the U. S. Army Air Forces are being urged to investigate courses offered for commissions of ground officers.

Special College Training

Evaluations will be made for first semester, and if the applicant is near fit, a special college course will be arranged for him.

Peacetime Officers

An applicant for aviation officer, who is not near fit, must wait at least two years of college. Holders of amateur or commercial radio licenses may substitute this experience for physical fitness.

To qualify for an engineering officer, who is responsible for mechanical details of the plane on the ground, the applicant must show that he has had three years of college engineering.

The atmosphere at the Graduation exercises was one of sunshine and triumph.
