Associated Students of Boise Junior College
Students Take Part In Radio Program

A play, "The Rights of Bill," was presented on the monthly Y.W.C.A. program over the radio. The program was under the direction of Mr. Harold McCormick.

The script of the play was furnished by the National Conference of Christians and Jews, and the program will be annually presented with the Y.W.C.A. radio chairman, Mrs. Will Reedy in observance of Brotherhood month.

UNIVERSITY Students Take Part In Radio Program

New Shop Class To Be Instigated

A course in Woodwork will be added sometime this month to the vocational shop classes taught at the University. President Chaffee announced this week.

This course includes, among other things, power saws, lathes, planers, and mortising machinery.

The classes will be conducted by Mr. Vern Beckworth, who has been doing work of a similar nature in the Navy. Previous to his entry into the service, Mr. Beckworth made many of the fixtures now in use in the college, including the tables in the lunch room of the student union, the counters in the general office, bookcases, student's desks, and other property.

The machinery will be installed and the classes held in what was previously the West hanger for College Field airport.

Two Other Courses Are Given

Two other courses in vocational shop training are already being given here at Junior College. One is the Machine Shop course, taught by Mr. A. W. Daniels, a Boise machinist of over thirty years experience. Under his direction.

A Hay Ride, Too!

Main topic of the regular Press Club meet last Wednesday was a tentative hay-ride, plans for which were turned over to Wilford Overgard and Ross Star. Wilford and Ross will choose other assistants to help with publicity and arrangements. A date for the affair will be the third week of the spring term, and the entire student body will be invited to "get on board" this haywagon for this spring party.

EDWIN CASEBEER
NEXT JR. AD CLUB GUEST SPEAKER

The featured speaker at the next meeting of the Junior Ad Club Monday evening March 4, at 8:15 p.m. Owyhee Hotel, will be Edwin Casebeer. Mr. Casebeer is associated with a Boise advertising agency, and his talk will probably present an interesting picture of the functioning of an ad agency at work.

California Man Last Guest

"Advertising is the power of an idea; multiplied," said Charles Collier, California advertising executive, in attendance at last Monday's Junior Ad Club meeting. Mr. Collier, in Boise to attend the Boise Ad Club meeting, consented to stay over long enough to meet with Junior Ad Clubbers.

The advantages to be gained through membership in the Faculty Advertising Association were explained by Mr. Collier, who at the same time extended an invitation to Boise Junior Ad Club members to attend the F.A.A. district convention to be held in Spokane June 1st.

Enlargement of Campus Planned

The college campus here will be enlarged by an additional five acres of grass to be seeded northwest of the Administration building. It was learned last Monday.

This will bring to a total of seventeen acres the lawns in the vicinity of the college buildings.

President Chaffee, who gave this information, also declared that shrubs and trees will be planted, not only on the lawn but along the river bank running the north side of the campus.

Construction has already begun to make this road a gravelled thoroughfare from Capitol boulevard to a point well past the Student Union building. The work is being done by both the city and the college. The latter furnishing the trucks and the city furnishes the remaining equipment and labor.

Mardi Gras Ball To Begin At 9, Queen To Be Selected At Dance

Noted Explorer To Speak Monday

Sir Hubert Wilkins, world-famed Polar explorer, scientist, and lecturer will speak at a B.J.C. Lyceum next Monday, March 4, at 8:15 p.m.

The subject of his address will be "A.B.C.D. Cooperation and Future Competition in the Far East."

Sir Hubert has had a most colorful and adventurous career with a long string of notable achievements to his credit. He is a native of Australia. For 30 years he has been busy exploring this planet from the tropics to the temperate zones. He was a companion of Stefansson and Shackleton on their historic polar expeditions. He has commanded seven different expeditions to the polar regions, more than any other living man.

He has spent 12 years in the Arctic and another ten years in the Antarctic. His record includes six FIRSTS. He was the first to discover new land from the air, first to cross the Arctic ocean by airplane, first to land on any ocean andunalaid, walk home, first to fly over the Antarctic continent from the North Pole to the South. He was a companion of Stefansson and Shackleton on their historic polar expeditions. He has commanded seven different expeditions to the polar regions, more than any other living man.

MUSIC STUDENTS TO GIVE RECITALS

Choral and instrumental department will all be represented at the student recital to be presented Tuesday, March 5, at 8:15 p.m. The public, as well as all students of B. J. C. are urged to attend. "The fun," Mr. Straus says, "is getting together and seeing and hearing each other play.

The program is as follows: Allegro; Adagio Cantabile—Arranged by Vekerlin, by Mariel Mathisen; and intermission, Judy Rose.

WELL DONE BRONCS!

The basketball season is over, at least for B. J. C. Our boys put up a good fight at the games. They ended the season up well by defeating the Nazarene team by an extra large margin. Of course we lost our share of the games this winter, but that's the idea of the whole sport. There has to be a winner and a loser in every game.

Some of us turned out to the games to cheer the boys to an expected victory while others failed to turn out in person but day we know they were there pitching in spirit. In other words we were all more conscious than that B. J. C. just had a basketball team. Hats off to the basketball team and we hope to put up a good fight at the games. They ended the season well DONEBRONCS!

AN APOLOGY

In the past, and probably in the future, mistakes have been and will be made on this paper; mistakes, from big ones that have to do with a wrong date, or announcing someone's engagement prematurely, to small ones of misspelled names or places.

We try to prevent those small miscues from cropping up, but sometimes they escape the close scrutiny of our copyreader and proof readers.

As for the big errors, I admit that most of them are due to a failure to checkup on facts, pure laziness.

All we can do for the mistakes, past or future, is to give our solemn word that it won't happen again, but remember, "to err is human," and believe me, we're all human down here despite the fact that you may have heard some reports to the contrary.

"Christian Vocation" Subject Of Girls Assembly

Dean Catherine Grammer from St. Margaret's Hall in Berkeley, California, spoke on the subject "Christian Vocations" in an assembly for Boise Junior College girls last Tuesday.

Outlining the various fields of work for Christian women, Dean Grammer emphasized the fact that $1800 a year is the lowest paid salary in any of these particular vocations.

When a fellow breaks a date he usually has to.

When a girl breaks a date she usually has two.

New Red Cross Drive Gets Under Way Today

At last we know the meaning of the mysterious "200" seen on blackboards, in the halls, everywhere we turned around. It is the symbol of the new Red Cross drive.

$200 is the quota set for contributions to the Red Cross here at B. J. C. The drive will start Monday on the campus. There will be a table in the main hall where contributions will be accepted.

Jackie Morris and Jean Barber are co-chairmen of the fund drive. They expressed belief that the quota could be reached with the cooperation of all students.

Orchids and Onions

An orchid to Maxine Gross and the Social Committee for their success with Union Night.

Onions to people who don't have up to have their pictures taken.

Orchids to people who do show up for pies.

Onions to students who belong to organizations and only turn out for social affairs.

Orchids to all students who get their research paper done on time.

Korridor

Following the strenuous period of activity on research papers several studious students were caught relaxing at Ward's to the tune of "Seven-with-the-Wrong Woman."

Highlighting the events of the "Lost Week-end" we have Union Night with a variety of couples seen doing the latest things. The two Lindstedts with Evalyne McDonald, Marie Campbell and Helen Jeker, kept busy putting a jigsaw together.

Some of the date couples were Kathy Hall and Bill Mitchell, Emil Siron and Loretta Mantindale. Then we have the usual snag made up of Grant Dean, Chuck Massey, Bob Oliver, Bill Hon, Stan Ogubery, and Jim Hunt.

Then Saturday night Miriamng it, we find Marge Jordan and Gilbert, Adelaide Schoeler and Jack McCleod, Barbara Wright and Don Cohen—incidentally, Don was one of the boys caught in the draft along with Whealies—poor fellow.

Joanne Brunginger and Mike Hamilton, Isabel Jones and Wheaties Emmons. and Welton Greham seemed to be having fun—but with who or is it whom?

Also merry-making Saturday night was the Vet's Social Club, with the boys really having a rough time.

All apologies to Suzanne—how was I to know?

Looks as though tonight's dance ought to really go over big. See you there kids! I hope!

Gazing Into The 8-Ball

The weightiest problem to come up in a long time is the current question confronting B. J. C. students... "What are we going to do about weekends?" (Who has more cause to worry than a B. J. C. student.) According to Bob Tillson, you should cut out weekends.

What's this we hear about Bob (Einstein) Craft trying to make ethyl alcohol in Chem. lab.

The 11:00 Econ. class is beginning to wonder what kind of a fillibuster Murray Burns is attempting... But when you hear the crash you will know that Mr. Nash continues again...

It is rumored that Dot Craven can go steady for a shorter length of time than anyone else in school... "Well it's a good way to get acquainted." Dot says...

Shirley Powley and Max Shew ley are all happy again, but it seems that love does have its ups and downs...

We have overheard some conversations about what everyone is wearing to the dance tonight and that's fine but who's the girl commenting as Lady Godiva???

STUDENT OF THE WEEK

The old rub, rub. Student of the Week honors this week on one of our most deviating coeds Mary Riddle.

During National Brotherhood week, she spoke at several clubs in Boise—aiming toward a future as a social worker. She is unusually well informed on current events and problems and is an active participant in the Social Science Club. Mary is a business major and applies what she learns as secretary to Dean Mathews and Mrs. Hersey.

Popularity among her own sex is evidenced by her membership in the Valkyrtes. Approval of the "rub, rub" is strongly voiced by Ross Chastain.

Hailing from Emmett, our small town girl has really made a lasting impression on old B. J. C. and will be missed by many, both faculty and students, when she leaves this spring for Stanford.
Union Night Big Success

250 students attended Union Night held last Friday night in the Student Union, according to Maxine Gross, General Chairman.

Entertainment for the evening included: dancing, card playing, ping pong. Refreshments were served by members of the committee.

NEW SHOP CLASS

(Continued from Page 1)

students receive half-day instruction in practical machine shop work, making such things as gears, gas engines, crankshafts, and precision gauges. Precision work to one-half of one-thousandth of an inch is done by students here.

Two classes in Radio—one a Beginner's class, the other an Advanced class—are being conducted also in the Machine Shop building, though in different rooms from the Machine Shop work. This course is under the supervision of Mr. Leonard Capps, who for the past four years has done radio and radar work as an officer in the Navy.

His Beginner's class is given daily an hour's instruction in mathematics, elementary radio, and electricity, and two hours laboratory work constructing radio sets. In the advanced class five-tube super-heterodyne receiving sets are built, a Public Address system for the auditorium and another for the Radio speech class are being assembled, and one student is working on a demonstration model on radar equipment. Two of Mr. Capps's students do work for the radio shops in Boise.

Music Students Give Recital

(Continued from Page 1)

Lightfoot; Players.—Granados, by Kay Fletcher; Fantasie in C Minor.—Bach, by Margaret Adkins; Allegro from 1st Concerto.—Weber, by Betty Jo Miller.

Irene Rogers will play Prelude in C Minor.—Rachmaninoff, Tu le Rhyes from Mignon.—Thomas, by Gerry French; Nocturne in F#—Chopin, by Barbara Fraser; Drink to Me Only.—Old English, by Frank Wake; Rondino—Brown, By Elvira Chaney: Reflections on Water—Debussy, by Robert Hayakawa; Consecration.—M rney; When I Was Seventeen.—Swedish F olksong, Edith Mayes. Presto agitation from Moonlight Sonata.—Beethoven, by June Oda. The accompanists are Louise Martinneau, and Margaret Adkins.

She: "I'm a dairy maid in a candy factory."
He: "What do you do?"
She: "Milk chocolates."

Union Gets New Card Tables

Representatives of the Student Council, Mary McLeod, Fred Griffin, and Fred Reich, purchased, Wed., Feb. 20, eight card tables for use in the Student Union. At the present time only five tables are in use, but if the other two are needed, they will be put out for use also.

BJC BEATS NAZARENE

Exhibiting the finest form seen this year by supporters, the Bronco basketball team completely submerged the Northwest Nazarene College, at Nampa, 62-39, Saturday evening, February 24, in their final contest of the season, at the Boise High School gymnasium.

The game was never in doubt, as the Junior College took an early lead. Then as the first half progressed they increased this lead and they led at the halftime 37-22.

Never before this season have the Broncos shown such supremacy on a basketball floor. Every man on the team showed vast improvement over his previous playing.

Nampa tried every means known to halt the fast stepping Broncos, but their efforts were of no avail.

The three men on the Bronco squad were high men for the evening. They were: Reed and Buckner with 18 points, and Overgard with 21 points.

This win gave the Junior College one game to three lost to the Crusaders. The win brought to a climax the basketball season for the Junior College.
