Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at archives@boisestate.edu.
DEBATE TEAMS TO HIT ROAD

LOCAL ORATORS TRY WINGS

Mr. Paul Callahan, debate coach, announced that the BJC Debate Club will take part in the First Annual Intercollegiate Debate Tournament to be held at Albion State Normal on February 14th and 15th. Present plans call for at least two teams to make the trip to Albion.

"I am extremely well pleased with the progress the debate club has made so far," Mr. Callahan said in making the announcement. The club is well organized, with all the members taking a keen interest in the tournament. The bill of projects are very bright for producing a winning team.

The tournament is the first to be held since the war, and it is planned to make it annual and fair. Both senior and junior colleges will participate, with separate divisions for each. Many of the qualifying rounds of debate will be held on Friday, with the semifinals on Saturday morning, and the finals at 3:30 Saturday afternoon.

A Sweetheart's card dance is planned for Friday night for the entertainment of the visitors. Those making the trip to Albion, in addition to Mr. Callahan, are Gloria Stunt, Don Trobb, Jay Hillman and Gene Cudd.

Boisean Starts Chinchilla Farms

First Group Arrive

By United Airliner

Mrs. Helen Wolfe, native Boisean, is starting a chinchilla farm the first on record for Boise. The farm will be located in back of the Circle M Drive Inn on Highway 20. Back in 1942 Mrs. Wolfe first read about chinchillas in a Popular Mechanics magazine and became interested in them. Last year her interest was awarded when she was able to buy her first pair. This was no easy task because the chinchilla is not sold to anyone who wants one and definitely not for sale if the person is interested in profit only. Mrs. Wolfe announced that the BJC Debate Club will take part in the First Annual Intercollegiate Debate Tournament to be held at Albion State Normal on February 14th and 15th. Present plans call for at least two teams to make the trip to Albion.

SCHOOL SPIRIT – 20TH CENTURY

Most students think of school spirit as the old “Do-or-Die” idea, a little too childish for mature (7?) minds. This conception of school spirit has become far too prevalent in B.J.C. This is not a criticism, but simply a suggestion that perhaps we have had the wrong idea all along about what this much discussed spirit means to the average student.

In the first place, school spirit means supporting the extra-curricular activities, regardless of the primary reason one has the student body or faculty. But, whatever the reason, your support of all the activities of your school is just plain common sense. Realize how many times in the next twenty-five years one will sense, for your own good...

Helpful Hints For Happy Homemakers

Girls do you have trouble keeping that Cashmere white and sparkling? For your convenience this week we are offering the latest time-tested method for cleaning sweaters.

To start with, you get the sweater and then the solution which has been proved nine out of ten reclaimed sweaters are better. Next thing on the list is material for washing. This will include a tub (one each), a box of Duzz (duzz everything), water, and a big room, one preferably with a water-proof and non-slip floor.

Are you still listening, girls? From here on the B. O. P. is as follows:

I. Pour water into tub. (a) Water must be not too hot. (b) Water must be not too cold.

II. Stuff sweater into water and add contents. (Duzz duzz everything.)

III. Agitate gently until sweater becomes clean. Don’t, for heaven’s sake, girls, scrub it, or it is apt to deteriorate into a bundle of lint.

IV. Rinse: Dip into a judicious mixture of hot and cold water. If the item shrinks to a size & the fabrics lose their sheen, reduce the cold water.

V. To dry: Smooth gently upon a late coat. (Duzz duzz everything.)

Under the living room heater. (It hung upon me for polish before it was cold.)

In the summer time Ronny takes the mountains of Idaho, fishing and swimming, in the winter he goes for ice skating. He also spends long hours at the piano, and now he rings out a few vocals which he has lent to several weddings.

With these talents, he dishes out more by majoring in Design and his services are urged by all. His spirit of friendship and goodwill toward one another.

Mardi Gras

Mardi Gras, termed by visitors as the “greatest free show on earth,” is a period when more than half a million American being discard shackles of war in time service. The average parade . . .

Debatable Dan

For What It's Worth

This old tale of women has been knocking around ever since the caveman first said "Glub," to the cavewoman, and he's been wondering why he ever spoke.

The male in history has always had to grin and bear the "clever ideas of women." But no male in this history has more room to gripe than the one today. It's rather easy to tell a woman of today, but it's a hard job telling where she begins and where she ends, with those Shoppy Joe Sweaters, (the person who made those must have really hated women.)

There must be a shortage of women, for if they call this straight black hair that is supported by one little clip beauty—open the door, Richard—Richard open that door and let me out!!

"Don't ever talk over a two syllable word, or the fair women will look as if you have knocked her down, and took her two weeks old chewing gum away from her.

When they do have a conversation with their girl-friends it's devoted to the subject "How to Get a Man."

To sum it all up the modern American female is just plain silly.

"Hey, you guys, where are you carrying that fellow? Is he drunk?"

"Nope."

"Rick?"

"Nope."

"Just a gag, huh?"

"Nope."

"Dizzy spells maybe?"

"Nope."

"Very tired, I guess."

"Nope."

"Well, what the heck is the matter with him?"

"Dead."
Ex-G. I. Masters Current Problem

All through the last war people of our city were continually amused at American ingenuity. Several days ago the fact was proved that the ex-G. I.'s haven't lost one particular of this asset. B.J.C. student Howell Grey returned to his Vet's apartment intent on a little of that well known "bunk fatigue." With a malicious grin on his face, he inserted the key in the door and gave a twist. A look of amusement spread over his features. He gave another twist and still no results. With evil remarks directed at all GI equipment and general he went about his rounds. The first person he saw was Bob Brandt who lived in the apartment below Howell. After talking things over they decided to draw up some strategic frontal attacks on the windows. Finding a ladder, they swiftly tested all the windows hoping to find at least one unlocked. With no luck on their first objective, they retreated and started planning their second attack. This time their attack was aimed at the putty around the window panes. Like eager beavers they dug and dug but to no avail.

Completely crushed but with more resolve than the carpetbeater they again withdrew. Then like a lightning flash Bob had the answer. He ran to his tool chest and triumphantly produced a small brace and bit. Back up the ladder went Bob. In a matter of seconds small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of seconds small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward. In a matter of minutes small chips of ex-window pane were seen fluttering earthward.

Now Howell and his wife go to bed and play at night. They get most of their exercise playing on a specially constructed "whirlwind" in the center of the pen. Although Bobo was a chinchilla farm, the fair sex will still have to resort to other furs for their winter coats. Mrs. Woolf wants at least twenty-five pair before she will send any pair. Since it takes nearly 124 pelts to make a coat, the B.J.C. students are being asked to help. Mrs. Woolf has been amazed at American ingenuity.

APPLIANCE and RECORD SHOP

"Your Favorite Songs" 213 N. 10th St.

- Complete Sports Line
- Lunch Counter and Soda Fountain

Paul Brooks, Manager
What's New For The Sports

What's new in sports equipment and an over report, from the downtown sport shops.

The trend in sports apparel this season is toward the high price for very good quality merchandise. The medium priced field is almost non-existent. For you old fans and enthusiasts they have a good supply of boots, sweaters, pants, and a new type of magnesium ski that is 25% to 30% faster than wooden models, need no wax. They don't have the accident rate out yet. They run about $40.00 a pair and from all reports very good skis.

This spring and summer the roopers of B.J.C will put a break in the new all purpose club. A combination of a 1 to 10 torn (no cad). Golf balls will be plentiful with the pre-war quality in most sport stores. Leather articles are still scarce and will probably be that way for another year from the reports of some of our downtown sports dealers.

A list of back to normal items would include:

- Tennis Racquets
- Tennis Balls
- Baseball Mitts
- Hunting Fishing Jackets
- Jeans and Plaid Shirts
- Outdoor Clothes for Riding Hiking
- Cameras
- Tennis Rackets
- Baseball Shoes
- Aluminum Boats and Canoes (non-

Sports Ramblings

Bogus Basin grew a large crowd last Sunday to witness the Ski Meet. Represented Sunday were teams from University of Idaho, and the Boise Junior College. Some of the B.J.C boys were John Shufeldt, Stan Tomlinson, Charles Christensen, and Russ Chastain. The winners were awarded their prizes Sunday night at a banquet and dance at the Owyhee Hotel.

To nitive plans were really tenta-

Junior Varsity Wins Over Vaunted Teams

By downing the 20th Century Monday night at the Y. M. C. A. in a well played ball game, the Jaysvees moved up to second place in the City League. Won 52 to 43

The Jaysvees are at their peak of the season. They have won their last three games by the scores of 52, 53, and 52, respectively, and with such playing will be on top of the League by the end of this season.

The starting line up for last Monday’s game was Alexander at center, Call and Colton in forward position, Bujaryn and Brainfield at guards. For anyone who has seen some of Jacoby’s coaching they know that he believes in using all of his squad, never letting anyone tire. This could be one of the reasons that the Jaysvees are good.

Monday night the game didn’t start so good for the College Jaysvees as 20th Century took a lead of 6 to 2. This is as far as they got. From then on Jacoby’s boys were in the game.

Bujaryn, who fouled out in the third quarter, set the pace for scoring, while hitting the basket from all over the floor to rack up 13 points. Two of these were free shots. Alexander came in second on points, with 12.

As the second half rolled around the score stood 28 to 20, with the Jaysvees in front.

With Jacoby gaining notice for his substituting quite often, the Jays are dropped in 24 more points that 4 vs them the game.

Their record in the City League stands n.w. 4 wins and 1 loss. Jaysvees (2) were in Two Games On Wednesday and Thursday nights of last week the Jaysvees of Boise Junior College downed two determined basketball squads by scores of 52 to 21 and 53 to 26 over the Idaho Power.

The first game played with American Legion Wednesday night was a cinch for Jacoby’s gang who had 14 points before they let their opponents sink one bucket. Colton and Call started at forward, Bransfield and Bujaryn at guards and Tate at center.

Alexander set the pace, scoring 12 points with Tate getting 6, including 7 three free shots. Every member of the squad scored to help account for the high score of 52 points.

On the following night, Thursday, they had little trouble in stopping the Idaho Power five. With fine ball handling and neat shooting they ran up a lead and went on to victory by a count of 53 to 36.

Harry Kendel caught in a fast try during the Eastern Oregon College series played at the high school gym last week. Number 26 in background is Dick Klopfer.
