COLLEGE OF HEALTH SCIENCE
VISION STATEMENT

The College of Health Science at Boise State University is dedicated to providing programs of educational excellence which are solidly ground in multi-cultural/multi-ethnic experiences to present and future health care practitioners.

The College also is dedicated to providing the general student body and the Boise State University service area educational programs which increases one's awareness of health and healthful living.

This vision of excellence will be achieved through collaboration and integration of the area's resources, including medical centers, public health agencies and health care professionals. Innovative program curriculum, excellence in teaching and faculty scholarly activities are essential for achievement of this vision.

ANNOUNCEMENTS

PHOTOGRAPHS - Photographs will be taken of each graduate by Chappell Studio, Inc. as s/he receives the diploma. A free proof will be provided by mail; and orders may be placed, if desired, by any graduate.

Guests are requested to remain in the seating areas during the entire ceremony including processional and recessional. The main floor will be open for picture taking following the program.

ELEVATOR - An elevator is available at entrance 1 (northeast) for use when stairs are a barrier.

EMERGENCY CARE - For medical emergencies, please check with ushers.

ACKNOWLEDGEMENTS

The processional music, “Golden Jubilee,” was composed by Mel Shelton, Professor Emeritus, for Boise State University's 50th anniversary (1982).

The music for the recessional, Sine Nomine, was composed by Ralph Vaughan Williams and Earl Rosenberg — arranged by Bruce H. Houseknecht.

The Commencement Committee expresses its special appreciation to Leslie A. Blackburn, Instructor and Program Head in Horticulture, and her students for arranging the flowers for the ceremonies.

The honor color guard is provided by the Cadet Company of the Boise State University ROTC; Sargeant. Marcia Kelley, Boise Bronco Battalion.

The program cover was designed by Jennifer L. White, Boise State University Printing & Graphic Services.

ACADEMIC DRESS

For centuries academic dress has been associated with learning. Its origin is considered to be ecclesiastical, though the gown of the medieval scholar may have developed out of the ordinary civilian costume of an earlier period. The medieval scholar was often a monk, who found the hood and gown a protection against the cold of his cell. The sleeves of his gown were used for carrying his books and supplies.

In the United States, three types of gowns and three types of hoods have been devised for the bachelors, masters, and doctors, respectively. The square caps are the same except that the doctor's may be made of velvet and have a tassel of gold.

The distinguishing characteristic of the gowns is the sleeves: pointed and hanging to the knee, for the bachelor; closed (the arm coming through a slit at the elbow), square at the end, extending well below the knee, for the master; full, round, open, bell-shaped, adorned with three bars of velvet, for the doctor.

The colors on the hoods represent two things; the wearer's Alma Mater and the department of learning. The lining of silk is in the color or colors of the college or university granting the degree. The trimming of velvet is the color that represents the department of learning in which the degree was obtained. The velvet trimming on a doctor's gown may also be of the departmental color or it may be black.
