It's a Little Late For Beauty... Better Luck Next Year!
By David Hughes
During the whole school year you may have noted the bright and early class that got up about 2:00 a.m. to catch the first bus of the day. You may have wondered if this was the first class of all classes. Your curiosity may have been satisfied when you found out that the first class of the day begins not at 7:30 a.m., but at the muffled sound of the first alarm clock of the day, usually between 5:00 and 6:00 a.m. When the students from the preceding class finally trickled into the library, the first class of the day was already underway.

A Student's Opinion

Writers who are paid to write editorials for public
consession should at least acquaint themselves with the
facts before writing on a topic about which they know noth-
ing. A good example of what appears to be a misrepresenta-
tion through lack of knowledge is the editorial which re-
cently appeared in Sparrow in the following manner:

Everything Mr. Fisher had to say about BJC was false.

His allusions to the faculty who can't secure positions
elsewhere and to students whose parents were too poor to
pay for the course caused much laughter and to other
thing elsewhere. Many students were sup-

posed to hear of their parents' tax situation as a pur-
pose in life. The final straw was the past which
assumed to thus learn of the
financial difficulties of their parents. Students and teachers
considered the source and decided to laugh at it.

However there are people who don't know the true
facts about BJC and may be taken in by this article written
by a man who, as far as we can find, has never set foot
in the campus.

About the only thing which hints of a fact in the article
was an ancient quote of the first board of directors who
said that Boise would not ask for funds other than Boise
taxes to support BJC. However if BJC
is promoted to a four-year BOISE COLLEGE it would
be to the benefit of the entire state. If something is to be
benefit the state, shouldn't the state pay part of the expense.
Mr. Fisher seems to think not.

He maintains that the higher educational institutions
of Idaho are second and even third rate and why should an-
other such school be added to the list. As a junior college,
Boise is not second rate and as a four-year school it
is promoted to a four-year BOISE COLLEGE
which sometimes leaves an en-
trance requirements with an end
in view—not to mention a promis-
ting tackle or a halfback. Still one

can succeed even if he or she has
the handicap of a college educa-
tion. I have always maintained
that the students who are top notch
hurt by the West. Every student who has an
academic credits are as good at
Northwestern University or Stanford or Yale as academic
credits from the other school mentioned. The only reason a
student would have his credits cut when he transfers to
another school is a low grade or an F in a subject, which is
considerably acceptable to other schools. However, since BJC
is a member of the Northwest Association of Secondary and Higher
Schools, its academic credits are just as acceptable as those
of the University of Oregon, the University of Washington,
and all other schools and other universities. Since reciproc-
ical agreements have been drawn up with the other associa-
tions of the Northwest, a student may transfer academic
credits from the other schools mentioned. The only reason a
student would have his credits cut when he transfers to
another school is a low grade or an F in a subject, which is
entirely up to him.

Mr. Fisher thinks the city would be better off if a cheese
factory was moved into the city. The city might be
altered of using expensive equipment and property but as
long as Boise would have to foot that loss, why should Mr. Fisher
worry.

Since this article has come out, a few students have been
thinking about having a cheese factory set up on one end of
the campus. No doubt, the cheese produced would be very
good.

From the Editor . . .

The Roundup staff has worked hard this year to pub-
lish as much as possible. There have been many un-
guarded difficulties encountered with the printing of
this sheet, yet they have managed to overcome most of them.
I wish to thank the students who have given their
support this year and for the cooperation I have received in
working with them.

Also wish to thank the students not connected with the
staff who gave me their help when it was needed.

The students have been patient when the paper did not
come out on time or when it did not please them. I hope
the entire student body will give the same good service to
whomever is elected editor for the next year. When you're
in a tight spot it helps a great deal to know that you have
the support of the students.

Mr. Fisher says that the students will feel like doing
nothing for the last year and that it's going to school.

Howard Goul leaving to Work in Paris, France

Howard Goul, who was attending Boise State College, will leave for Paris to study French for a six-month period. He plans on using this time to study the customs and language of the French people. He will return to Boise in January and will make applications for a job in France for the second semester of the year.

Easter vacation, he will visit his parents in Paris before returning to Boise.

In recent years, Howard has worked on the Trans World Air Lines' special passenger boat and recently secured a job on the Amsterdam which will leave for New York, June 10.

Working on a cruise, he will be able to use his knowledge of the spoken language of France.

Men's Club Takes on Campus

The Men's Club will soon be on the campus scene. It is sponsored by the Boise Council and is composed of the better men who are more or less being elected each year. Any man on the campus is eligible for membership if he is sponsored by a responsible member of the club. The club will be limited to twenty members.

The purpose of the club is to increase school activities and provide a little more spirit for the school's pep. They belong to a great variety of groups around the school which are not properly being emphasized. The charter members are: Ernie Black, Frank Black and Keith Higdon.

First Picnic Held By German Club

The German club was one of the first of the school clubs to have a picnic this year. Fifteen members of the club with their guests turned out for a weiner roast at the Municipal Park.

French Club Ends Years Activities

A diversified program of continental music and song climax the year's activities of Le Cirque Français Monday evening, May 16. Keith Taylor, chairman, welcomed students and guests assembled at the Student Union for the last meeting.

Reports in the entertainment were: Shirley Fowler, Richard Russay, Connie Oheim, June Stille, Elaine Welty, Le Neice Elder, Tony Arrambide, Jean Wahle and Bob Armood. A telephone conversation in French between Jean Hammer and Sally Strobel added unexpected humor and variety.

Virginia Winstead and Jeannette Doherty held handed refreshments. Two films "En Bretagne" and "En Normandie" were shown by Wally Emmons. Mrs. Pivonick is club advisor.

BJC Trackmen Place Second In ICAC Meet

Last Wednesday the BJC track team, Truet, Rossow and Peccora, traveled to the Intermountain Athletic Conference meet held at Cedar City, Utah, home of the Branch Agriculture College of Utah.

The home team of Utah walked away with the meet by winning most of the events and racking up 193 points. They had over 40 men participating in the meet. BJC was second with 189 points and Washtenaw Jr. College of Salt Lake third with 189 points. Dixie BJC placed fourth, while Weber College of Ogden was last with seven points.

Truel of BJC was one of the outstanding tracksters at the meet winning the 220-yard dash with a fast time of 22.8 and broad jump of 21 feet 1 inch for his second place finish. He also was runner-up in the 100-yard dash and placed second, the time was 10.7. They were both timed at 10 flat because the man who won it from Truel was only about an inch or two in front of him.

Number two man on our team was Rossow who high jumped 5'6 and placed fifth and also placed third in the high hurdles. No. 3 man on the team was Peccora who pole vaulted and placed fourth.

Medals were awarded to the first five places, and with the ten-man team winning the tennis crown, BJC again was on top of conference winning a football and basketball titles and ending the season with an extra fine baseball, track and tennis teams.
