Shakespeare's great comedy, "The Taming of the Shrew," was produced by Boise Junior college's drama students. Monday and Tuesday nights by the college audience.

The production, under direction of Harold Wenzelton, and the first Shakespearean play to be presented by BJC, was presented in a new and unique way through costuming. Bowl Bid Aids BJC . . .

An invitation for the Broncos to play football in the Potato Bowl at Baldwin, Calif., is probably the biggest event in the history of Boise Junior College. This is not only beneficial to the student body, faculty and those directly connected with the college, but the community as a whole will profit as well.

BCJ shall benefit to the extent that a bowl bid brings greater recognition to the! college, and a college of any lesser budget than another.

The merchants of Boise and Idaho Falls will profit to the extent that the members of the college have produced something that will put them on the map instead of some remote place in the wilderness. As we have been told by the citizens of Boise, we will continue to do the best we can for the students as the future looks brighter.

The bid to the Potato Bowl is a well deserved invitation. The Broncos have been a magnificent football squad for a number of years. One of the finest (agents) of many people, they have been a positive force in the community.

Another significant part of this event is that through the services of the students, we have developed a wonderful manner in which we carried off the honors for the big game and brought home a national championship to Boise Junior College.

There has been one of the greatest of all the quilts, that of the student body, which worked so well toward this goal. The administration and the student body have worked together to make this happen.

Another reason is that you are a part of the planning and carrying out of this project. In the past, you have been able to work without a great deal of consultation with the administration. In the future, you will be the ones who are in charge and working on the student body as a whole.

We can't measure the extent of bitter feelings aroused and the inability to remain the people "talking up" between the school and the students. But we do hope that the next time a few people go out for a little fun they will carefully measure the immediate spirit against all possible consequences.

No Time Wasted There

We found that it didn't take much time, only an hour or two, if we had been wisely used. We got something out of it besides a job, which is, making a drop of blood, coffee and clothes and a free meal (like after a hard day). Whenever the White Christmas is over, it is not like the first. We have been doing some wise planning and have made our own decisions. We have been working well and something nice for our fellow man. Since then we have made a few steps forward. We have taken the time to work on it and be able to benefit from it. It is no mistake that every person in this college is ready for a drop of blood, coffee and clothes and a free meal.

Meeting the gang to discuss the quacun—or just killing time between classes — the Dine-A-Mite Inn at the University of Kansas at Lawrence, Kansas is one of the favorite places for a rendezvous. At the Dine-A-Mite Inn, as in all college off-campus haunts everywhere, a four bottle of Coca-Cola is always on hand for the guests that re-freshes—Coke belongs.
