A system of pre-registration will be used throughout the week of January 16 to 18 whereby students will call at the registrar's office for their class cards. They will take these to their advisors for assistance in planning their schedules. This appeal will go to all students because it will save them time and insure their being in specific sections of classes. It will be a new move never because on January 30 and to be sure that they pay their fees and tuition in rooms 112 and 118 without regard for the registration schedule.

Stadium Plans Set...

It seems, at last, the college will begin to reap a long delayed harvest from the excellent record our football team has established. The victory in the Potato Bowl was the incentive for the board to start a program for an expansion of seating capacity of the football stadium.

Tentative plans have been in progress during the past few weeks to begin construction of about 4000 seats on the east side of the field, directly across from the present stands. These seats will be added on the north side of the track, after the proposed league meets have been discontinued by the Boise Stadium Inc., which has proposed a plan to raise funds through non-interest ‘debentures, payable over a period of 40 years from non-college events on the field. Members of the league are Harry W. Morrison, president; Oscar W. Worth, vice president; Clyde Potter, secretary-treasurer; D. D. Baird and J. L. Driscoll.

To give our readers an illustration of how large an addition 4000 seats will be, let it be compared with the present main stands. They will seat only a few more than 1000 persons. Therefore, this will be an increase of about three hundred per cent.

This is something we have needed for a long time. Profit from athletic events have been impossible in the past mainly because we do not have seating capacity. Sufficient proof of this is that Washington, with 20,000 people, California. People were packed like sardines in the limited seats of this stadium. Yet with this over-flowing attendance, the gate receipts are used to pay traveling expenses. Boise would certainly welcome some bigger college games in our city, which would give a little variety to our efforts will be in vain.

We have developed an admirable football team, but our efforts will be in vain. We as students are shirking our obligations to the school. What has happened to the Boise Junior college student body? Are we shirking a responsibility that is shared by each and everyone of us? Why is it when we are used to winning suddenly we lose we lape interest?

We will tell you! The student body is fickle and has little desire to watch a team that has lost on its record. We are too used to a football team that rolls over weaker opponents, that we have come to be on the winning side of no games to lose. But remember, this team cannot win ball games on its home field entirely. It needs encouragement and we can give it if we only will. The louder and the longer it is, the harder and the better the team will play.

In case you are confused, we are talking about our basketball team and the sad attendance of our students at their games. Sure, some of them have been going, but their numbers are few in comparison with the students in school.

The basketball team is doing its best and will continue to do the fine job they are doing now. But they cannot do it alone. Students are shirking our obligations to a die-hard basketball team that has to win the hard way.

We have heard remarks coming from basketball players that they feel that the lack of enthusiasm from the stands is their biggest problem. One remark overheard was: “So we lost, who gives a damn anyway.” Perhaps it was said in haste and caused by remorse because they had lost, but, nevertheless, it is in their minds and they will continue to have mediocre seasons unless we, the student body can begin to feel responsibility toward our team.

They are a bunch of great guys and deserve all the help we can give them. We have student body cards that admit us without charge and they always play a great ball game.
Bijou Junior college community symphony orchestra rehearses for its appearance next Wednesday night in the campus auditorium at eight o'clock. John Best, (upper right) director of the ensemble, has been a music instructor at Boise Junior college for the past three years.

Alumni Notes

Highlight of the Christmas holiday season for the Alumni is December 14th. Thirty people, there were, over Los Angeles, Jean Harlow, Gaynor, Varnum, Gable, Douglas, Parker, DuPont, Robertson, Bieler, Marnau, Loy, Howard, Deanna, Joan (McNeil), Blythe, Bill Roden, Joan Webster, Jeanne Wright, Shirley Johnson, John Campbell and William Tumin.

With approximately 250 students, the 142 alumni, couples, was one of the most successful telephone drives ever. This success was due to hard work and planning by Miss Dorothy Greene to the Warren Bills and his committee. For the Alumni really appreciated and appreciated.

**Sideline Opinion**

By Bob Van Buskirk

Where is the championship basketball squad that nearly dumped the 1949 junior college champions at the first of the season? That's the question we're confronted with when discussing the Bronco hoopsters.

The team playing now can't be the same that outflung Tyler Junior College, rated one of the best JC basketball teams in the nation, at the first of the season. It took two overtime periods for this Tyler bunch to finally put the finishing touches on the 20 point underdogs from Boise Junior College.

Since that magnificent showing against Tyler, the Broncos have been able to eke out victories in two of six games. Those were two spills with the College of Idaho and Southern Idaho College of Education, both teams that were rated second division at the beginning of the season.

The Broncos did make a fight against Weber in the two games they played. They gave Weber, played here, the Broncos looked quite ragged, in spite of winning the game. They were unable to work the ball in close to the basket and were off on long shots.

From the standpoint of yours truly, this team should be going great guns. Coach George Blankley has the material for a great team, as we have witnessed against Tyler, but the showing they have been making is not that of a team thought by most as possible winners of the conference championship.

Then what is the trouble? Coach Blankley seems to be a very capable coach and he seems to have all the material a coach could ask for.

They have shown that they can make the long shots and also work the ball in close. But still there seems to be some trouble. The boys have been playing good ball, but only certain players are hitting on certain nights. One night the center and the guards are hitting on average share of the shots. Another night it's the forwards and still another night just the center. They don't seem to be able to gel together and go on an entire squad.

This is not a form of a team because I have no basis to draw any. I do think the team should be doing better than it has in the past. The percentage column now reads three wins, seven losses. I definitely not the story of a team that came so close to busting the 1949 junior college championship off its throne and putting a strong and consistent squad, many of them again next year schools.

**PAYDAY**

The greenbacks have quit.

The pennies have quit.
