Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at [archives@boisestate.edu](mailto:archives@boisestate.edu).

# PRESIDENT'S BALL SATURDAY

## B.J.C. Roundup

Boise, Idaho, November 10, 1952

Pictured are the chairmen of the Pi Sig's President Ball to be held this Saturday night. Included are: Ken Heikes, Lee Manning, Ray Miller, Ward Armstrong, Bob Watson and Gerald Weast.

### B.J.C.'s New Organ

B.J.C.'s new organ is expected to arrive from the factory in Hartford, Connecticut, sometime early in December. The auditorium is undergoing a complete renovation in preparation for the installation. Mr. Oscar Schoenstein is coming from San Francisco to install the organ. According to present plans it will take from six weeks to two months before the organ is ready for use, February third.

The organ will be one of the most interesting installations in the western part of the United States and promises to be one of the finest organs for radio broadcasting purposes in the country. The organ consists of forty-four sets of pipes, which are designed for perfect tonal balance. The instrument will have five divisions, each division being an organ in itself. These divisions are: pedal organ, which is played with the feet and produces the bass tones; swell organ, which is the top keyboard played by the hands and will occupy the left hand opening in the wall of the auditorium; great organ, which plays on the middle keyboard and the area over the left hand balcony will accommodate it; choir organ, which will be housed in the right hand opening in the wall and will play from the bottom keyboard; and the positive organ, which will occupy the right hand balcony and also plays from the bottom keyboard. Approximately half of the pipes will be exposed to view and will be out in the auditorium proper. The other half of the pipes will be in organ chambers designed especially for them and will not be in full view of the auditorium.

The instrument has attracted the interest of organists from coast to coast, because of its design and location. It will be the only organ adequate for concert work between the Salt Lake valley and Portland and should be one of the outstanding instruments west of the Mississippi.

### Nampa Science Club Visits B.J.C.

Eighteen members of the Nampa Science club and their advisor, Mr. William Gavin, visited the science labs of B.J.C. last week. Dr. Spulnik led a discussion on science in general. The students toured the dormitories and the Student Union and were thrilled with the new additions.

### A.W. Women to Hold Card Party

The Associated Women will hold a public card party November 14, in the Auditorium from 7:30 to 11:30 p.m., Lucille Spackman will be the chairman for this affair. An admission price of 70 cents will be charged per person including tax and this money will be turned over to the A.W. scholarship fund.

Tables for bridge, pinochle and canasta will be in use for the evening. A short program including a soprano solo by Carole Crume and a violin number by Delores Hansen will be presented for entertainment. Door prizes will be given and pie and coffee will be served in the Student Union following the card playing and entertainment program.

### 'Blue Moon' Theme Of Prexy Ball

The annual President's Ball sponsored by the Pi Sigma Sigma this Saturday night will highlight the social calendar. "Blue Moon" is the theme of the dance and blue decorations with white stars and a large blue moon will carry out the theme. Ward Armstrong is general chairman and he is assisted by Ken Heikes, invitations chairman; Gerald Weast, decorations chairman; Ray Miller, ticket chairman; Lee Manning, program chairman, Bob Watson, theme chairman, and Arthur Mayse, floor and door chairman. Dr. Moore is the advisor.

The dance honors all presidents of the various clubs of the campus and organizations, the dance is formal but "no corsages." The feature attraction will be two bands competing against each other with continual music for three hours. The Blue Serenaders and the Blue Notes will furnish the music for the battle of the bands.

Tickets for the dance may be purchased from any member of the Pi Sig's or at the Union where they will be sold by the Pi Sig's.

### Spanish Club Doins'

The Spanish club of BJC held their meeting in the recreation room of Morrison hall Tuesday night. It was decided at the business meeting that the advanced Spanish students would put on a play for the purpose of raising funds to pay for the year's expenses. The Spanish club plans to sponsor a Union Night in the near future.

The entertainment was provided by piano solos by Margarita Linderman and Oliverio Ruiz. For the remainder of the meeting the club listened to the advanced students conduct a game of twenty questions entirely in Spanish. Visitors to the meeting were Mr. and Mrs. Nations, Mary Maraville and Pedro Illistatique. Spanish club meets on the first and third Mondays of the month and all students who have taken one or more semesters of Spanish are invited to attend the meetings.

### Club News

An initiation by candlelight, followed by a formal dinner for the new members joining the Future Teachers club was held at the home of Miss Dorothy Chatburn, president of the club. Some of the people joining the club include Barbara Wilson, Kathy Ryan, Denny Brubaker, Carol Beery, Mary Louise Cottrell, Josephine Lizaso, Carol Crume and Jerry Keener. After the initiation was completed new officers for the year were chosen. Those elected for the positions were Barbara Rae, vice-president, Barbara Wilson, secretary, and Joann Smith, treasurer. The club had decided to have one social meeting and one business meeting a month.

Those never resting B-Cubes are on the go again making plans for marching in the Bronco Bowl parade Saturday morning, November 22. In doing this, the B-Cubes, along with the other service clubs, add color and spirit to the big event.

Again, tempting every normal person with their delicious goodies, the B-Cubes had two more candy sales last Thursday and Friday. The girls worked hard to put over these sales and their efforts were rewarded by a big success and profit. Among the customers seen flocking to the counter for their share of the treats were Bob Garrison, Jerry Pappy, LaVern Jones, Mary Brown and Sharon Breshears.

### Deferment Standards

The present criteria for deferment as an undergraduate student are either a satisfactory score (70) on the Selective Service Qualification Test or specified rank in class (upper half of the male freshman class, upper two-thirds of the male sophomore class, or upper three-fourths of the male junior class).

Students accepted for admission or attending a graduate school prior to July 1, 1951, satisfy the criteria if their work is satisfactory. Graduate students admitted or attending after July 1, 1952, must have been in the upper half of their classes during their senior year or make a score of 75 or better on the test. It is not mandatory for local boards to follow the criteria.

General Hershey has emphasized many times that the criteria are a flexible yard stick and that the standards may be raised anytime necessity for manpower demands.

The two forthcoming administrations of the College Qualification Test represent the eighth and ninth testing dates of the program. In the first series of tests 64 per cent of the students achieved a score of 70 or better. In the second series 58 per cent of the students made 70 or better. The tests in all three series are equivalent in difficulty.

Use of tests by the Selective Service System, along with class standing, was originally based on recommendations of the six Scientific Advisory committee appointed in 1948 by General Hershey. The committee's report, presented by Dr. M. H. Trytten, chairman, was made in the fall of 1950.

After a subcommittee had prepared general specifications for a suitable test of scholastic aptitude, Educational Testing Service was designated as the testing agency to carry out the construction of the test and its nation-wide administration.

### B.J.C. Faculty Hosts to C. of I.

Boise Junior college faculty will be hosts to the faculty of the College of Idaho in the Student Union dining hall, Monday evening, November 17, at 6:30, according to announcement by Mrs. Allison, chairman of the faculty social committee.

The purpose of the dinner will be to give instructors and professors an opportunity to become acquainted and discuss common problems.

Two years ago the Boise Junior college faculty were guests at the College of Idaho.

The program for the evening will be provided by members from both institutions.

Other members of the Boise Junior college faculty social committee are Mrs. Foster, Mr. Best, Mr. Waln and Mr. Meyers.

### Helen Hall Elected Veep

Miss Helen Hall, president of the International Relations club, was elected vice president of the International Northwest Conference of International clubs for the year 1952-53.

### Teacher of the Week

Have you ever spent a winter in Havre, Montana, the coldest spot in the United States? Well, Mr. Fletcher Pearce, his wife and daughter, Lynette, have survived ten winters there while Mr. Pearce taught at the North Montana college, a branch of the University of Montana.

"We were lucky," said Mr. Pearce, "to find the right house for us in Boise with the help of Mr. Gottenberg." He was referring to the little green house with white trim that sits back from the circle drive at the end of Pueblo street. President Chaffee says Boise Junior college is lucky, too, to find an experienced engineering instructor.

Mr. Pearce received his bachelor's degree from the University of Michigan and his master's at the University of Texas. He got his industrial experience working in the highway department of the Chicago sanitary district and for the Michigan state highway department. He has also had teaching experience at Southern Methodist, Dallas, Texas, and the New Mexico School of Mines at Socorro, New Mexico.

## JUST BEFORE MID-TERMS I AM AS SLEEPY AS CAN BE

Full steam ahead! Well, it sounds nice doesn't it? And we'll admit that is a very good theory but who can do it? Mid-terms are looming us all in the face and we'll soon find out how much we didn't learn as well as how much we thought we did.

Just one word of caution now about preparing for all those monstrosities that all college students have to suffer. They are various and several, the methods to cram. One is to stay up all night before a test and study like mad. That is the way to find out how fast you can go to sleep in a lecture room. Or there is the way of holding out your open book as you meander down the halls. This not only gives the profs the idea that you just simply don't have enough time to do all your wonderful studying but that you're an eager beaver and want him to know that you study every chance you get. (It also affords one the best chance in the world to fall flat on your face either in the halls or in the test.) Then, too, you can just go to bed, get a good night's rest and face with confidence the board of judges in class the next morning. This has been approved by several members of the faculty and seems to promote better health among the lower class of somnambulists inhabiting some of the classrooms hereabouts. Take it easy on those ulcer pills.

### Player of the Week

Meet Leland (Red) Fowler, center for the Broncos. Red has made a name for himself in the football history of Boise Junior college.

Leland is a sophomore, and came to BJC from Boise Senior high school where he also played excellent football.

Red weighs 205 pounds and stands 5 feet 10 inches tall. His curriculum here at BJC is physical education, after graduating from BJC he plans to attend the University of Idaho.

### Debate Club

Kenneth Moore, Larry Peck, Arnold Lish and Lee Rodman debated a return debate with Nampa high school, Monday, November 3. This was a practice debate and was not judged. Two weeks ago Nampa debaters were at BJC.

The F.E.P.C. law, which means: Resolved: That the Congress of the United States should establish a Fair Employment practice law, is the 1952 college debate question.

The next debate will be at Pullman, Washington, November 22-23.

## Broncos Defeat O.T.I. 14 to 13

The Broncos maintained their undefeated, untied record last Saturday night in a tough and rugged game against the powerful Oregon Tech Owls. The Owls were edged out by a slim score of 14 to 13 in what Coach Lyle Smith predicted would be a tough game.

The winning point was scored in the third quarter when Boise tied up the score by a touchdown on a pass from Teverbaugh. Red Fowler then led the Broncos to a complete victory when he booted the winning point.

### Dr. Jesse P. Bogue

Dr. Jesse P. Bogue, executive secretary of the American Association of Junior Colleges visited the college Thursday, November 6, to confer with officials and faculty members.

Dr. Bogue met Friday morning with the Boise Junior college academic advisory committee and the problems regarding junior colleges were discussed.

All of Friday morning was devoted to conferences with college officials. At noon the BJC faculty gathered at the Student Union dining hall for a luncheon meeting with Dr. Bogue. The meeting lasted throughout the afternoon until 5 p.m.

Dr. Bogue received the AB degree from DePauw university in 1914 and the DD degree in 1926. He served with the United States Army during the first World War after which he was engaged in pastoral and teaching duties in the mid-west. From 1929-30 he was president of Green Mountain Junior college and from 1936-40 was president of the Northeast Junior college council. Dr. Bogue is the author of the book on colleges entitled "The Community College." Since 1948 he has been associated with the Junior College Journal in his capacity as executive secretary to the organization.

### IK News

For the benefit of those people who enjoy seeing good movies, the I.K.'s have been selling theater tickets that will admit you to the Ada and Boise theaters for only 55 cents in the evening and 45 cents in the afternoon. Those of you who haven't bought your tickets yet had better get on the ball because Friday is the deadline and no more tickets will be sold after that date.

The I.K. members have been working hard to get the student directories printed and distributed. These little booklets containing that valuable information will go on sale in about two weeks. The price will be 15 cents.

Plans for the annual Golden Plume ball are also being made by the club. The dance will be formal and will take place on November 26. As it has always been a big affair, the I.K.'s are anxious for a big turnout this year.

### Dorm Gripes

Heat is an essential necessity, but why all the noise so early in the morning? Four or five o'clock is much too early to arise, especially when that's about the time you hit the hay. It's an odd feeling to just get soundly asleep and hear some startling noise that makes you wonder if the building is falling down. Your first impulse is to shut off the alarm and continue sleeping. When that doesn't quiet things down you begin to think, "Am I crazy?" No it's only the heat beginning to come through the heaters and pipes.

### Sings on TV

Myrtle Siebe, BJC graduate of '52 and a voice student of Lucille Forter, is making big strides in singing and voice on TV and some of the larger radio shows. Miss Siebe joined the Lady Marines and is stationed in San Diego.

Some of the usual crowd that can be seen at the Student Union any hour of the day, five days a week.

### Valkyrie News

At the regular meeting of the Valkyries it was unanimously decided that they would donate their services to the Red Cross. Plans are under way for initiation of the new members.

Each of the members was requested to bring cake or bread for a cooked food sale held at Sears Saturday under the direction of Norma Mae Dike, chairman. It was reported a financial success.

Two calves frisked up to a cow who was standing in a pasture. One said, "Can my friend stay for dinner, Ma?"

### Where Are Those Enthusiastic Dancers?

Miss Catherin, our talented dance class instructor, has invited all dance enthusiasts to contact her if they would like to continue the dance class held in the evenings in the Union.

"I would like to buy a brassiere."  
 "What bust?"  
 "Nothing bust, it just wore out."
