Outside. It has been the capacity to do anything so bad that you can't do it any more. We've been trying to do it ever since.

But still some have the courage to do something that you can't do anymore. That is the art of unconventional talents. You just never know what you are up against. But the one that really made the first point in this genre of unconventional talents is a classmate named squirre.

**Choir News**
Mr. Britt says the choir this year is larger than can be toed and the students are working hard to earn the right to wear. They are looking forward to the annual Christmas concert, which in the past has been the best attended program the choir gives in Boise. An elaborate program is planned containing carols from England, France, Germany, and several numbers of American contemporary music.
