Associated Students of Boise Junior College

Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. I's carnivals spell fun and frolic for all.

Pictured above are the chairman and officers of the annual intercollegiate Knight Union will be the scene of the merriment.

If you're troubled because of those mid-term grades, you can cheer up. You'll be meeting people, catching up with friends, and having a good time at the event.

Graduate's Art Serves U. S. Army

Dean Ingram, who graduated from Boise Junior college in the spring of 1953, is now supplying art work for the various Army camps in Alaska. Here is a case where a student gets a break. He's doing what he likes to do, what he was trained for, and he's getting paid for a worthwhile experience.

It's because people wonder about the future of the arts when the economy is not doing well. But Dean has found that there is still a demand for art work.

Cord's Bedtime Prayer

Open your eyes, faith, and let me read my prayer book. Please accept these tortured rhymes.

Received from Alma Mator's Help me hear these haunting
Whispers through which my weight is lightened.

And stand you still, oh, mist, and sing.

Hold my eyelashes while I pray.

Forgive our chug-a-lugging beer.

Drunk driving laws — and listen here:

Please help the parents at home.

So I can go and go and go —

More On Wheeler

Just the other night Wheeler went on a long expedition. He got prepared for the trip by filling his tank and working another of his weekly quotas of gas. Then he blinked his new taillight, swished around a full gas tank and guzzling another of his favorite drinks.

The decorations and publicity for the dance were being planned by Zorrel Elvin, Danny Homer, Bud Hall, Ted Wabbert and Earl Nelson. It is quite a beautiful party, and the decorations are really quite splendid.

The carnival will be open to the public and children of Boise from 6:00 to 9:00. The dance and college festivities will run from 9:00 to 12:00. Remember the date is April 17. Don't miss it!
**THE ROUNDUP**

**Sisters**

Now that Spring has come, young men's and young women's thoughts turn to moving out of the dormitory. Of course, here are a few suggestions that may keep you out of jail.

- Give a pedestrian a break—time to get out of your way, and don't block the road when you're walking.
- Follow the rules of the road and time of day.
- Don't be a road hog. Keep to the right.
- Don't "hurry" your way through traffic.

**Dorm News**

This is to be a big event for all the little sisters of dormitory women, April 17 and 18. Some of the coeds don't have little sisters as they are entitled to have. Guess or dare care of some other girl's sister.

A picnic is planned at John Devia park Saturday afternoon, the 17th and a movie that evening. The latter is "The Lark," a.k.a. the spring dance. The kythe carnival on Friday and on Sunday everyone will attend church, and will be here on the Boise Junior college campus on Monday afternoon. The girls will attend the I.K.-Valentine day carnival on Friday and thekyrie carnival on Saturday afternoon, the progress of the United States made me think for a moment that I had entered the rudimentary things we still use in Mexico. If Mexico was populated before the United States, it has had less than half the population of the United States for innumerable reasons, and is the object of many misunderstandings. The political, economic, and moral situations are very different from those in the U.S. These are, I believe, the main reasons why the United States and Mexico are such different countries.

The reason for my visit to the United States is to study. I came here under the exchange student program, and all the good things I have in BJC I owe to Mr. Bishop and Mr. Ulrich. My education.

- Mr. Schorsch and Mr. Jami- son left April 8, the organ having been here for about two weeks. They're staying in Morrison during their work here.
- Most of Morrison hall's aunts were at home during spring vacation. Joan Waddell went to Huntington Beach, California; Barbara Wilson and Anna Mae Megen- son, Fresno; Betty函、Spokane; Ada Bilbuck and Deores Hanson, Nampa (Delores worked part time in Boise); Shirley Thom- as, Pendleton, Oregon; Alma Al- well, Council; Barbara Rea, Kuna; Gottenberg, who in 1951, attended summer school in my home town, Saltillo, and told me the possibilities in coming to BJC to further her education.
- Those in charge of the affairs were Helen McKeil, general chair, and Jo Linsa, co-chairman. Other committee chairmen were Lino Jelisko, programs; Max Frentz, decoration; Alice Siebe, publicity; Jeanne Ben- nett, publicity; Wanda Drake, de-流es Hanson and Shirley Thomas, music; Delores Hanson, tickets, and Bunny Kane, door.

**Sports**

The grand debut of the Boise Junior college baseball team was an auspicious success by taking both polls of a double header from the Eastern Oregon College of Education 10-3 and BJC played have on the Boise Junior college baseball diamond.

Pitcher Don Newbill only al- lowed three hits in the first game and at the same time chucked up 13 strike-outs. Newbill pitched all of the first game, and, except for the third inning, was never in any trouble.

A salute to all the Broncs who helped Newbill pitch that double header.

When All?

(Continued)

One of my most interesting ex- periences was when I was travel- ing to the United States. I can re- member very clearly how diffi- cult it was for me to get along in the state of Texas, which was one of the first states I was in. I found during my trip, how different our two countries are.

1. The tremendous progress of the United States made me think for a moment that I had entered the rudimentary things we still use in Mexico.

2. That is my impression, but more than half the population of the United States for innumerable reasons, and is the object of many misunderstandings.

3. The political, economic, and moral situations are very different from those in the U.S. These are, I believe, the main reasons why the United States and Mexico are such different countries.

The reason for my visit to the United States is to study. I came here under the exchange student program, and all the good things I have in BJC I owe to Mr. Bishop and Mr. Ulrich. My education.
