Student Trainee Exam Announced

The U. S. Department of agriculture is interested in receiving applications from students of Boise Junior College for a wide variety of positions in the department's recruitment representative, Mr. K. D. Flock, of Boise, announced today.

Students of forestry will be particularly interested in a number of positions in science and agriculture for which they may be qualified on graduation. Practically all those in the school of agriculture, as well as many in forestry, business administration, biological sciences, physical sciences, and engineering will be eligible to apply. Salaries for those positions start at $500 per year, with annual increases for satisfactory service. Employees with good work performance records are eligible after a year's service for promotion to a higher salary. The next grade salary level is $850 per year. Chances for advancement are excellent. Positions are located both in Washington, D.C., and throughout the United States.

Mr. Flock says 28 kinds of these positions are listed in the newly announced federal services entrance examination. Applicants will be accepted until further notice, but those desiring to participate in the first examination must apply by November 15. Any interested student, Mr. Gettens in the student affairs office, and ask for Mr. Gettens.

"Hello, little girl! Want a ride?"

"No thanks, I'm walking home from one now."

New Enrollment Figures Released

Boise Junior College enrollment figures released by the registrar Friday, show 1,768 individuals in attendance in either the regular day school classes, evening courses, or related courses in vocational and apprentice classes.

Except for a slight decrease in night students, the enrollment represents an increase over last year. Night school figures at this time last year were 852 and this year they are 907.

In the day school classes 971 students are registered as compared to 956 last year. Of this number 512 are freshmen, 321 sophomores, and 118 special students; 649 are men and 322 women.

"There is a decrease of 5% of those registered in business courses," said Ivan Coniberver, "and an increase of 10% has shown up in the life sciences and 26% in the physical sciences."

It is difficult to account for these increases and decreases," said Mr. Hafner, "except to say that they represent certain current trends."

During the day 54 different instructors teach of which 10 are teaching part-time. 17 of these are men and 21 women, of whom 15 have bachelor's degrees and 28 have masters. The night school classes are taught by 41 instructors of which 24 are from the regular college staff.

Freshman Election Results

"The freshmen turned out remarkably well for this election, and the demonstrations are in order, not only for them, but also to those who did not take part in the elections in the history of the school," said President T. F. Freshman, "and it will always be as ardent as they were to-night Wednesday and Thursday." -

Result of Elections:

President: President T. F. Freshman, vice-president, Tom Boyle, secretary, Linda Caulder, librarian; freshman representatives, Leota Johnson, Terry Maya and Joretta Meiler.

USDA Announces Job Openings

We have received an announcement of a new student trainee examination for positions in the physical sciences and engineering in the Postwar Naval Command and its various other federal agencies in Washington, D.C., and the near-by area. The pay is $26.50 to $1,615 a year.

This examination will be used to recruit college students for both the cooperative education plan and the summer employment plan. In the summer employment plan, a student is employed only during the summer vacation period and attends the college of his choice during the entire college term.

Applicants who wish to be scheduled for the first written test to be held on December 5, 1953, must have their Form 500-All on file by November 15.

For further information, come to the student affairs office and ask for Mr. Gettens.

The Wooden Indian Is Still With Us

Still with us and forming cheerfully around the Boise Bar at the St. Cloud Hotel in Boise, the "Wooden Indian." The Indian was unveiled in 1923. Weber and BLC shared the expense of getting the trophy and it has been put up as a price for the winner of the annual football game between the two colleges.

A perennial trophy, Chief Bull Durham, we don't know of another name for the fellow, has remained on this piece for the last three years with only time out for the annual stroll to the game.

Retained only after a terrific hard fought battle on the gridiron last Saturday night, the Indian is a constant tribute to the skill and courage of all Boise and the other House Squads. Although, perhaps, not a true Chippewa, the malagoo-stained beast is a material reminder that the Boisean has accomplished his mission.

Under the benevolent and protective care of Governor J. E. DeArmond, Dusts and Elizabeth, of the Student Body, and the University Union building until the completion of the new gym, he will shine, as the other BLC trophies.

While, unique little creatures, New a beer and hit his teacher, "That promiscuous was the scene," Willie said, "when beer met."
In Our Opinion...

The BJC editorial of last week received a reply in defense of the BJC hand. In The Letter to the Editor which appeared on page 2 of the October 22 issue of the BJC, Shmuel Sachs libelously attacks our editor and conforms the criticism offered on the basis of view, comments and facts.

We have taken pains to date to prepare such a reply to the letter, but after reviewing the apologetic performance of the hand at the BJC meeting last Saturday, we feel that all policies this editorial should be reviewed and revised.

In quality and quantity, the BJC hand had turned its best performance of the season. The exasperating handling of the material, the accurate, precise presentation of the "arguments" presentations, was through the stupidest sort of "editorial" idea, and the spirited general appeal of the hand throughout the game, sprang the rage of all of us. The people's successful efforts in keeping the "editorial" were in vain. There was no doubt that right but that time was being the Bnnc. Hid not the exposed bungler been caught, all the old hokum that the BJC hand would never have been necessary? Once again, "ALL RIGHT, THE BNC HAND!

We did not, however, that discussion of a broad issue of fundamental was defended to the personal level, and if the BJC hand is found by any argument on the intelligence of the Bnnc, however, or by the time that it may have been, for asking such support of as well said. There is no need to argue, as in the student union, of opinion, to be prevented from the event, and having an opinion on an issue too. We are not sure in what Lu's sense, the period of effort intended to

Eugenia Sallabí is a beautiful girl from Spain, who is the daughter of the American people. She is a very pleasant and friendly girl. She was entertained by the American people, and when they learned that she was interested in the country, particularly by the color of her hair, they were very sweet and kind, and always wanting to please her. She expressed herself in Spanish and enjoyed a little extra food, but thanks to the American people, she enjoyed herself, as the child of the old country.

Letters to the Editor

October 18, 1953

Dear Mom and Dad,

You will have to come into Boston to see the Open House. They are going to have it when they let us have the New Science building. It is really a big building.

The Open House will be Tuesday, November 3, from 9:30 to 10:30, and all the faculty will be there.

I am going to have to be back here by 10:30, so I am going to write a short letter. I am going to write a short letter.

Library News

For the benefit of the new students on campus, instead of reviewing sets of books we will review the library.

Now approaching the 17,000 mark, the increase in number of books during the past two years has been tremendous. We now have books to cover all fields, not that we didn't before, but now the selection is more extensive.

You will find a good selection of some of the famous titles of modern literature in our 100,000 volume. We are also delivering the shelves with many of the titles you request regularly.
