ROLLMENT RECORD SHATTERED

B.J.C. Day-Class Registration Exceeds 1000

All past enrollment records were shattered here at BJC this fall as a thousand students entered official registration cards. According to Mr. Finke, director of registration, nearly six hundred freshmen students are in attendance, compared to four hundred sixty-five last year. Roughly four hundred upperclassmen and special students comprise the remainder of the student body.

A wide variety of states and countries are represented here this year. Among the many countries from which students have come are Belgium, El Salvador and France. Some of the distant states represented are Pennsylvania, New York, Ohio, and Alaska. Usually the majority of students come from Idaho and the surrounding area. A large number also come from the surrounding states of Washington, Colorado, and Wyoming.

Night school classes began Monday, September 21. Registration of night students was held on the evenings of September 27 and 28. The enrollment of night school often exceeds that of the daytime enrollment. The number of students who attend night classes this year is also greater than that of all of the other night schools in the state of Idaho combined.

Improvements are continually being made in BJC's registration program. This year a system was devised which made it possible for the college to administer the maximum required pre-registration tests to nearly every freshman student. The results of these tests were used prior to registration time. With the help of the test scores, the advisors were better prepared to assist each student in choosing his or her particular field of study.

VET'S CORNER
Lapsed GI term insurance still
may be reinstated before the end of
the 3-year period.
VA has found that many vet-
nerans believe they no longer are
entitled to GI insurance when they
miss several premium payments
on 5-year term policies.
VA explained that if the 5-year
period has not expired the policies
may be reinstated with the pay-
ments of two monthly premiums.
A medical examination is required
if the policies have been lapsed
more than three months; but none
is required if the policies have
been lapsed less than three months
and the policyholders are
as good health as they were
on the lapse date.
Any VA contact office will be
glad to assist veterans in
reinstating
the GI term insurance. When you
visit the VA office, be sure
to have all the available data
regarding your policies.
Question of the Week
Q— I hold a World War II GI
term policy. Is there any
deadline for converting
my insurance to one of the
permanent plans? A— There is no deadline for con-
verting your World War II GI
term insurance to a permanent
plan. You may continue a term
insurance for as long as you like.
However, the longer you keep
your term insurance, the higher
the premium will be. Premiums
on the other hand, remain con-
stant and do not increase.
